Section 2. The estimated cost of the municipal improvement described herein was fixed by the Board of Supervisors by Resolution No. 3375, passed by more than two-thirds of said board and approved by the Mayor in the sum of \$49,250,000.00, and such sum is too great to be paid out of the ordinary annual income and revenue of the city and county in addition to the other annual expenses thereof or other funds derived from taxation for that purpose. The method and manner of payment of the estimated cost of the municipal improvements described herein are by the issuance of bonds of the city and county of San Francisco to the amount required therefor.

Section 3. The special election hereby called and ordered to be held, shall be held and conducted and the votes thereat received and canvassed, and the returns thereof made and the result thereof ascertained, determined and declared as herein provided and according to the laws of the state of California providing for and governing elections in the city and county of San Francisco, and the polls for such election shall be and remain open during the time required by said laws.

Section 4. The said special election hereby called shall be and hereby is consolidated with the General Municipal Election to be held Tuesday, November 2, 1937, and the voting precincts, polling places and officers of election for the said General Municipal Election be and the same are hereby adopted, established, designated and named, respec-

tively, as the voting precincts, polling places and officers of election for said special election hereby called, and as specifically set forth by the Registrar of Voters of polling places and election officers for the said General Municipal Election.

The ballots to be used at such special election shall be the ballots to be used at said General Municipal Election.

Section 5. On the ballots to be used at such special election and on the voting machines used at said special election, in addition to any other matter required by law to be printed thereon, shall appear the following:

"Rapid Transit Bonds 1938 to incur a bonded debt in the sum of \$49,250,000.00 for constructing subways and acquiring a rapid transit system."

To vote for the proposition where ballots are used, and to incur the bonded indebtedness to the amount of and for the purpose stated herein, stamp a cross (X) in the blank space to the right of the word "Yes." To vote against the proposition and thereby refuse to authorize the incurring of a bonded indebtedness to the amount of and for the purpose stated herein, stamp a cross (X) in the blank space to the right of the word "No."

Where voting machines are used at said special election the said voting machines shall be so arranged that any qualified elector may vote for the proposition by pulling down a lever over the word "Yes" under or near a statement of the proposed proposition appearing on cardboard, paper or other material placed on the front of the machine, and said act shall constitute a vote for the proposition, and by pulling down a lever over the word "No" under or near a statement of the proposed proposition appearing on cardboard, paper or other material placed on the front of the machine, shall constitute a vote against the proposition. Said voting machines and the preparation of the same are to be used in accordance with the provisions of Chapter 96 of the Statutes of 1923, and amendments thereto.

Section 6. If at such special election it shall appear that two-thirds of all the votes cast thereat were in favor of and authorized the incurring of a bonded debt for the purpose set forth in said proposition, then such proposition shall have been accepted by the electors and bonds shall be issued to defray the cost of the construction and acquisition of lands as described in Section One hereof. Such bonds shall be of the form and character known as "serials."

Said bonds shall be dated January 1, 1938, shall bear interest at a rate not to exceed 6 per centum per annum, payable semi-annually; shall be of the denomination of \$1,000 each, and the principal and interest thereof shall be payable in lawful money of the United States, either at the office of the Treasurer of the city and county of San Francisco, or at the office of the fiscal agent of said city and county in the city of New York. Said bonds shall be designated "Rapid Transit Bonds, 1938," and shall be numbered from 1 to 49,250, both inclusive, and shall be payable \$1,370,000 thereof 5 years from the date of said bonds, beginning with the lowest number, and \$1,368,000 thereof of the next higher numbers on the same day in each succeeding year for 35 years, until all of said bonds shall be paid.

Section 7. Bonds issued hereunder may be converted into registered bonds upon presentation to the Treasurer of the city and county of San Francisco, in which event such Treasurer shall cut off and cancel the coupons of said bonds and shall sign a statement stamped, printed or written upon the back or face of the bond to the effect that the bond is registered in the name of the owner and that thereafter the interest and principal of the bond are payable to the registered owner. Thereafter, and from time to time, the bond may be transferred by such registered owner or by attorney duly authorized on presentation of the bond to the Treasurer, and the bond be again registered as before, a similar statement being stamped, printed or written thereon.

Section 8. For the purpose of paying the interest and principal of

said bonds the Board of Supervisors shall at the time of fixing the general tax levy, and in the manner for such general tax levy, provide, levy and collect annually each year until such bonds are paid or until there be a sum in the Treasury of the city and county of San Francisco set apart for that purpose to meet all sums coming due for the principal and interest of said bonds, a tax sufficient to pay the annual interest on said bonds and on such part of the principal thereof as shall become due before the time for fixing the next general tax levy.

Section 9. This ordinance shall be published once a day for at least seven (7) days in The San Francisco News, a newspaper published daily in the city and county of San Francisco, being the official newspaper of said city and county.

#### OFFICE OF CONTROLLER

August 12, 1937.

The following statement was read into the record by Supervisor Roncovieri:

Hon. Alfred Roncovieri, Supervisor, City and County of San Francisco.

Dear Sir: Transmitted herewith is an estimate of annual requirements from taxes for bond interest and redemption of the proposed rapid transit issue—interest at 4 per cent—forty years—for the ten-year period ending June 30, 1947, under the Cahill-Colman plan and the Roncovieri plan.

This information was compiled at the request of Supervisor Shannon and, at his suggestion, a copy is supplied to each member of the Board.

Yours very truly,

HAROLD J. BOYD, Controller.

ESTIMATE OF ANNUAL REQUIREMENTS FROM TAXES OF THE PROPOSED RAPID TRANSIT BOND  
ISSUE, INTEREST AT FOUR PERCENT—FORTY YEARS FOR THE TEN-YEAR  
PERIOD ENDING JUNE 30, 1947.

Fiscal Year	Annual Requirements from Taxes under Cahill-Colman Plan		Annual Requirements from Taxes under the Roncovieri Plan		Excess Cost of Cahill-Colman Plan over Roncovieri Plan	
	Amount	Cents in the Tax Rate	Amount	Cents in the Tax Rate	Amount	Cents in the Tax Rate
1937-1938.....	\$ 8,000.00	.0010			\$ 8,000.00	.0010
1938-1939.....	172,000.00	.0215			172,000.00	.0215

1941-1942.....	1,850,000.00	.2312	1,030,000.00	.1287	300,000.00	.0374

1944-1945.....	3,201,120.00	.4001	2,040,000.00	.2550	1,161,120.00	.1451
1945-1946.....	3,146,400.00	.3933	2,040,000.00	.2550	1,106,400.00	.1383
1946-1947.....	3,091,680.00	.3865	2,040,000.00	.2550	1,051,680.00	.1315
	\$20,561,740.00	\$2.5702	\$13,004,000.00	1.6255	\$ 7,557,740.00	.9447

This schedule is premised upon the assumption that the total interest and redemption requirements for the ten-year period, other than that portion which is to be paid from the proceeds from the sale of bonds will have to be met from taxes.

The foregoing computation of the annual requirements for bond interest and redemption for the ten years ended June 30, 1947, is also predicated on bond sales at par on the various dates as shown in the Controller's report dated June 28, 1937, with interest at four per cent. The first redemptions under the plans as shown above are as follows:

Cahill-Colman plan .....	January 1, 1943
Roncovieri plan .....	January 1, 1948

For the purpose of estimating the cents in the tax rate, we have considered that one cent is equivalent to \$80,000 in the tax levy, which is based upon present assessed values which are subject to change.

**Supervisor Uhl's Statement on Bus Project.**

Supervisor Uhl read the following statement into the record:

San Francisco, California,  
July 21, 1937.

To the Honorable The Public Utilities Commission,  
City Hall.

Gentlemen: I respectfully submit for your approval the following proposal for bus transportation with the request that, if approved by your commission, you will request the Supervisors to place the necessary bond issue to finance same on the November ballot.

**A Considerable Number of Bus Routes Tentatively Proposed by Mr. Cahill are Embodied in the Proposed Bus Plan Herewith Submitted, Including Trackless Trolley "H" Line.**

*It is not contemplated that this bus proposal will take the place of the Municipal car lines on Market street. It merely contemplates an express bus service supplementing present service whereby there will be a saving of approximately 10 minutes to the outlying districts; a 2 minute headway at peak hours, and a 4 minute headway (or less), at off-peak hours.*

There will be no bus operation on the north side of Market street except on the block between Sansome and Battery streets, the block between Mason and Taylor streets, and the block between Montgomery and Kearny. No parking on Market street and on Post and Geary streets at peak hours makes this possible.

Two bus routes will traverse Market street on the south side for several blocks, namely Route No. 6 from Market and Castro to Fourth street, returning via Mission, north side, and McCoppin street; and No. 5 from Market and Valencia to Sixth street, returning via Mission, north side, and McCoppin street. No bus operating on the south side of Mission street.

Mr. Cahill contends bus operation into the down town section at peak hours will add to the traffic congestion. With parking regulations that is not likely.

It is proposed to route buses into the Triangle District on Post street, and into the financial district on Bush street, and that persons who now walk from office buildings on Montgomery and Sansome street, and from the Triangle District, to Market street, will prefer to take express buses at Bush and Montgomery to boarding a street car on Market street. This will relieve much congestion on Municipal cars at the peak hours on Market street.

After all, a speeding-up of transportation at peak hours is our problem. With no parking on Post and Geary streets between 4:30 p. m. and 6 p. m. there is no reason why an express bus cannot be operated between 5 and 6 p. m. in an easterly direction on Geary boulevard via Presidio avenue, down Post to Market, returning via Market street, Geary boulevard, Hyde street, Post street, Presidio avenue, and Geary boulevard. Passengers could be picked up at Post and Market, Geary and Kearny, and then making no stop until reaching First avenue.

Your commission is respectfully requested to observe outgoing and incoming Greyhound bus operations on Mission street between 5 and 6 p. m. At times two Greyhound buses leave the terminal at Mission and Fifth streets at peak hour 5:15 p. m. for San Jose via Mission street. These buses follow one another within a block's distance. They cut in and out of traffic and, despite the heavy traffic on Mission street between Fifth street and the County line, the buses do not exceed their schedule of 23 minutes by more than a few minutes. Certainly operation of the Greyhound buses on Mission street will convince anyone with an open mind that buses are practical.

Bus operation is flexible. If a change in route is found to be desirable the route can be changed. A recent example of this is the change in route of the Greyhound bus formerly operating along Mission, New Montgomery (left turn), Montgomery, Columbus avenue to Hyde street ferry. Present route, Mission, Sixth, Golden Gate avenue, Van Ness avenue, Lombard street to Golden Gate Bridge.

**Why Not Give This Proposed Bus Plan a Trial? It Will Require Five Years to Build the Subway. Improved Transportation Facilities Are Needed Now, Not Five Years From Now.**

Should the Public Utilities Commission fail to favorably recommend this bus plan with slight modifications and additions, the Commission leaves the citizens favoring the bus plan no alternative than to submit to the voters the matter of policy which requires an initiative petition, and if the petition is approved by the voters the routes can only then be changed by a vote of the electorate.

Let's presume the rapid transit plan is submitted to the voters, and let's for argument's sake say it is defeated. Then what? Would it not be advisable to place this bus proposal as an alternate to the rapid transit plan on the ballot and permit the voters to decide the same?

The following important bus routes herein referred to in detail are included in the proposed plan:

*Richmond District:*

1. Forty-eighth avenue and Cabrillo street to down town terminal at Turk and Market streets.
2. Thirty-fifth avenue and California street to Market and Second streets.
3. Between 5 and 6 p. m., Geary boulevard and Forty-eighth avenue to down town terminal at Post and Market streets.

*Sunset District:*

Forty-eighth avenue and Lincoln way to Third and Townsend streets terminal.

*Marina District:*

Chestnut and Divisadero streets to Plan "X" Terminal.

*Mission District:*

1. Alemany boulevard and County line to Market and Fifth streets terminal, with bus "feeder" Geneva and Alemany boulevard via Naples to Excelsior and Alemany boulevard.
2. Twenty-fourth and Jersey streets to Third and Twenty-second streets.
3. Third street and County line to Market and Second streets terminal.
4. Thirtieth and Noe streets to Third and Twenty-second streets.
5. Howard street, Van Ness avenue south, Ingleside District to Ferry Building terminal.

*Upper Market and St. Francis Boulevard:*

Nineteenth avenue and Sloat boulevard to Market and Second streets terminal.

*Ingleside District:*

Nineteenth avenue and Sloat boulevard via Market and Fourth streets terminal.

*Crosstown:*

Thirty-fifth avenue and Lake street via Twenty-fifth avenue and Nineteenth avenue to Alemany boulevard terminal.

There is no gainsaying the fact that the street cars in San Francisco are obsolete, antiquated and noisy, and that San Francisco has lagged behind in the matter of improved transportation facilities.

*Therefore, as the first step toward improved transportation facilities, immediate operation of an up-to-date, modern bus system is recommended.*

**Bus Transportation Is No Longer in the Experimental Stage Judged by the Following Authentic Statements.**

Following is an excerpt from the Saturday, May 1, 1937, issue of the "Automotive Daily News":

*New Bus Equipment Ups Chicago Passenger Traffic.*

Chicago—Increases up to 40 per cent in passenger traffic, increase in safety as measured by reduced number of accidents, decreased driver fatigue, and maintenance of schedules with greater ease, are some of the immediate results following on the purchase by Chicago Motor Coach Co. of new equipment, consisting of 194 new coaches, both double-deck and single deck. These coaches have now piled up a total of nearly four million miles of routine service.

Every line on which new equipment has been placed in operation has shown increases in traffic far beyond those of Chicago's other transportation system. That the new equipment is in a large measure responsible for this increase is indicated by the fact that the few lines still operating with the older equipment have shown a very small increase.

None of the lines are as yet equipped 100 per cent with new equipment. The largest increase in passengers (40 per cent) is on the line with the greatest number of new buses, while the other lines have increases virtually in direct proportion to the number of new units, ranging down to about 29 per cent above last year.

The following is data obtained from the City of New York on the subject at hand:

City Omnibus Corporation is the largest single transportation substitution in all history.

676 motor coaches replaced 585 street cars which had been operating over 140 miles of tracks.

The first of the changeovers took place February 1, 1935, when the Madison avenue line, 11 miles long, was motorized. The coach service proved sensationally popular with the public, and riding increased 90 per cent during the first year of operation.

During the first year of operation, revenues increased 87.29 per cent.

Madison avenue, once snarled in traffic due to slow moving street cars, overnight became a boulevard. On close check the riding time of motor coaches along the route was equal to that of private cars. The substitution of coaches was enthusiastically acclaimed by the press, the public and the merchants, and brought the statement from Mayor La Guardia, "Madison avenue, since the substitution of buses for trolleys, has become one of the show boulevards of the world."

The street cars on Madison avenue operated at three miles per hour; in peak service about six cars per block were used.

After modernizing the avenue and removing car tracks, the bus speed is seven miles per hour during the peak and the buses operate on a one-half minute headway. This applies to the congested district during the peak hour. Note, the buses in this particular district travel over twice as fast as the old street cars.

Following is an actual record covering Madison avenue supplied by the operator:

Number of coaches per day—typical week.....	104
Total miles operated—typical week day.....	9,448
Number of passengers per week day.....	124,342
Maximum number of passengers per hour-peak service....	10,020

Next came the motorization of Eighth and Ninth avenues. Seventy-five Yellow coaches replacing street cars on  $9\frac{1}{2}$  miles of route. From the first day of operation these lines proved highly successful, it being necessary to add 25 more coaches to take care of increased riding. Revenue for both lines increased 82.61 per cent.

Then followed motorization of the following:

Broadway, Seventh avenue, Lexington avenue, Thirty-fourth street, One Hundred Sixteenth street, Spring-Delancy street, Fourteenth street, Seventy-ninth street, Eighty-sixth, ninety-sixth streets.

Since February 1, 1935.

Statistics reported by the Transit Commission of New York for the third quarter of 1936 says in part "The street surface railway lines combined carried a total of 133,821,000 passengers during the quarter of 23,623,000 (15%) fewer than September, 1935.

The total bus traffic of the City of New York reported for the quarter ended September 30, 1936, amounted to 139,923,000 passengers, representing an increase of 46,091,000 passengers or 49.1 per cent over the corresponding period of 1935.

We have a further example of bus transportation right at home, namely, bus operation by the East Bay Rapid Transit Company, which company now operates buses over 35 routes. The most recent routes established are operated between East Bay points and Fourth and Mission streets in San Francisco. From this latter point passengers are landed across the Bay at Richmond in 30 minutes, whereas at times it takes as much as 49 minutes to land passengers from Fifth and Mission streets to the County line. In the next 12 months, swift, luxurious electric trains will be in operation between the East Bay and San Francisco, each car seating 104 passengers. *It, therefore, behooves San Francisco to meet this progressive competition at once; and as a first step, installation of express bus service to the outlying sections of San Francisco must be inaugurated.*

The Greyhound Company operates what is comparable to an express bus service between Fifth and Mission streets and the County line. The bus leaves Fifth and Mission streets at peak hour 5:15 p. m., arrives at the County line in from 27 to 29 minutes. The schedule in off-peak hours is 23 minutes. Whereas, the schedule of the Market Street Railway in off-peak hours is 31 minutes, but at peak hour 5:15 p. m. requires from 37 minutes to 49 minutes to traverse the same route. The Greyhound bus picks up passengers at Sixteenth street, Twenty-second street, and Twenty-fourth street.

The plan embodies the Cahill recent proposal of trackless trolley operation on Van Ness avenue. A change from trolley to trackless trolley is necessary in order that persons can board or alight from the bus at the curb, which is one of the most important features of bus operation. In this connection, with the narrowing of sidewalk widths now in vogue, the wider streets are a menace to life and limb. Since 1925 eight people while standing in safety zones waiting for street cars have been killed.

Following are the bus routes contemplated in the proposal, in detail:

ROUTE NO. 1—From Geneva avenue and County line via Third street to Market; thence via Market, Second street, Howard to Third street and returning to Geneva avenue.

Northbound at peak hours passenger load between Geneva avenue and Evans street; from Evans street to Market street no stop for taking on passengers. Returning, the bus loads at Market and Third streets, Market and Second streets, Mission and Second streets, takes on no further passengers until arriving at Third and Evans streets.

Express service *at peak hours* taking on passengers between Sickles street and Silver avenue; no passengers taken on between Silver avenue and Market street; returning, passengers taken on at Market and Sixth streets, Market and Mission streets at Fifth, no further passengers taken on until reaching Silver avenue.

ROUTE NO. 3—Terminal, Embarcadero at Market street, thence via Embarcadero, Howard street, Van Ness Avenue South, Army street, Mission street, Ocean avenue to Nineteenth avenue and Sloat boulevard, where passengers can transfer via Sloat boulevard to the Ocean or crosstown. It might be preferable to route this line to Ocean via Sloat boulevard in place of transferring passengers.

*At peak hours*, express service taking on passengers between Nineteenth avenue and Army street. No passengers taken on between Army street and the Embarcadero; returning passengers taken on from Embarcadero to Seventh, no further passengers taken on until reaching Army street.

**FINANCING:**

Bond issue 5 years.

Kindly advise when the Public Utilities Commission will consider this matter so that I may be present.

Respectfully submitted,

ADOLPH UHL,  
Supervisor.

**Discussion.**

**THE PRESIDENT:** Is there objection to number one on the calendar? Roll call.

**SUPERVISOR RONCOVIERI:** Just a minute. I would ask the members of the Board if they received a copy of an official tabulation prepared by Mr. Boyd, who sent me this one?

**SUPERVISOR UHL:** I did.

**SUPERVISOR RONCOVIERI:** I understand it was prepared at the request of our President and covers the annual requirements of the rapid transit bond issue, with interest at 4 per cent for 40 years, for the 10 year period ending July 30, 1947, on both the Cahill-Colman plan, and the Ridgway-Roncovieri plan. This information was compiled at the request of Supervisor Shannon, and at his suggestion a copy was supplied to each member of the Board. I would ask if any member of the Board did not receive it. If you read it, if you studied it, and if you analyzed it, how can you ever vote for this Cahill-Colman plan? What argument can you give? The new Cahill-Colman plan will require for bond interest and redemption during the first 10 years a total sum of \$20,561,740; that is what the Cahill-Colman plan will force the taxpayers to pay, represented by a total tax rate of \$2.57. That is the burden you are asked to impose on the backs of the taxpayers if you adopt the Cahill-Colman plan of financing. About 18 months ago Mr. Cahill advocated the Ridgway-Brahdy plan of financing, but Mr. Cahill has switched to the Colman plan, and he has never explained why.

The total sum to be produced under the Ridgway-Brahdy plan will be, in ten years, \$13,004,000, and the tax rate will be \$1.62, and the difference between the two plans will be \$7,557,740, or 94.47 cents in the tax rate in favor of the Ridgway-Brahdy plan and against the new Cahill-Colman plan. When you vote today as the matter stands on the calendar, remember, gentlemen, that you will be voting a burden in excess of the original plan in the sum of \$7,557,740, and totally unnecessary, that's the worst of it! I can't see how anybody expects this bond issue to go over with the people under the Cahill-Colman plan of financing. You have just heard the gentlemen who spoke say they don't want any subway under the very best plan. Be assured you will have an uphill fight presenting the bond issue in its very best form. Presented at its worst financially, what will happen? It will be so overwhelmingly defeated that it will stand as the one bond issue having received the greatest number of "No" votes of any yet presented to the people. That is my prediction!

Now, I want you all to remember, because it is a fact, that Supervisor Meyer, in December of last year, introduced a resolution, or six motions, I won't repeat all of them, but one I shall repeat, and it is:

"I move that the Public Utilities Commission's subway and rapid transit proposal be submitted to the voters in the form of a bond proposition and that the Board go on record favoring its ratification by the voters."

From time to time since December, the matter came before the Board, and on March 29, the record shows that the public Utilities Commission's subway plan was before us then on the same motion. In that connection, Mr. Brown said:

"In the first place, the question before us today is a question of policy. It does not specifically offer to the people, to vote on the \$52,000,000 bond issue. It states that the Board of Supervisors is in favor

of submitting such a proposal to the people. With that I can have very little argument."

And throughout the discussion he mentions again the \$52,000,000, he mentions it two or three or four times. Then I mentioned it as \$52,700,000. I stated to the President:

"Is it your interpretation of the motion that is before us that we are voting in favor of a \$52,700,000 bond issue?"

And our President answered: "No."

And again:

"Supervisor Roncovieri: There is some mention I know, of that amount, but in voting for this, are we binding ourselves individually to vote for it when it comes up later—because it must come up later—for a \$52,700,000 bond issue, or could the amount be changed?"

"The President: I feel that the amount could be changed."

"The Clerk: That is correct."

Then several others spoke, Mr. McSheehy, and others, I will not read you what they said, but the amount was uppermost with all of us. That amount was \$52,700,000 in March, the 29th, to be exact. What happens between March 29 and May 7? Mr. Cahill walks in here with a new financial plan and subtracts from the \$52,700,000 the sum of \$6,000,000 that he originally included for interest during construction—we all know that. Mr. Cahill, for some reason unexplained up to this moment, and I challenge him to explain it right now, or his representative—changed his original proposal to include interest during construction by reducing the \$52,700,000 to \$46,700,000. What he wanted, in my opinion, was to make room for the purchasing of some buses, so he increased the \$46,700,000 by \$2,550,000, making the new total \$49,250,000, and this sum omits all interest during the five years of construction.

Who would buy anything and pay for it before receiving it? When you buy an automobile, suppose that it takes one month before its delivery, you do not pay for it before you get it, and yet you want the people of San Francisco to begin paying for the subway immediately when they can make no use of it whatsoever. Mr. Colman wants to save the taxpayers of the future, forty years from now, from paying this bill. I want to pass this bill to future generations. That is the entire difference between the Cahill-Colman plan and the original Ridgway-Brahdy plan of financing the project which I am advocating.

You cannot escape paying interest—I do not contend that my plan, the Ridgway-Brahdy plan, would escape paying interest. That would be ridiculous. But the question is, shall we of this generation pay now, and impose upon the present taxpayers this huge sum of \$20,561,000, and a tax increase of \$2.57, or shall we pass this burden on to those who are coming in the future, and will outnumber us, and who are going to enjoy the subway? Because I believe that a subway that will last for centuries and that future generations will enjoy, I refuse to be a party to imposing upon the present generation, the people living now, that unnecessary heavy financial load, when there is another simple method that is used in every similar case. The method which has been used in New York for the building of all of the subways, and which was used for the financing of our two great bridges, and for our water distribution system, Hetch Hetchy, and so forth. My plan of financing is nothing new. You can and should adopt this best and most simple method in the place of the one proposed here, and relieve our present-day taxpayers from this excessive burden of taxation.

Well, I believe in submitting anything that makes sense to the people when a substantial body of our people ask for it. But I will never vote to submit anything that is stupid, and insults the intelligence of the people, or anything that is not proper. And when I am asked to submit something that is going to cost the people \$7,557,740 in excess of another plan, and going to add 94.47 cents to their tax rate, I know that I am insulting their intelligence. I shall never do this. Therefore, I refuse to change my vote from right to wrong. I am convinced that I am right, and nothing can influence me to change my position.

I don't know how you will vote, but if there are eight members who will vote to insult the intelligence of our people, all right, go ahead—I am against you!

SUPERVISOR COLMAN: Mr. President—

SUPERVISOR RONCOVIERI: Pardon me, may I make an amendment to that which is before us?

THE PRESIDENT: Proceed.

SUPERVISOR RONCOVIERI: I should like to amend it so that the sum of \$49,250,000 be changed to \$51,000,000, which will include interest during construction.

THE PRESIDENT: I will second that motion.

SUPERVISOR COLMAN: Speaking against the amendment. I want to show Supervisor Roncovieri, in the record of March 29th, which he has, on page 475, under remarks I made there,—you see them at the bottom of the page?

SUPERVISOR RONCOVIERI: Page 475?

SUPERVISOR COLMAN: Yes. "Now there is no question in my mind, and I think no question in the minds of any members of the Board as to the necessity of this thing. I don't want to go into the details again, and I agree with Supervisor Roncovieri that the definite amount has not yet been figured, and I would like to reserve the right to appear before the finance committee to discuss the \$6,000,000 saving mentioned at the time, which is a saving of \$6,000,000."

I quote that to show that even prior to that time I suggested the elimination of the \$6,000,000 as an unnecessary expense, the payment of interest on interest, so you see your statement is not correct; it had been considered on March 29th, as appears in the record, part of which you read today, Supervisor Roncovieri.

And you did not refer back to the original plan; the original plan stated \$6,000,000, and if you felt that was the wise thing to do that is what should be done, but to propose to add only \$1,750,000, and Mr. Cahill amended it and took out \$6,000,000 interest on interest and added some \$2,000,000,—I have forgotten the exact amount,—for the extension of buses.

Now it is perfectly true that in the earlier years, for the first 10 years it means 94 cents in favor of your plan, but before the bond issue is paid off, and the interest paid off, that 94 cents disappears, and your plan will cost the taxpayers of San Francisco 80 cents more than will the plan advocated by Mr. Cahill. The original cost given by the Controller was \$6,300,000, and each cent in the tax rate is \$80,000, so this multiplied by 80, you get \$6,400,000, which is approximately 80 cents in the tax rate that your plan will cost over the plan advocated by Mr. Cahill.

SUPERVISOR RONCOVIERI: 40 years from now.

SUPERVISOR COLMAN: If you go on to the 15th year, or the third 5 years period, you will find more interest and redemption under your plan, and the fourth 5 years the same, and the fifth 5 years, and so on, from the end of the 10th year to the end of the 40th year. Now if you think it is wise financing to put off what you have to pay, and simply put it off to the future and adding a burden to that, why, I can't agree with you.

Today the Controller tells me, if I recall correctly, that we owe about \$60,000,000, \$15,000,000 of which is for bond interest and redemption, divided about fifty-fifty for each. Imagine how much better off we would have been had we adopted the pay-as-you-go plan,—we would then not have this enormous debt and we could take care of these things,—we could then have appropriated this money and paid outright for the various improvements, but if this policy is to continue we will soon have nothing but bond interest and redemption in the budget, and I can then readily visualize that our budget will jump from 25 per cent of the budget for bond interest and redemption to a much higher figure.

Now you have departed entirely from the original plan, which was

to include interest on interest during construction; but as you put it you seek to bring about a condition where our requirements will be no greater than they are now, and that is your determination, that the amount of \$1,750,000 will do that, which was not the original figure at all.

Now, of course, that plan of yours has no value today, because you are advocating additional bond issues to go on the ballot, and if they were to pass the added requirements will be eventually greater, so the plan you advocate would have no value. So, gentlemen, in the name of sound financing, and to preserve the credit of the city, I urge you to vote down this motion,—which we have already done twice before.

**SUPERVISOR RONCOVIERI:** I would like to conclude if no one else is going to speak.

**THE PRESIDENT:** If I may be permitted to speak from the chair: The statement I am going to make is really more an explanation of my vote, because I know that no matter what is said there are eight votes going to vote for submission, but I do desire to call your attention to the tabulation that I had made by the Controller, and a copy of which was sent to each member of the Board; and if you have it before you you can follow me.

My principal thought is to save the taxpayer of today, and in connection with that I would like to read you an article from last Saturday's Examiner. Save their homes. Contending that the rapid increase in foreclosure of Home Owners' Corporation mortgages is depriving those Americans of their homes at a loss to the government, etcetera. (Reading.)

Note they are putting off the payment from 10, 15 to 25 years, to help the people of today. The article goes on, and that is the purpose of my position in this matter, I am trying to help the people of today, who are having a difficult time trying to get along, to meet their interest, and no matter how small it is they are anxious to help them, even to a small degree.

Now under the plan that has been prepared at my suggestion by the Controller, in 1939, only two years away, there will be practically 12 cents added to the tax rate; in 1940, 20 cents; and in 1942, 41 cents. It is a terrific burden on the people of the present generation, and it is the people of today that we who are opposed to this are going to vote against, and I feel that the proper thing to do would be to spread it over a greater period of years, and adopt the plan as suggested by Mr. Roncovieri and let the future generations pay for it.

The press says, let the people decide. Let the people decide to have our main thoroughfare torn up for five years; let the people decide to have 20 to 40 cents added to their tax rate in the next three to five years; let the people decide to let the Public Utilities Commission sleep on the job for the next five years and let the present intolerable traffic conditions continue; let the people decide that it is time to change the charter so that ideas can emanate from other sources than from the Public Utilities Commission.

**SUPERVISOR COLMAN:** What paper is that, Mr. President?

**THE PRESIDENT:** Those are my statements.

**SUPERVISOR COLMAN:** I figured you were reading from The Examiner.

**THE PRESIDENT:** That was a paper by Shannon.

**SUPERVISOR COLMAN:** Mr. President—

**THE PRESIDENT:** (Interrupting) Is there any other member desires to speak?

**SUPERVISOR McSHEEHY:** The subject is—Supervisor Roncovieri's amendment, is it?

**THE PRESIDENT:** Correct.

**SUPERVISOR COLMAN:** I want to point out to the Board Supervisor Shannon quoted from Mr. Boyd's report the various amounts, 23 cents in 1941-1942 is correct.

THE PRESIDENT: How is that, Supervisor Colman?

SUPERVISOR COLMAN: I say, you quoted from this statement from Mr. Boyd that the tax rate under what he calls the Cahill-Colman plan in 1941-42 is 23 cents.

THE PRESIDENT: Right.

SUPERVISOR COLMAN: But you did not mention there that it was .1938 under the Roncovieri plan, and the difference there is but 4 cents, and so forth, 41 cents against 22 cents, and 40 cents against 25. I would like to read some of the figures I compiled. I didn't have time to ask the Controller to do it, but he can check me, and after the 35 years, according to the figures I have, or after the 3rd five years, I should say—

THE PRESIDENT: (Interrupting) What do you mean, 3rd five years?

SUPERVISOR COLMAN: From the 10th to the 15th years, would require \$1.88, whereas under the Roncovieri plan it would require \$2.20; and the 4th five years it would require, under the Cahill plan, \$1.70, and the 4th five years under the Roncovieri plan would require \$1.99; the 20th to the 25th years would require, under the Cahill plan, \$1.53, and under the Roncovieri plan \$1.58; and so on, until in the 40 years the Roncovieri plan must cost the taxpayers 80 cents more than the other plan.

SUPERVISOR RONCOVIERI: Mr. Colman has made the very argument that I made in the beginning. I stated that we would pay more, we could not escape paying interest, and of course we can not; and he says that later on the interest under my plan will grow. He is right, he is perfectly right. I am trying to protect for the next 10 years the living taxpayer, and for one living taxpayer today, for one of our population there will probably be two and maybe three taxpayers in the future, with an increase in the assessment rolls, and the one cent which Supervisor Colman says today produces \$80,000, one cent then may produce \$150,000 or \$200,000 as the city grows. It will be much easier on those that are coming, the future, to pay the bills, than for us, under either plan, Mr. Colman's or mine. The burden is heaviest during the first ten years, and, as you state, it runs right up from the beginning, .001 the first year, the next year it is .215 and under my plan nothing, nothing. Then you get 11 cents, or nearly 12 cents, and then .1973, .2312, and 41 cents in about five years; six years from now, the people will have to pay 41 cents, and then 40 and then 40 and then 39. Under my plan it will be 6 cents in the 3rd year, against your 12; it will be 12 cents against your 19; and in the 7th year it will be 19 cents against your 23 cents, and then 22 cents against your 41 cents; and never exceed 25½, that is the highest.

Now I think there is an emergency here, and they all understand,—surely everybody understands buying on the installment plan does cost more, the merchant has to charge interest,—if you want to buy a refrigerator or an automobile, or anything of that kind you buy it on time, and the interest has to be paid, and that is exactly what we are doing, we are buying a subway on time, on the installment plan—only I want the installments to be as small as possible upon the present generation, because while it is true some of them will go a little higher than the other plan, yet there will be more people then, and more wealth to pay the bill.

We are still paying, we are paying now \$14,761,000 for bonds, but approximately \$8,000,000 of that comes out of the utilities and does not affect the tax rate, and approximately \$6,000,000 affects the tax rate. On top of that, under the plan proposed the amount will increase terribly; and under my plan never will the requirements for bond interest and redemption exceed the bond interest and redemption of the present year, never. It is \$14,761,000 and next year it will be less, and the next year a little less, less, less, less, less as the years come and go, it goes down to nothing,—but under this proposed plan it jumps up immediately to \$15,000,000 for several years. I can't get that, gentle-

men,—possibly I should not address myself to Supervisor Colman, but I honestly and conscientiously think he is wrong,—and you, Supervisor Colman, conscientiously think you are right. Go ahead and present it to the people and you will see what they will do to your plan of financing.

THE PRESIDENT: Call the roll, on the amendment.

THE CLERK: Supervisor Brown?

SUPERVISOR BROWN: No.

THE CLERK: Supervisor Colman?

SUPERVISOR COLMAN: No.

THE CLERK: Supervisor McSheehy?

SUPERVISOR MCSHEEHY: No.

THE CLERK: Supervisor Mead?

SUPERVISOR MEAD: Aye.

THE CLERK: Supervisor Meyer?

SUPERVISOR MEYER: No.

THE CLERK: Supervisor Ratto?

SUPERVISOR RATTO: No.

THE CLERK: Supervisor Reilly?

SUPERVISOR REILLY: Aye.

THE CLERK: Supervisor Roncovieri?

SUPERVISOR RONCOVIERI: Aye.

THE CLERK: Supervisor Schmidt?

SUPERVISOR SCHMIDT: No.

THE CLERK: Supervisor Shannon?

SUPERVISOR SHANNON: Aye.

THE CLERK: Supervisor Uhl?

SUPERVISOR UHL: No.

THE CLERK: Seven "Noes," four "Ayes."

THE PRESIDENT: Motion lost. Call the roll on the motion, on the main question.

SUPERVISOR MCSHEEHY: Mr. Chairman, and members of the Board: I voted last week—I very, very carefully prepared a statement as to why I voted, setting forth my reasons. That statement was not prepared in five minutes, nor in one evening; it took me several evenings at home to compile that statement and put it together. I made up my mind I would not say one word here today. \* \* \*

I have served a great number of years on this Board and I have voted alone more than any man on this Board here today. I have voted alone Monday in and Monday out, and no one knows better than you do the stand I have taken on many subjects. Just why you should use that word—I don't know just why you and two other members of this Board, and especially one other member, are taking the stand you are here today. I don't know, I don't know. Two members of this Board, and I am referring to Supervisor Roncovieri and yourself, and we have served together, we three, a great many years on this Board. I have seen you differ time in and time out, and I have seen you vote with the majority and then vote with the minority, not once but a great many times, but I never used the word you used here today. I want to say to you, Mr. Chairman, and to the members of this Board, there is one particular reason that perhaps I did not—or that I have overlooked in my statement of a week ago, and I want the record to show that reason here today. I read to you Section 121 of our Charter, clearly stating the duties and powers of the Manager of Utilities, Mr. Cahill, and clearly stating the authority that that man has, and showing conclusively that we have really no authority whatsoever to tell the people of San Francisco just what plan they shall adopt in reference to this utility, and this important bond issue that we are about to vote for here today, the plan is entirely in the hands of Mr. Cahill and the Public Utilities Commission. Several members of this Board, myself included, submitted to this Board an entirely different plan, and Mr. Cahill turned that plan down; and Mr. Cahill

turned Supervisor Roncovieri's plan down one week ago, because I asked him a direct question.

Now, members of this Board, what position do we find ourselves in here today? As one member of this Board I have differed with certain members, and differed with them time in and time out, and one member in particular, but we admire that man for his loyalty. He came on this Board entirely through the popularity of Supervisor Uhl, and he has followed Supervisor Uhl's views on almost all subjects, subjects of any importance, but today Doctor Schmidt differs with Supervisor Uhl, and he does so because he believes in Section 121 of the Charter.

Now our position is a simple one,—rapid transit is needed by the people of San Francisco, and if they do not get it today they will get it some day, they must have rapid transit. All right, by a majority vote, or at least by four votes of this Board we can stop rapid transit from going on the ballot. What will happen? An election will take place in November, and the administration as it is constituted today, and especially Mr. Cahill, representing the Public Utilities Commission, will tell the people, "well, I offered you a plan and the Board of Supervisors could not agree on the plan, and therefore I can't do anything." Well, the press offered Mr. Cahill a plan and he wouldn't agree on it, and therefore we can not do anything, and therefore the people are suffering. Now let the people decide. I am going to the polls next November and I am going to vote against the Cahill plan, and if over one-third of our people do likewise it will be a mandate to Mr. Cahill to change that plan and he will change the plan, because he will be told to change the plan. Now if we do not place him in that position we will place the people of San Francisco in a position that they will get no rapid transit whatsoever, and they can not get it because of the difference of opinion between this Board and Mr. Cahill, so I am going to say to the people of San Francisco, "Go to the polls next November and express yourselves on this all-important subject, and by your mandate tell Mr. Cahill that he is wrong in proposing the plan that he has proposed to this Board."

So that is the reason why I am voting for the submission of the rapid transit plan as outlined by Mr. Cahill.

\* \* \* \* \*

SUPERVISOR COLMAN: Mr. President, \* \* \*

I have consistently been in favor of this proposal for rapid transit, consistently; if my memory is incorrect I will change my remarks; but I believe our President has cast three votes already prior to the one he is about to cast; one opposed to rapid transit; one in favor of it; and one opposed to it. What his fourth vote will be I don't know, that is his privilege. I am not criticizing him whatsoever, nor have I ever criticized any of the actions of the members of this Board in the manner in which our President has seen fit to criticize us, but, Supervisor McSheehy, take my advice and be too big to notice these remarks and just forget them.

I am explaining my vote in favor of rapid transit. I do that with the firm conviction that this bond issue has a very possible chance of passing with the people of San Francisco. We have presented to them a real plan by which the rapid transit problem can be solved. No other plan approaches this in its practicability or in the efficient manner in which the difficult matter has been treated. It can win. If it does not win we, well, we will have done our duty; we have not been idle, we have recognized conditions and we have told the voters just exactly what the situation is, and we will give them the benefit of our advice if called upon by the commission or whoever will have charge of the campaign, and I will be very happy to lend my assistance over the radio or any place desired to help convince them that this will be a great benefit for them, and that the financing of it is sound, as sound as can be. There are enough, and more than enough people who ride on the street cars to decide this problem if they are sufficiently interested in their own profit, particularly in the business of getting

down to their places of work and getting home in the evening; and if they think of it with the intelligence that is characteristic of the voters of San Francisco, I think it has a very good chance of success.

**SUPERVISOR RONCOVIERI:** I want to call the attention of the Board to this: That repeatedly various members rise and say that we are compelled to accept, under the Charter, the Cahill plan. That is true only as to the engineering, as to the subway, but not as to financing, that is a responsibility of this Board.

#### Proposed Amendment.

Thereupon, Supervisor Roncovieri, seconded by Supervisor Shannon, moved as an amendment to Bill No. 1423, Calling and Providing for a Special Election for the Issuance of Rapid Transit Bonds, that the amount of the \$49,250,000 be changed to \$51,000,000, which will include interest during construction.

Whereupon, the roll was called on the foregoing amendment, and the same was *defeated* by the following vote:

Ayes—Supervisors Mead, Reilly, Roncovieri, Shannon—4.

Noes—Supervisors Brown, Colman, McSheehy, Meyer, Ratto, Schmidt, Uhl—7.

The question being on the main issue, S. W. Douglass, representing Carmen's Union Division No. 1004, Market Street Railway employees, speaking also, he said for the Municipal Car Men's Organization, placed such organizations on record against the proposed subway plan of Public Utilities Manager Cahill.

#### Passed for Second Reading.

Whereupon, the roll was called on the foregoing Bill No. 1423 and the same was *passed for second reading* by the following vote:

Ayes—Supervisors Brown, Colman, McSheehy, Mead, Meyer, Reilly, Ratto, Schmidt—8.

Noes—Supervisors Roncovieri, Shannon, Uhl—3.

#### HOSPITAL BONDS, 1938.

The following bill, recommended by the Finance Committee, was taken up:

(Code No. 12.123)

Bill No. 1424, Ordinance No. 12.1232, as follows:

CALLING AND PROVIDING FOR A SPECIAL ELECTION TO BE HELD IN THE CITY AND COUNTY OF SAN FRANCISCO ON TUESDAY, NOVEMBER 2, 1937, FOR THE PURPOSE OF SUBMITTING TO THE VOTERS OF THE CITY AND COUNTY OF SAN FRANCISCO A PROPOSITION TO INCUR A BONDED DEBT OF THE CITY AND COUNTY OF SAN FRANCISCO TO THE AMOUNT OF \$1,600,000 FOR THE ACQUISITION, CONSTRUCTION AND COMPLETION OF A MUNICIPAL IMPROVEMENT CONSISTING OF ENLARGING AND REMODELING OF THE HASSLER HEALTH HOME, LAGUNA HONDA HOME AND THE SAN FRANCISCO HOSPITAL, AND INCREASING THE QUARTERS FOR THE USE OF X-RAY, ALL DESIGNED TO AID AND FACILITATE THE TAKING CARE OF THE AGED PERSONS AND THE INFIRM AND INDIGENTS WHO ATTEND THE HOSPITALS CONDUCTED BY SAN FRANCISCO, AND PROVIDING FOR THE FORM, DENOMINATION AND RATE OF INTEREST FIXING THE PAYMENT OF INTEREST AND RETIREMENT OF SAID BONDS AND PRESCRIBING NOTICE TO BE GIVEN OF SUCH ELECTION.

Be it ordained by the people of the city and county of San Francisco, as follows:

Section 1. A special election is hereby called and ordered to be held in the city and county of San Francisco on Tuesday, the second day of

November, 1937, for the purpose of submitting to the electors of said city and county the proposition to incur a bonded debt of the city and county of San Francisco to the amount of \$1,600,000 for the acquisition, construction and completion by the city and county of San Francisco of a municipal improvement consisting of enlarging and remodeling the Hassler Health Home, Laguna Honda Home and the San Francisco Hospital, and increasing the quarters for the use of X-ray, all designed to aid and facilitate the taking care of the aged persons and the infirm and indigents who attend the hospitals conducted by San Francisco.

Section 2. The estimated cost of the municipal improvement described herein was fixed by the Board of Supervisors by Resolution No. 3463, passed by more than two-thirds of said board, and approved by the Mayor in the sum of \$1,600,000, and such sum is too great to be paid out of the ordinary annual income and revenue of the city and county in addition to the other annual expenses thereof or other funds derived from taxes for that purpose.

The method and manner of payment of the estimated cost of the municipal improvements described herein are by the issuance of bonds of the city and county of San Francisco to the amount required therefor.

Section 3. The special election hereby called and ordered to be held shall be held and conducted and the votes thereat received and canvassed, and the returns thereof made and the result thereof ascertained, determined and declared as herein provided and according to the laws of the State of California providing for and governing elections in the city and county of San Francisco, and the polls for such election shall be and remain open during the time required by said laws.

Section 4. The said special election hereby called shall be and hereby is consolidated with the General Municipal Election to be held Tuesday, November 2, 1937, and the voting precincts, polling places and officers of election for said General Municipal Election be and the same are hereby adopted, established, designated and named, respectively, as the voting precincts, polling places and officers of election for said special election hereby called, and as specifically set forth by the Registrar of Voters of polling places and election officers for the said General Municipal Election.

The ballots to be used at said special election shall be the ballots to be used at said General Municipal Election.

Section 5. On the ballots to be used at such special election and on the voting machines used at said special election, in addition to any other matter required by law to be printed thereon, shall appear thereon the following:

"Hospital Bonds, 1938, to incur a bonded debt in the sum of \$1,600,000 for improving the Hassler Health Home, Laguna Honda Home, the San Francisco Hospital and increasing the X-ray facilities to aid in the care of their inmates."

To vote for the proposition where ballots are used, and to incur the bonded indebtedness to the amount of and for the purpose stated herein, stamp a cross (X) in the blank space to the right of the word "Yes." To vote against the proposition and thereby refuse to authorize the incurring of a bonded indebtedness to the amount of and for the purpose stated herein, stamp a cross (X) in the blank space to the right of the word "No."

Where voting machines are used at said special election the said voting machine shall be so arranged that any qualified elector may vote for the proposition by pulling down a lever over the word "Yes" under or near a statement of the proposed proposition appearing on cardboard, paper or other material placed on the front of the machine, and said act shall constitute a vote for the proposition, and by pulling down a lever over the word "No" under or near a statement of the proposed proposition appearing on cardboard, paper or other material

placed on the front of the machine, shall constitute a vote against the proposition. Said voting machines and the preparation of the same are to be used in accordance with the provisions of Chapter 96 of the Statutes of 1923, and amendments thereto.

Section 6. If at such special election it shall appear that two-thirds of all the votes cast thereat were in favor of and authorized the incurring of a bonded debt for the purpose set forth in said proposition, then such proposition shall have been accepted by the electors, and bonds shall be issued to defray the cost of the buildings, municipal improvements, other properties and structures described herein. Such bonds shall be of the form and character known as "serials."

Said bonds shall be dated January 1, 1938, shall bear interest at a rate not to exceed 6 per centum per annum, payable semi-annually, shall be of the denomination of \$1,000 each, and the principal and interest thereof shall be payable in lawful money of the United States, either at the office of the Treasurer of the city and county of San Francisco or at the office of the fiscal agent of said city and county in the city of New York. Said bonds shall be designated "Hospital Bonds, 1938," and shall be numbered from 1 to 1,600, both inclusive, and shall be payable \$160,000 thereof one year from the date of said bonds, beginning with the lowest number, and \$160,000 thereof of the next higher numbers on the same day in each succeeding year for nine (9) years, until all of said bonds shall be paid.

Section 7. Bonds issued hereunder may be converted into registered bonds upon presentation to the Treasurer of the city and county of San Francisco, in which event such Treasurer shall cut off and cancel the coupons of said bonds and shall sign a statement stamped, printed or written upon the back or face of the bond to the effect that the bond is registered in the name of the owner, and that thereafter the interest and principal of the bond are payable to the registered owner. Thereafter, and from time to time, the bond may be transferred by such registered owner in person or by attorney duly authorized on presentation of the bond to the Treasurer, and the bond be again registered as before, a similar statement being stamped, printed or written thereon.

Section 8. For the purpose of paying the principal and interest of said bonds, the Board of Supervisors shall, at the time of fixing the general tax levy, and in the manner for such general tax levy, provide, levy and collect annually each year until such bonds are paid or until there be a sum in the Treasury of said city and county set apart for that purpose to meet all sums coming due for the principal and interest of said bonds, a tax sufficient to pay the annual interest on said bonds and on such part of the principal thereof as shall become due before the time for fixing the next general tax levy.

Section 9. This ordinance shall be published once a day for at least seven (7) days in The San Francisco News, a newspaper published daily in the city and county of San Francisco, being the official newspaper of said city and county.

Supervisor Colman, in explanation of his vote, said that if this issue was for any other purpose he would vote against it because he did not think it a proper way to finance it. It should be done in making up the budget and would in the end result in a saving to the taxpayers.

#### Passed for Second Reading.

Resolution No. 3476, as follows:

Whereas, much of the automobile traffic between San Francisco and Sacramento, as well as other Valley points, traverses the Carquinez Bridge, and

Whereas, it is the opinion of this Board of Supervisors that the present toll rates in force on the Carquinez Bridge, which are fixed at sixty cents per car, ten cents for the driver and ten cents for each passenger, constitute an unreasonable and exorbitant charge and should be lowered, at least, to twenty-five cents per car, with no additional charge for driver or passengers, up to five; now, therefore, be it

Resolved, That the City Attorney be and is hereby authorized and requested to, on behalf of the City and County of San Francisco, institute proceedings before the Railroad Commission of the State of California to the end that the toll rates on the Carquinez Bridge may be lowered in accordance with the foregoing suggestion, and be it

**Requesting State Officials to Apply for Federal Aid for Elimination of Golden Gate Bridge Bottlenecks; Also Opposing Diversion of Present State Budget Allocations.**

(Code No. 5.31)

Also, Resolution No. 3486, as follows:

Whereas, the San Francisco Board of Supervisors has already joined others in urging the California Highway Commission to eliminate traffic hazards caused by "bottlenecks" in and about San Rafael and north of the Golden Gate Bridgehead; and

Whereas, we are informed that an effort may be made to "borrow" or transfer funds already budgeted to other important State Highway projects in northbay counties, to finance projects in and about San Rafael; and

Whereas, allocations already budgeted to projects should not be disturbed, for the reason that budgeted highway sectors are inadequate, narrow, below standard and dangerous and traffic hazards thereon should be eliminated, as now scheduled in the budget; now, therefore, be it

Resolved, That the San Francisco Board of Supervisors hereby opposes the transfer of State Highway funds now budgeted, for above reasons and because relief of traffic congestions on these northerly highways is of great importance to San Francisco, the Golden Gate Bridge, the Redwood Empire and the motoring public; and be it

Further Resolved, That the Board of Supervisors of San Francisco respectfully urges the State Director of Public Works and California Highway Commission to actively and officially negotiate with the Federal Government to obtain special allocation from the \$415,000,000 work relief fund earmarked for highways; also to obtain special dispensation from WPA officials, also, works program funds, under the jurisdiction of the State Highway Commission from the United States Bureau of Public Roads, permitting expenditure of said Federal funds to construct and reconstruct highways in and about San Rafael, also to build the Funston avenue approach in San Francisco in accordance with State Highway standards, as advocated by our Redwood Empire Association; and be it

Further Resolved, That a delegation be appointed to represent the City and County of San Francisco at the Highway Commission hearing on above subjects, in Sacramento on September 3rd; and be it

Absent—Supervisors Brown, Mead—2.

### Explanation of Vote.

SUPERVISOR UHL: I wish to explain my vote. I have always felt that where a matter is not shifting a load to the taxpayers' shoulders that I have always been willing, and always will be in the future, to submit such matter to the electorate, especially when it does not involve a bond issue. However, I feel that the people elected me to look after their affairs, and I feel I am taking the same personal interest in those matters as though they were my own. As you know, I have been opposed—Mr. Nicholson says I did vote for Fifth street the first time it came up, but it was not after hearing all the arguments pro and con. I expressed my position about it at that time by bringing in an amendment relative to the extension of Mason street. However, I can't go along with the extension of Fifth street.

The charter makes it very clear that the Board of Supervisors shall, by a two-thirds vote, place these matters on the ballot, and therefore I feel in voting for this matter—if I were to vote for this matter, which I can not—that I would be reversing the rule there as far as the bond issue is concerned, and the mandate upon the Board of Supervisors by that vote of the people.

Other reasons why I do not feel favorable to this are these—one that has not been really brought out in the Board meetings, and that is it was agreed at one time when Mr. Verdier, president of the City of Paris, was speaking, that the retail triangle district would be perfectly willing to pay on an assessment district, and I asked him the direct question if this improvement is a benefit to the merchants, wouldn't it be fair that they pay a portion of that cost, and he said yes. Therefore I can't go along with the extension of Fifth street;

and without talking to the people on Grant avenue, I looked into it very carefully, and checked it personally, and I feel that the congestion, the normal increase on Grant avenue is going to be more than sufficient to strain the arteries in that particular location without adding to them on Grant avenue; and knowing from members of my family that they go off the First street ramp, off the bridge, and into the retail triangular district by that route, which is more accessible, rather than to come off at Fifth street, coming up, having to cross over in to Mason street, and turn right in to the triangle district. That method is just as convenient as the present route, coming up to Sixth and into Taylor, and turning right, and you can make it in the same or less time, and why should we burden our taxpayers with an unnecessary bond issue? I certainly am going to use my prerogative and vote against submission to the people because of the fact that the Charter calls for a two-thirds vote.

**SUPERVISOR COLMAN:** Explaining my vote, I think that the circumstances surrounding this particular matter before us are different from any that I can recall in my experience on the Board. I think it only fair first to point out what appear to me to be certain weaknesses in the proposal; that is, that it lacks the element of conclusiveness. Should a major vote in favor of the submission of the bond issue, which is by no means final as to what their attitude would be in the final result, it is no assurance of success in the bond issue. Further, should it go against the measure possibly the proponents are in somewhat a worse position than by waiting until the matter could be presented. I myself have advocated that it might be better to sit down afterwards in calmness and work it out, another plan, with a consolidation of the various forces on these very important questions. However, the question is before us as to whether we shall ask the people to advise us on this matter. Again I point out the circumstances surrounding it—concerning our position on this question, is a little different. The Board has struggled with this problem for many meetings, and we could not come to an agreement. We failed to get eight votes. It is too bad that that is the fact, but that is the situation. On Grant avenue it may have been my vote that prevented the eighth vote, and possibly my vote for Grant avenue might have brought about the eighth vote for Fifth street. However, in my vote I followed what I thought was a consistent policy. Throughout the whole discussion of the matter I always favored the submission of Fifth street, and always opposed Grant avenue. But now that the impasse is here, and when I am elected to go to the people who elected me for advice, I can not advance one single logical argument as to how I can refuse that request.

To refer to the election for revenue bonds, I might call attention to the fact that Supervisor Uhl, although opposed to the matter, stated he would still vote for the submission of the bonds, and I can't help but quote Supervisor Uhl from the record of Monday, March 29, 1937, on the question of submitting the rapid transit bonds: "Supervisor Uhl: I want to explain my vote. I have taken the position on this Board that I am elected by the people, and that when a representative group desire a matter submitted to the people I am perfectly willing to submit the same, although I am personally opposed to it, as in this instance now, and I want this made a part of the record in our journal."

That was a bond issue, and that has been the policy of Supervisor Uhl up to this particular question, there is no doubt about that. I don't question that. However, any man has a right to change his mind. The difference between this proposal and Mr. Varley's proposal is—I think the Board has considered this proposal carefully, and in all fairness I would say to Mr. Varley, if he brings in a proposal to widen and cut through another street, that I would insist upon reference, that the matter go to the engineer for report as to cost or feasibility, as to just what would be accomplished by it, and a recommendation from him. That having come in, then the matter would

be up to me to decide as I saw fit, but by no stretch of the imagination—and I think it is only fair to state to Mr. Varley—by no stretch are the proposals he has submitted in their present condition comparable to the propositions we have submitted here. Now I hope the matter will go to the people. If we are subject to criticism it is only on one round, that we are unable to solve the matter ourselves, and the people expected us to solve it; and yet under the conditions that arose, cross-currents, cross-purposes, it was quite natural that we could not quite agree. To Mr. Troy—is he here?

MR. TROY: I am listening.

SUPERVISOR COLMAN: I wanted to state that had you asked me how I stood on the bond issue, I should have told you, and will tell you now, that I am in favor of the rapid transit bonds, strongly, and earnestly, and will not only vote for them myself, but will urge everyone else who may be influenced to do the same.

MR. TROY: Thank you.

SUPERVISOR COLMAN: I hope this matter may go before the voters, and in that way we can get advice which will guide our future action.

SUPERVISOR REILLY: I would like to explain my vote. As I see the problem before us I can not agree with Supervisor Uhl to some extent. I believe first that whether you favor or do not favor the bond issues, that is one problem. I believe here that a far more important question is before us, as to whether or not you favor letting the people of San Francisco decide problems, or passing upon declarations of policy on problems affecting public matters. I hope the Board will vote in favor of submitting to the people this matter, so as to receive their declaration of policy on this problem, which is a very important public matter.

The freeholders, Supervisor Uhl, of whom you were a member—and I believe Mr. Nanry was also very active and interested in the drawing up of the new Charter—provides the machinery, and provided the necessary routine for six members of the Board presenting to the people for a declaration of policy problems of this kind, when the Board itself cannot necessarily obtain the two-thirds vote necessary to present a bond issue. You were a freeholder, Supervisor Uhl, you sat with the committees, with the other members of the freeholders, and the Charter was drafted, and it was submitted, and I can't see how you can consistently refuse to submit this problem to the people. The very Charter itself gives them that right, that six members of the Board can submit these problems to the public on a declaration of policy—

SUPERVISOR UHL: May I ask you a question?

SUPERVISOR REILLY: You may.

SUPERVISOR UHL: Doesn't the Charter also provide a two-thirds vote of the Supervisors to place the matter on the ballot?

SUPERVISOR REILLY: It does on bond issues; but the freeholders, in their wisdom, probably realizing that 11 members of the Board might not be able to get together on a two-thirds vote, then decided we will adopt another policy to protect the voters, and allow six members of the Board to ask for a declaration of policy; and that very thing that was inserted by the freeholders, in my opinion, was inserted for the very thing which is now happening, that two-thirds of this Board could not get together. I favored Grant avenue, and I favored Fifth street, to be submitted both on the ballot, but I didn't favor putting one against the other, or leaving one off and putting the other one on; and if you get right down to brass tacks you don't do anything else but submit both of them, and all we have done is delay the procedure. So in the final analysis, if the declaration of policy is favorable, all we have done is delay them two years, because I believe it must be ratified by the Legislature—the proposal of submitting a bond issue—I may be in error there. I believe, however, the submission of a declaration of policy is a vital problem affecting a legislative body of this kind. After all, where have the people to go?—Where can they go? How can

they declare a policy on a public issue if we don't submit it to them? You as one member of the Board—and I respect your viewpoint highly—I have heard you time and time again say to the people, and on the platform, that when you found the Board would not agree on certain problems you believed in coming right out before the people of San Francisco and asking them to declare a policy which would guide the members of the Board, and I respected you for that; and I believe that today this is a record vote, not in favor or against the two problems confronting us, but it is a record vote, when we declare ourselves now as to whether in the future we believe that the people have a right to declare themselves as to policy on public matters. It is very vital to me, not because I favor the two propositions here—the issues are entirely separate now. We have delayed the bond issue any way, because if the declaration of policy is favorable it is still delayed for another year or more; so that is apart from the problem before us now. However, here a group of citizens have come in before us, and asked us to allow the people to declare a public policy on these two vital proposals, and you as a freeholder, Supervisor Uhl, and I trust my word may have some weight in your vote today—you as a freeholder so drafted, so constructed, and so studied a Charter to provide that when the members of the Board could not agree, that six of them could ask the public to decide a declaration of policy. That is very vital to me as a young man in the Board of Supervisors. That is very vital to me in the legislative field, because I sincerely believe that any time this Board so stagnates itself—and I may be responsible for it—but when we find we can not get together, the only democratic, the only sensible and fair proposition is to present it to the people and let them declare a policy. And once a majority declares a policy, once they tell us what to do, I believe we should follow their dictates.

I, too, will present myself before the voters for reelection. I know that I have been criticized, but I care not for criticism, Supervisors, members—I will stand on my two feet, I will take my stand, and I care not who likes it, and I care not who dislikes it, because if the people don't want me it is up to them, and I will bow to the will of the voters of San Francisco graciously, regardless of how the outcome might be; and whatever they say, when that policy is declared, that is also a policy as to where they stand electing members to this Board. And I say the question is not favoring or disfavoring the bond issues, it is a question of principle, a question of practical government—it is a question of a legislative body asking for a declaration of policy, and I believe that this Board should unanimously allow the people to decide what they want, at the next election.

#### Mayor Requested to Appoint "Hospitality Committee."

August 19, 1937.

To the Honorable The Board of Supervisors, City Hall.

Gentlemen: As long as the Mayor's office has been in existence and on occasions as important as those now confronting and approaching our City, the Mayor has represented San Francisco as its official host.

Whereas, San Francisco's reputation as "The City That Knows How" is at stake unless something is done officially to give recognition to our visitors and to point out to them the attractions of our City; therefore, be it

**Redwood Empire Exposition Commission.**

The following was presented by Supervisor Shannon and ratified by the Board:

August 18, 1937.

Honorable Board of Supervisors, City and County of San Francisco,  
City Hall, San Francisco, Calif.

Dear Friends: We of the Northbay are desirous that the City and County of San Francisco participate officially with the Northbay Counties Boards of Supervisors in the Redwood Empire Exposition Commission.

This Commission is an incorporated organization separate and apart from the Redwood Empire Association and is concerned strictly with participation in the Golden Gate International Exposition in 1939.

There now exists an even greater unanimity between San Francisco and Northbay Counties—cemented by completion of the Golden Gate Bridge—which more closely intensifies relations and destinies of the nine Redwood Empire Counties.

It is, therefore, respectfully suggested that San Francisco be officially represented on the Redwood Empire Exposition Commission by the President of the Board of Supervisors and Chief Administrative Officer of the City and County of San Francisco, thus insuring repre-

sensation from both the legislative and administrative branches of the city and county government.

Assuring you of the cooperation of your Northbay neighbors, thanking you for your interest and expressing compliments, regards and greetings, I am

Sincerely yours,

J. P. KELLY, President.

**Communication from Works Progress Administration Re Relief of Traffic Congestion Caused by Opening of Golden Gate Bridge.**

The following was read and ordered *filed*:

August 6, 1937.

Mr. J. S. Dunnigan, Clerk, Board of Supervisors, City and County of San Francisco, Room 235, City Hall, San Francisco, California.

Dear Mr. Dunnigan: I wish to acknowledge receipt of your recent communication with reference to the need of additional highway work in connection with the increased traffic which has been produced by the opening of the Golden Gate Bridge.

The Works Progress Administration is very much interested in developing additional projects in localities where relief labor is available and is ready at any time to consider project proposals which will meet the requirements and limitations of the present program. The principal limitations applying to construction projects are as follows:

(a) Proposals must be initiated by a public agency legally empowered to undertake the work proposed.

(b) The Works Progress Administration is unable to furnish funds for the purchase of materials or the rental of equipment in any substantial amount.

(c) At least 95 per cent of the workers employed on a project must be certified as to need by the State Relief Administration.

(d) The work must be performed on a force account basis and not by contract.

Your reference to the \$415,000,000.00 for highway purposes mentioned in the recent Relief Act is noted. The wording of the Act in this connection is as follows:

"Provided that the appropriation shall be available for the following classes of public projects, Federal and Non-Federal, and the amounts to be used for each class shall not, except as hereinafter provided, exceed the respective amount stated, namely: (a) Highways, Roads and Streets, \$415,000,000.00;"

The exception referred to in the above clause is a subsequent provision that the President is empowered to make certain adjustments as between the amounts specified for each class of project.

The wording of the new Act is very similar to the wording of the Emergency Relief Appropriation Act of 1936 which specified a similar limitation of \$413,250,000.00 for highway, road and street projects. The limitation so specified merely controls the total amount which may be expended during the fiscal year for projects classified under the general category of "Highways, Roads and Streets." As far as we have been advised, there is no provision which would permit the use of any part of this fund for any purpose except the prosecution of work projects conducted as a part of our general program.

Referring to the list of possible projects contained in your communication, it would appear that certain units which are located where substantial numbers of relief workers reside might possibly be undertaken as a part of our program in the usual manner, if necessary sponsorship and sponsors' contributions could be obtained. This office will be glad to offer all possible assistance in helping to solve the serious traffic problem now confronting the North Bay Region, and

will be ready at any time to offer suggestions and advice with reference to specific proposals which may be offered.

Yours very truly,

RALPH G. WADSWORTH,  
Deputy Administrator.

**Communication from Market Street Railway Company Re Result  
of Downtown Parking Ordinance.**

The following was read and ordered *filed*:

August 23, 1937.

To the Honorable The Board of Supervisors of the City and County of  
San Francisco, City Hall, Civic Center, San Francisco.

Dear Sirs: The average time of our street cars on Market street between the Ferry building and Ninth street during the evening peak has been substantially reduced since the ban on automobile parking went into effect. The time consumed by such a trip at present when compared with the time before the ban went into effect indicates an average saving of 3.6 minutes or 16 per cent.

This saving of time is accomplished by the ban on automobile parking in Market and other streets. The saving of time to the street car rider is surprising and we are certain that even better results will be accomplished when the automobilists who use the streets become more accustomed to the new conditions.

The above holds true without giving any consideration to better signal light control. When this important factor is better regulated to the needs of traffic we are certain that further savings will, to a surprising degree, be accomplished.

Since there is a possibility that you will give this matter some attention at this afternoon's session we thought you should have the above information before you.

Respectfully submitted,

SAMUEL KAHN, President.

**Arguments Authorized for Bond Issues.**

Supervisor Colman moved the Board authorize the printing and inclusion with the ballots, of arguments in favor of bond issues ordered submitted to the people. (To be taken up with Finance Committee and the Controller.)

Motion *carried*.

**In Memoriam—Jas. Rolph, Jr.**

PRESIDENT SHANNON: Under my name, members of the Board, I would like to move that when we adjourn today we do so out of respect to the memory of our late Mayor and Governor, James Rolph, Junior.

Had he lived, today, August 23rd, would have been his sixty-eighth birthday. We all remember him so fondly, and yet it shows to all of us how soon after we pass out of this life we are forgotten. I noticed in the paper this morning that the American Legion members remembered his birthday with a suitable activity yesterday; but I have often remarked how seldom his name is mentioned, and yet we all realize how much he did for the City and County of San Francisco during his lifetime; how well he conducted his office; how he fully saw to the completion of this structure in a little over a year's time—and in everything he did, he had nothing but the praise of the people of San Francisco, and particularly of the press of San Francisco. He was a lovable character, and his equal has never been found, or ever will be found, in American politics.

And I ask that the Board signify by a rising vote at this time that when we adjourn today we do so out of respect to the memory of Ex-Mayor and Ex-Governor James Rolph, Junior.

### Discussion re Golden Gate Bridge Fiesta Deficit.

On motion of Supervisor Brown, the following discussion was made  
part of the record:

THE CLERK: Number one on the Calendar, San Francisco Tax  
Rate Ordinance.

THE PRESIDENT: Mr. Dunnigan, will you kindly read this  
amendment drawn by Mr. O'Toole?

SUPERVISOR BROWN: Mr. Chairman, I would like to offer an  
amendment to the Tax Rate Ordinance as it appears on the Calendar.  
The third from the last item under Subparagraph B of Section 1,  
the first section, which reads: "For special tax levied for publicity  
and advertising pursuant to the Political Code of the State, the rate of  
.027561,"—I desire to change the figure to read ".033561," or an in-  
crease of .006. If I receive a second, I shall be glad to give my reasons.

SUPERVISOR COLMAN: I will second the motion, to bring out  
the reasons.

SUPERVISOR BROWN: This increases the tax levy for the special  
fund for publicity and advertising purposes, the fund administered

by the Chief Administrative Officer of the City and County, by .006, and it will provide, roughly, about \$60,000, more or less, additional to the fund as it now stands. The purpose of the increase is to make available for publicity and advertising expenses during the current fiscal year this additional sum, if these funds are made available, and if they are expended for publicity and advertising purposes, in reimbursing the Chamber of Commerce for expenditures which the Chamber of Commerce will incur during the current fiscal year, and the Chamber of Commerce proposes to absorb the deficit of the Golden Gate Bridge Fiesta Committee—

SUPERVISOR UHL (interrupting): May I interrupt just long enough to make a suggestion, so that we won't have to go over this twice? I should like to have Mr. Cleary sent for.

THE CLERK: Mr. Cleary is on his vacation.

SUPERVISOR UHL: Then send for Mr. Toomey.

THE PRESIDENT: Very well, send for Mr. Toomey. Proceed, Supervisor Brown.

SUPERVISOR BROWN: I think it is only fair that the Board should be advised as to the reason for the existence of a deficit in the Golden Gate Bridge Fiesta Committee Fund.

First, I should like to bring to your attention the fact that the Fiesta was started as the result of the action of this Board, by a resolution being introduced here asking the Mayor to appoint a committee for the purpose of holding the Fiesta. In due course, the Mayor did make such appointment of a committee to hold the Fiesta. The fiesta committee suggested a program comprised of a very ambitious series of events, commensurate, they thought, with the importance of the opening of the Golden Gate Bridge to San Francisco. The budget for these events was very carefully studied and very carefully laid out. In the midst of the fiesta committee's plans, the hotel strike, with which you are all familiar, took place. The result of that hotel strike on the fiesta budget was tragic. The fiesta committee held a meeting to consider whether or not they should continue with the fiesta or whether they should abandon the idea, and it was concurred in by all that it would be unthinkable to abandon the fiesta for any such reason, and that the City and County of San Francisco should be well able to put on the proper celebration, strike or no strike.

At that time they had a meeting, held here at the City Hall, and the budget was very carefully gone over again, and some \$8,000 pruned off the budget in an effort to keep it within the funds available. The resulting budget, as reduced, was adhered to by the fiesta committee, the fiesta committee did not squander the funds unwisely, the committee adhered strictly to the reduced budget as laid out.

There were three sources, three principal sources which contributed to the difficulties of the fiesta committee. The first of these was entirely unlooked for, there had been certain work proposed, such as the building of the grandstands, the stages, and electric work which it was thought should be undertaken by the W. P. A. project, and was so undertaken. In the course of this work it became evident that the necessary manpower was not available in the W. P. A. to perform the necessary labor, it was found that we could not get sufficient carpenters, electricians, painters, plumbers, all those different crafts, that they were not represented on W. P. A. work in sufficient numbers and the fiesta committee was faced with an expenditure of \$15,000 for that type of work which it had not looked for. However, the real important difficulty came about during the strike situation. In the first place, we had to cancel 20 to 25 thousand dollars in pledged subscriptions. I won't detail the various pledges, but that information is available to anyone desiring it. Some of them had very good reason for cancelling their pledges, but there were others who were not so sympathetic, but nevertheless we cancelled them. Finally, and most important, the ticket sales for the fiesta were handled by identically the same committee that handled the ticket sales for the Bay Bridge

Fiesta, with the same man in charge and the same people employed and working under this man. There were seven events for the Golden Gate Bridge Fiesta for which admissions were charged; there were two of them for the Bay Bridge, for which admission was charged. The Golden Gate Bridge Fiesta sales totaled \$6,000 less than the sales for the Bay Bridge celebration. The man who undertook this work was an expert, he had had many successes in San Francisco, and the difficulty arose solely and primarily from the fact that the people who ordinarily come to San Francisco for these events and who are able to spend money for such events, did not materialize. That fact can not be better shown than by the figures of the cancellations, the records show that there were 41,000 cancellations of hotel reservations made prior to the fiesta, and not taken up—

SUPERVISOR UHL (interrupting): May I ask right there, how much prior to the Fiesta?

SUPERVISOR BROWN: Well, that was during a period of several months prior to the Fiesta, the cancellations started coming in with the commencement of the hotel strike, and in addition to that there was a corollary loss from the loss of the ticket sales due to the fact that we had relied on the returns from the sale of concessions, returns for parking, food and so forth. Those results were most disappointing, compared to what we had every reason to expect, and compared to what the concessionnaires expected.

I don't think that I need to touch on the results accomplished by the Fiesta Committee in the face of all of these handicaps, because the press at the time was kind enough to pass on it most favorably. Suffice it to say that we have, on the advice of the California Automobile Association, a statement to the effect that there are now in San Francisco 60,000 odd more out of town automobile licenses than ever before. The bridges are the magnets which are bringing this about, bringing these people to San Francisco, and the result of the expenditure of these sums of money is apparent in view of that fact. Besides that, the fame of the Golden Gate Bridge has been spread all over the country, I have seen photographs and read stories galore from all over the country; in fact, there was recently in the New York Times, one of our largest papers, several fine illustrations of the Golden Gate Bridge in the rotogravure section. The Fiesta was, in the opinion of one writer, who expressed it to us, he said San Francisco would have been justified in spending \$100,000 to get the results that were obtained by the Fiesta.

Now because of the fact the Fiesta Committee was created by the City and County of San Francisco for a quasi official purpose, and because of the fact the people of the City and County of San Francisco were well pleased with the results obtained, they now feel that the only right and just thing for the city to do is to absorb this deficit.

I would like to read three short clippings from the San Francisco Press. This one, from the San Francisco Examiner (Saturday, August 28th): (Reading.)

"The City's Just Debt. San Francisco's Golden Gate Bridge Fiesta was a tremendous success, and gave everyone in the city a fine time.

"But it was not a financial achievement. Owing to the hotel strike pending at the time, the expected out of town throngs of visitors did not materialize, grandstand seats were not sold in the number anticipated, and there is a deficit of \$60,000 left from the great show.

"The city should meet that debt, and a way has been found to do that. Supervisor Arthur M. Brown, Junior, has a resolution before the Board of Supervisors adding six-tenths of a cent to the tax rate for the city's advertising and publicity fund, the money raised by this levy to go toward paying off that deficit.

"No matter how much citizens may hate to raise tax money, this debt is a moral obligation on the city which profited both in civic

prestige and in individual enjoyment of the people, and it is a debt which should be paid by this convenient and legal method."

This one is from the San Francisco Call of today:

"The Fiesta Deficit. The problem is one that concerns official and private citizens alike. San Francisco has contracted an obligation, due to conditions over which it had no control, that must be paid. It is known that the supervisors, as a body, are sympathetic to this problem, and they will have done the community a great service if it can be solved."

Now this one is from the San Francisco Chronicle of this morning:

"Pay it off. A legal way seems to have been found by which the city can pay off that troublesome Golden Gate Bridge Fiesta deficit. By all means, this should be done, and as promptly as possible. We sincerely hope the supervisors adopt this plan today.

"The city may not be legally responsible for this debt. But it is an unquestioned moral obligation. The Bridge Fiesta was a community affair. The labor and material still unpaid was furnished in good faith. It is entitled to its money. By paying off this debt the city will only be upholding the credit and reputation of San Francisco.

"This unfortunate deficit was due to conditions over which the Fiesta managers had only partial control. The hotel strike was the cause. This warfare resulted in cancelled subscriptions and a lowered attendance. The Fiesta Committee was caught. The money pledged to it had been committed before the cancellations fell in.

"Under these circumstances it is only right and just that the city should step in and pay off the debt. The problem at first was to find a legal method to make the appropriation. The Supervisors' Finance Committee has now worked out the way. It is to increase the city's budget item for advertising and promotion by the amount needed, include that amount in the city's annual contribution to the Chamber of Commerce and let that organization pay off the Fiesta shortage. Roundabout, but it seems to be legal.

"We hope it is legal and that the Supervisors can and will today authorize paying off this debt, which is a blot on the city as long as it stands."

Now it is unthinkable that the obligation, moral though it may be, should remain unpaid. We have used every means possible to develop funds for the meeting of this deficit. We went to Washington and attempted to get a coin bill through the Congress. The coin bill did pass the House and from there went to the Senate Committee, but unfortunately met a block there on account of the debate on the court bill. However, there is still a remote possibility when the special session for October of this year is called, that we can get that coin bill passed, but it is only a remote possibility. In the meantime, all of these creditors are entitled to every consideration and should be reimbursed, and the one and only place it appears that we can get it is through the Finance Committee, who have considered it favorably, and we hope that the local press will be inclined to go along with this increase, which, though it is a considerable fraction of a cent, is, to my way of thinking, the most practical manner of meeting the situation, because most of the credit which the city has received locally and throughout the nation has been through the manner in which the opening of these great bridges was handled.

THE PRESIDENT: Mr. O'Toole.

CITY ATTORNEY O'TOOLE: Present.

\* \* \* \* \*

SUPERVISOR UHL: Mr. City Attorney, through the Chair—Mr. President—Supervisor Brown made the statement just now this is an obligation of the City and County of San Francisco, the deficit of the Fiesta Committee, and I should like to ask your opinion on that, legal opinion, whether the expenditures and financial obligations

of the Citizens' Relief Committee is an obligation of the City and County of San Francisco.

THE PRESIDENT: You mean the fiesta committee?

SUPERVISOR UHL: Yes, the fiesta committee.

MR. O'TOOLE: Now you have got to distinguish between your obligations; they are of two kinds, moral and legal; it is not a legal obligation.

SUPERVISOR BROWN: I don't think that is fair, Mr. O'Toole. I said it was a moral obligation of the city.

SUPERVISOR RONCOVIERI: I didn't hear you, Mr. O'Toole.

MR. O'TOOLE: I say, there are two kinds of obligations, one moral and the other legal; and the obligations of the fiesta committee, while they might be a moral obligation they are not a legal obligation on the city.

THE PRESIDENT: Supervisor Brown, may I ask, I haven't been conversant, except by the newspapers, and I see in the papers you are asking for \$60,000. Of course, this amount in the tax rate would raise this \$60,000. Shortly after the Fiesta was over you said there was apt to be about a \$40,000 deficit, and you also stated that the Golden Gate Bridge District gave the committee \$20,000, and now you say that there is a deficit of \$60,000, 60 and 20 would be 80, and how do you account for that discrepancy between the 40,000 and the 80,000?

SUPERVISOR BROWN: Well, at the time I made the statement that seemed to be the deficit, but after that time other expenditures developed that had not been reported to the committee. It may seem like a considerable difference, but the facts are as I have stated. The affairs of the fiesta committee were so ramified, there were so many different things undertaken that it was impossible to get a final accounting from the various activities until some time after the fiesta was over.

One example lay in the printing of the programs. It was anticipated that the program sales would be sufficient to pay for the programs and leave something over, and a final analysis showed that there was no money available from that source.

THE PRESIDENT: What was the cost of the expenses of the fiesta?

SUPERVISOR BROWN: About \$220,000.

SUPERVISOR UHL: May I ask this question, through the Chair—one question brings up another—Supervisor Brown, as I understood your statement just now to the President, it is that other people went out and created obligations which were not in the original budget set up, is that correct?

SUPERVISOR BROWN: No, the budget set up was adhered to. We had hoped to be able to save a very considerable amount in the final budget set up, but conditions made it impossible.

SUPERVISOR UHL: Then there were no obligations incurred that were not in the original budget set up?

SUPERVISOR BROWN: There are some obligations I am dubious about, one or two cases I think there will be an argument about, but they are not important.

SUPERVISOR UHL: When it became known that the hotel strike was on what means were taken then to economize in order to avoid debt?

SUPERVISOR BROWN: Well, for example, the question of decoration of the city. Now the total budget for decorating, as originally set up, was \$100,000. The decorations were finally cut down to around \$50,000, and when I say decorations I mean all of the decorations down town, and so forth, and that was a saving there of \$50,000.

SUPERVISOR UHL: I would like to ask a question, through the Chair, of Mr. Toomey: Mr. Toomey, I presume this matter was handled in the same way that the Fourth of July Committee, of which I was the chairman, was handled?

MR. TOOMEY: Exactly the same.

SUPERVISOR UHL: Would you kindly advise what your approval was, what was allocated?

MR. TOOMEY: The sum of \$10,000 was allocated to the Golden Gate Bridge Fiesta Committee, with a small supplemental appropriation to take care of some incidental expenses, which would be less than \$250 in addition thereto.

SUPERVISOR UHL: Would you tell us, what were you told at the time the total expenditures would be?

MR. TOOMEY: I don't recall. And Mr. Cleary is away, and I haven't any recollection of any statement being submitted to the Chief Administrative Officer on that subject.

SUPERVISOR UHL: Whatever amount Mr. Cleary pledged, however, and the only amount pledged from publicity and advertising was \$250, and that was paid?

MR. TOOMEY: That is correct.

THE PRESIDENT: If this is passed by the Board is it liable in any way to affect the validity of the tax rate?

MR. O'TOOLE: I think possibly we had better go into this now, and while there is a formal opinion on the typewriter, but I don't believe it will be ready for this afternoon. It may be.

When the finance committee adjourned on Friday, they put up to me: first, the proposition as to whether or not they could increase the allotment under section 4041 of the Political Code, which provides for a tax levy not to exceed 4 cents. Now that is the only question submitted to me. What they were going to do with the money if they got it, and, next, could they include \$40,000 for supplemental aid for widows and orphans heretofore carried by the Community Chest, which I understand was in the budget in the sum of \$50,000, and either by the Board or the Mayor of the City and County from the budget. Next was, what would be the right of the Board to provide an additional amount in the budget to meet the mandates of the state law, such as the increase for old age pension, pension for the blind, increased age limit for minors, and the additional burden which has been put upon us by reason of the formation of the new Welfare Commission, which will deal with indigent relief. In other words, it comes down to the old question—which we fought out at Sacramento—what are employables and what are non-employables. So there are three questions, the power of the Board to increase the tax rate for amounts which are not mandatory but discretionary with the Board, and as to whether they could provide for amounts to meet the mandates of the laws passed by the last legislature.

Now I have given that matter my very careful consideration, and while I think that possibly this opinion will be available before the meeting is over, I think I can give you the gist of the whole opinion. Now our budget procedure, as provided for in the Charter, is very similar to the budget procedure provided for under Section 3714 of the Political Code. As a matter of fact, when you get right down to it, the only difference is that the State budget procedure says that you shall not exceed a certain amount provided for in the budget, and our Charter says that it must equal.

SUPERVISOR RONCOVIERI: Must what?

MR. O'TOOLE: Must equal it, Supervisor; that is the only difference. Now the Supreme Court, in the case of Ryan versus Byram (4 California 2d 596) decided this matter on the 18th of November, 1935, and in this case they considered the right of the Board of Supervisors, in levying their annual tax rate, to provide for expenditures beyond the amount provided for in the budget. I am going into this now, and while you should have had the opinion the request came too late, but here is the opinion of the court—just reading from the syllabus, referring to Section 3714 of the Political Code, which is the State budget procedure, and I think the case is right in point:

"Under the provisions of Section 3714 of the Political Code, a county board of supervisors must adopt a budget as a condition precedent to

a valid tax levy, and a levy based on items not included within a previously approved and adopted budget is invalid to the extent that it includes items not a part of the budget."

Now, our Charter provides—that is, the section which provides for the duties of the Chief Administrative Officer provides—

SUPERVISOR McSHEEHY (Interrupting): What section is that, Mr. O'Toole?

MR. O'TOOLE: I am quoting now from Section 60, right at the end of the first paragraph of Section 60:

"And to provide for the budgeting and control of publicity and advertising expenditures of the City and County."

Now, as I said, under the State law you may levy up to 4 cents for publicity and advertising, and if the Controller presented a gross amount for publicity and advertising you could levy a tax up to 4 cents to produce the amount, and in that respect I think the Board would have the same control over the publicity and advertising it has over any other function. In other words, it is a contractual appropriation. I don't know the exact amount the Chief Administrative Officer budgeted, I think \$200,000, and this amount is in addition to that, and therefore applying the reasons of the Supreme Court in this Los Angeles case, all I can say is that I don't believe it can be done. While I know that the people of San Francisco have got the benefit of whatever work the Golden Gate Fiesta Committee did, and possibly approved of it to a very great extent, nevertheless I don't think at the present time you have the power to amend your budget heretofore submitted and approved by you for publicity and advertising, and any amount you include over and above the amount necessary to produce that budget amount would be illegal, and any person might protest the payment of that amount, and I am inclined to believe such a protest would be good. Now, coming next to the amount put in to supplement the budget for widows and orphans, that was on the Community Chest for a number of years—

THE PRESIDENT (Interrupting): May I interrupt to tell you your letter has not been read.

MR. O'TOOLE: I haven't any letter to read; I told you it is on the typewriter now.

THE PRESIDENT: You have an amendment to the ordinance.

MR. O'TOOLE: I haven't any, I will discuss that in a moment.

THE PRESIDENT: That is why I would like to have it read, Mr. Clerk.

THE CLERK (Reading): "Bill No. 1430A, Ordinance No. 9.051419, Code No. 9.051.

Amending the annual appropriation ordinance for the fiscal year 1937-38, Ordinance No. 9.051382, by making changes in certain revenue and mandatory expenditures necessitated by modifications to the Statutes of the State of California by legislative enactment of the 1937 legislature; an emergency ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The following items of appropriated revenues are hereby amended to read:

*State of California*

Needy aged State aid.....	\$ 1,559,163
Aid to needy blind State aid.....	106,250
Federal Aid .....	31,875
Widows' pensions State aid.....	167,342
Maintenance of minors State aid.....	150,898
From taxes, General Fund .....	12,469,048
Indigent sick and dependent poor .....	500,000

Section 2. The following expenditure appropriations are hereby amended to read:

723.200.00—Maintenance of minors .....	\$ 566,322
756.894.01—Widows' pensions .....	309,681

756.804.02—Maintenance of aged .....	3,118,325
756.804.03—Blind pensions .....	212,500
756.804.00—Indigent sick and dependent poor.....	1,500,000

Section 3. This ordinance is passed as an emergency measure and the Board of Supervisors does hereby declare by the vote by which this ordinance is passed that an actual emergency exists as immediate action is necessary to comply with the time limitations established by law for the fixing of the tax rate."

THE PRESIDENT: This is a proposed amendment to the appropriation ordinance?

MR. O'TOOLE: I think those last figures, that the Board may understand, Mr. President, those last figures do not mean an additional appropriation, the last figures mean the total amount you will have to levy for those purposes.

SUPERVISOR BROWN: I would like to ask, for the purpose of informing the Board, all those figures represent increases over the appropriation ordinance passed by the Board last June?

MR. O'TOOLE: Yes, sir. Mandatory appropriations, but they are mandatory only in this regard: For instance, the State law does not say that you shall appropriate so much money, but they do say, for instance, that in the case of minors they have increased the age during which minors shall be cared for from 16 to 18, and they have provided in the old age pensions, that a person instead of having only a total income of \$35, that is taking the total which they receive and which they are able to earn, they shall not have in excess of \$35, but now they are entitled to \$35 in addition to income up to \$50; and the same thing for the children of dependent widows, they are now entitled to aid up to the time they are 18 years old. Now while that does not provide, frankly, a definite amount, it does provide a definite obligation upon the city, because if those funds are not provided for they must be provided from any funds of the City which are available, because if you did not provide for them you would get no refund from the State, therefore I take it the amounts are mandatory upon the city or they would not get their subventions from the State.

Now, as I was saying on the other matters, those are not mandatory. For instance, the one providing for supplemental aid to widows and children, which was formerly carried by the Community Chest. That, I think, comes directly within the opinion I gave this Board some two or three years ago—you recall, Supervisor Gallagher—when we were very anxious to put something in the budget for the livestock pavilion, and I held that was a matter which could not be added to the budget, and that amount was stricken out, and at that time it was the desire of all members of the Board to increase the tax levy to an amount sufficient to take care of that proposition, and I ruled at that time, three years ago, that it could not be done.

Now this \$40,000 comes directly within that rule, and that matter of publicity and advertising I think is illegal, but where changes are made in the state laws which have made it mandatory, and which compel the spending of additional money which could not have been taken into consideration at the time of the passing of the budget, they may be taken care of by an amendment to the budget and an increase in the tax rate.

SUPERVISOR BROWN: Well, I should like to refresh your memory on one point. Last year the Fiesta took place after the budget hearing, and there was no way of telling with any degree of certainty at the time of the budget making just what the result of the Fiesta would be. The Fiesta produced a deficit. I went and talked to Mr. Leavy about the situation and Mr. Leavy told me at that time that it would not be practical to increase the Publicity and Advertising Fund for last year's budget, that there was a special levy for publicity and advertising, and that was presumably the only source of revenue for Publicity and Advertising Funds. He told me then that, in his opinion, the method proposed here today was the only method

by which the situation might be met. I do not share that opinion now, and I hope other methods may be found.

MR. O'TOOLE: I think, as far as Mr. Leavy is concerned, he had the idea in his mind that if additional obligations were reported in for last year, they might be handled in that way. More than four years ago I ruled that matters of publicity and advertising could not be taken care of out of the succeeding budget for publicity and advertising, and I think under the decision I have just recited to you, if the Board had left those in abeyance, they might desire to ask for additional money to take care of a particular thing which they could not determine, as in the Los Angeles case where they could not determine the exact amount necessary for reserve, and they held it in abeyance, but here the Board has not done that, and you have completed your budget procedure and said that it was so much, and I think when you have done that you have no other recourse.

SUPERVISOR BROWN: That is probably true; but here is a method proposed to meet certain other expenditures which were not contemplated at the time of budget making, and there may be a question of mandate involved, a question of principal involved, but at the time the budget was made up there was no way of determining what these expenditures would be, and what they would add to the expenditures. Here, by administrative action, by recommendation of the Board at the time, concurred in by the Mayor, there comes to us a proposal to increase the budget on certain items and that increase is proposed prior to the fixing of the tax levy, and you advise us that because of the mandatory nature of the items that is legal. Now it seems to me there is just as much of a mandate on this Board of Supervisors and the officials of this city in this case as there is in the other—

MR. O'TOOLE (interrupting): Let me stop you right now, as long as you are figuring on anything for taking care of a deficit which occurred during last year, it is absolutely impossible to do it out of the revenues for the coming year. Perhaps if you were figuring on giving this to the Chamber of Commerce and they as a private corporation were to expend these moneys and that is something you are allowing to the Chamber of Commerce, or whatever organization was taking care of the advertising and publicity for the coming year, and you had considered that as something that would take place this year, that could have been considered at the time you were considering your annual budget, or it might have been considered by the Mayor, and if it was not considered by the Mayor this Board might have made a suggestion to the Mayor, or the Chief Administrative Officer may have made the suggestion, to place this amount in the budget, that the advertising and publicity budget was not sufficient, but when you adopt your budget for the matter of publicity and advertising you have closed the matter just as effectively as if the Park Commission should come in and state, "We want \$100,000 to put in a new road in the park," or "to put in a new conservatory." Your budget procedure is over, it has passed into the past year, and it is only those things which have been made a mandate by the law which was changed since you finished your budget procedure that may be added at this time.

SUPERVISOR BROWN: Well, I would like to make it perfectly clear to the Board that this matter of the deficit of the Fiesta Committee was well known to city officials; that several city officials were members of the Fiesta Committee; that I personally called the matter to the attention of at least two, and asked what they wished to do, whether they wanted to go ahead or stop. In fact, before it even started I called one of the city officials and told that official that the Fiesta Committee stood ready to call the whole thing off, and this city official said he thought the committee should proceed and they would endeavor to meet the deficit if it should develop.

The Fiesta Committee has tried to act in perfectly good faith with

the city, and as far as the Fiesta Committee is able to do it they intend to see that these bills are paid. Now if it is possible for the tax levy to be increased in one direction, then I feel it should be equally possible to have it increased in another direction. The people to whom this money is owing are the business men of San Francisco, and they are entitled to every consideration by the city government. If we proceed to increase the levy for the purposes stated by Mr. O'Toole, I think it should be equally possible also to increase them for this purpose.

Now I should like very much to have this matter go over for one week and to have a little more time given to it to see if something can not be worked out. Of course, according to our charter the tax levy has to be passed by September 15, and that gives ample time to pass the levy. I hope the Board will go along on this, and I ask that the matter go over for one week so that a little further investigation and study can be given to it, so I will move, Mr. Chairman, that number one on the calendar go over for one week and remain on the calendar.

SUPERVISOR MEAD: Second the motion.

THE PRESIDENT: I should like to ask Mr. O'Toole if we have time to pass the matter if it goes over for one week?

MR. O'TOOLE: What is that?

THE PRESIDENT: Supervisor Brown has moved the Board that number one on the calendar, the tax rate matter, go over for one week, and I am asking if that will leave sufficient time?

MR. O'TOOLE: Yes; the dead-line is the 15th; and it must be adopted on or before the 15th of September. Now I am informed by our Controller that the purpose of adopting the tax rate today would be to the end that you might authorize the issuance of tax anticipation notes, which will be necessary to meet your payrolls which will become due on the 15th of September. Now the Controller will have to tell you the procedure in connection with that, but you will have to first pass the tax rate and then there is the tax anticipation notes, and then the question of whether they are sold or not. Now, Mr. Ross told me on Saturday that unless the funds for those notes were made available before the 15th of this coming month there would not be a sufficient amount of money on hand to meet your payroll for the first half of September.

SUPERVISOR RONCOVIERI: Does this require two passages or one?

THE PRESIDENT: Any day before the 15th.

MR. O'TOOLE: Yes, sir.

THE PRESIDENT: Well, then, if we put it over a week—

MR. O'TOOLE: A week would be the 7th, and then you would have to pass it as an emergency measure.

THE PRESIDENT: If it goes over a week you would need nine votes?

MR. O'TOOLE: Yes, sir.

THE PRESIDENT: Will all members of the Board be here on Tuesday, next?

SUPERVISOR RONCOVIERI: No.

SUPERVISOR MEAD: No.

MR. O'TOOLE: Now you have got to pass it before the 15th; that is mandatory, irrespective of your tax anticipation notes, or whether or not there is any money to pay the salaries for the first half of September, it is mandatory to pass it by the 15th. Why not hold another meeting this week?

SUPERVISOR SCHMIDT: The thought just occurred to me, according to the advice of our City Attorney, it is going to be legally impossible to do anything to help out these business men of San Francisco as regards any funds in the hands of the committee—

MR. O'TOOLE: God knows, we have done everything we could.

SUPERVISOR SCHMIDT: The thought occurs to me that this fiesta

was a remarkably good thing, and that it was, after all, a preliminary piece of advertising as regards the coming Golden Gate International Exposition as I look at it—at least that is my feeling in the matter—that it is more or less preliminary to that, and it seems to me that it was good business for the City of San Francisco, and for the coming exposition, to hold this fiesta for the opening of the Golden Gate Bridge, which it celebrated, and for the Golden Gate International Exposition to be held and celebrated in 1939, and the thought occurs to me that the Golden Gate Exposition Company ought to do its part to meet this deficit. I just offer that suggestion, because he has got to go outside of the finances of the City and County of San Francisco to get it.

SUPERVISOR McSHEEHY: I trust and hope that a postponement will be allowed in this matter for one week, and we have an opinion from our City Attorney, and we all respect his opinion, that we may do that, and during that week something might happen by which this matter might be presented in a different light.

MR. O'TOOLE: What?

SUPERVISOR McSHEEHY: It is a moral obligation of the city to meet a deficit of this kind, which, under the conditions that created that deficit was something unforeseen by all, and I trust and hope that in the wisdom of the Board here they will allow one week's postponement, and I trust and hope that the members of the Board will attend next Monday's meeting. I think they should attend, because as I said it is a moral obligation, and I think most of us will agree that a moral obligation is really a legal obligation. Of course, our charter throws safeguards around the expenditures of money, and we have to comply with the charter and with the state law, but I hope and trust in the wisdom of this Board you will pass this postponement for one week.

SUPERVISOR RONCOVIERI: I am very desirous of being present so that I may vote on this matter, but I will not be here next week, and I want to ask Supervisor Brown if this meeting is postponed until Friday, or a recess taken until Friday, if that will be all right, because I want to be here.

SUPERVISOR BROWN: If you want to offer that as an amendment to my motion I shall be very glad to accept it.

SUPERVISOR RONCOVIERI: Then I move that when we recess we recess until two o'clock on Friday.

SUPERVISOR McSHEEHY: I second the motion.

THE PRESIDENT: It has been moved and seconded that when we recess we do so to meet on Friday at two o'clock.

SUPERVISOR UHL: Didn't you make the statement, Mr. O'Toole, that you believed any taxpayer could protest the payment on the increase as proposed by Supervisor Brown?

MR. O'TOOLE: I think they could, Supervisor. It is invalid to the extent it includes items not a part of the budget.

SUPERVISOR UHL: It is then necessary for Supervisor Brown and the City Attorney to work together and find some new means, which to me seems almost impossible to make this levy this year, and therefore I think, that inasmuch as many of the people of San Francisco appreciate that this fiesta was a very fine affair, it might be desirable for Supervisor Brown to come in with a matter to be placed in the budget for the benefit of those creditors, and I know that the creditors will be only too glad to wait for their money until next July.

SUPERVISOR BROWN: I don't represent the creditors, I don't know—

SUPERVISOR UHL: I do. I have been in that position.

MR. O'TOOLE: Supervisor, you can't do that, because the mere fact that this Board, or the people themselves might desire to pay a bill which was prohibited by the constitution, you can't do it.

SUPERVISOR UHL: In other words, you would require a charter amendment?

MR. O'TOOLE: Under Chapter 18 of Article 11, you can't pay last year's bills out of this year's money; if that could be done I think every member of the Board would vote for it, and possibly the whole of the people of San Francisco would give approval to it, but I don't think it can be done; unless, as one Supervisor has suggested, some agency of the city might be willing to advance it on the ground that they would be given money on something for that nature in the future.

SUPERVISOR BROWN: I don't want this matter to pass without exhausting every possibility.

SUPERVISOR RONCOVIERI: May I ask a question, Mr. O'Toole: Is it absolutely impossible—I suppose I am wrong—to take it out of the 200,000—

MR. O'TOOLE (interrupting): Well, if there was any surplus in a particular fund you might be able to accomplish the same thing Mr. Brown is trying to accomplish. In other words, he is not trying to pay these particular bills, he is trying to provide for somebody else to pay them.

SUPERVISOR RONCOVIERI: There may be surpluses sufficient out of the budget of last year?

MR. O'TOOLE: It is extremely doubtful. You have to provide a certain levy, under the state law, and whether you can supplement that by levy not covered by the law, I doubt very much.

THE PRESIDENT: I would like to have the membership of the Board polled to find out if the members will be here Friday. This is such an important matter we cannot afford to take any chances. Mr. Clerk, call the roll.

THE CLERK: Supervisor Brown?

SUPERVISOR BROWN: Aye.

THE CLERK: Supervisor Colman?

SUPERVISOR COLMAN: Aye.

THE CLERK: Supervisor McSheehy?

SUPERVISOR MCSHEEHY: Aye.

THE CLERK: Supervisor Mead?

SUPERVISOR MEAD: No.

THE CLERK: Supervisor Meyer?

SUPERVISOR MEYER: Aye.

THE CLERK: Supervisor Ratto?

SUPERVISOR RATTO: Mr. President, I will be at the meeting of the highway commission on Friday relative to Funston Avenue approach, and the bottle-neck proposition, but I could be back here by three o'clock.

SUPERVISOR BROWN: I move that we make it three o'clock Friday afternoon.

THE PRESIDENT: Just a minute.

SUPERVISOR BROWN: How about four o'clock on Friday?

THE PRESIDENT: Friday I will not be here at two o'clock, Friday, gentlemen.

SUPERVISOR RONCOVIERI: Make it eight o'clock in the evening.

THE PRESIDENT: Eight o'clock Friday night?

SUPERVISOR MEYER: Mr. Chairman, after all, it is a moral obligation, and we have the vote here today—is it possible for us to go on record and take care of it later?

THE PRESIDENT: In the face of Mr. O'Toole's position we cannot jeopardize our tax rate; I don't think there is a member of this Board but what is willing to help the committee, we realize what wonderful advertising it was, and especially to the city, but we can't take a chance in the face of Mr. O'Toole's opinion, with the tax rate, that is out of all consideration.

SUPERVISOR COLMAN: I think what Supervisor Meyer meant was that if the Board would execute some sort of an agreement that next year it would assume this obligation that would give a basis on which Mr. Brown might finance the thing for us down town.

THE PRESIDENT: Next year's finances can't take care of the bills of last year; that is the charter provisions, that you cannot pay the bills of one year out of the tax rate of another.

SUPERVISOR COLMAN: You remember we had an agreement with the Chamber of Commerce by which this Board agreed to pay to the Chamber of Commerce a certain amount each year, and the Chamber of Commerce paid \$50,000 for us, and I believe the last payment was due or is due for the Sunnyvale Base, and the Chamber of Commerce paid for that, and we executed an agreement on it.

THE PRESIDENT: That was not a previous year's bill.

MR. O'TOOLE: You have discussed the matter so much anything you do now would possibly be illegal, because you are doing this now not for something in the future but for something in the past.

SUPERVISOR COLMAN: You think it is entirely illegal?

MR. O'TOOLE: As I understood the proposition when presented to me, you were going to levy a tax this year to give an additional allowance to some organization to the end that this organization would afford a certain amount of publicity and advertising for the city, which ordinarily they provide out of their own funds, and in return they would meet the obligations incurred by the fiesta committee during the past year, provided they wanted to meet them, but we were not to give them money for something in the past, we were to give them a certain amount of money for advertising in the future.

SUPERVISOR COLMAN: Could we, next year, put in the budget \$60,000 to pay certain expenses incurred by the Chamber of Commerce by the—

MR. O'TOOLE: To be incurred.

SUPERVISOR COLMAN: Could we, next year, place in the budget \$60,000 for publicity and advertising to be incurred?

MR. O'TOOLE: For publicity and advertising to be incurred during the coming year.

THE PRESIDENT: We have an election in November, and some of us might not be here next year.

SUPERVISOR COLMAN: Very true, but I think, Mr. President, I think if the members of this Board of Supervisors would pass such a resolution, I believe that that would be ample ground upon which the Fiesta Committee could finance their whole problem, and, I might call your attention, that, God willing, and everybody willing, the majority of the present Board would be in office next year, it is the year five run and six remain, and eliminating things over which we have no control, we have a majority and possibly some might be re-elected. This is not without precedent, and I quote the Sunnyvale case. I think, Supervisor Brown, that might be the solution to your problem.

THE PRESIDENT: Would you have prepared such a resolution?

SUPERVISOR COLMAN: Yes.

THE PRESIDENT: Can't we act on that today, act on your resolution and act on the tax rate? Mr. O'Toole says that he has tried every way and can see no way between Friday and today, and he sees nothing but your plan which will accomplish something.

SUPERVISOR COLMAN: Supervisor Brown, is that satisfactory to you, as chairman of the Fiesta Committee?

SUPERVISOR BROWN: If that is the only way it can be done, but I had and I still have hopes and think that if we were to postpone the matter until Friday night some means might be found.

SUPERVISOR UHL: Might I ask a question? What has been the advertising by the Chamber of Commerce this year?

SUPERVISOR BROWN: About \$200,000.

SUPERVISOR COLMAN: My idea is simply, as you say, I feel, the same as other members of the Board, that I would like to see this taken care of, and I would ask the Clerk to prepare such a resolution; I confess I will have to have the Clerk draw it up.

THE PRESIDENT: Will you repeat your motion, Supervisor?

SUPERVISOR COLMAN: I move that this Board go on record as stating their intention of including in next year's budget an additional \$60,000 for the publicity and advertising fund, this amount to be expended by the San Francisco Chamber of Commerce for publicity and advertising to be incurred during the next fiscal year.

SUPERVISOR BROWN: I will second that motion.

SUPERVISOR COLMAN: Does that express it properly, Mr. O'Toole?

MR. O'TOOLE: I think you have covered the point, as far as you can go.

THE PRESIDENT: Leave that in the form of a motion.

SUPERVISOR UHL: Isn't that a matter that should go to committee to be thoroughly threshed out?

THE PRESIDENT: I think we are all conversant with the situation.

SUPERVISOR UHL: Supervisor Brown says that this year's Chamber of Commerce expenditures were \$200,000, because if the amount is not as much as that I wouldn't vote for it, not if it is not over \$60,000.

SUPERVISOR BROWN: I can assure you it is over \$60,000.

MR. BOYD: It is about \$115,000, I am advised.

SUPERVISOR SCHMIDT: Would you kindly repeat that, Mr. Boyd?

MR. BOYD: The Chamber of Commerce is spending in excess of \$115,000 for pamphlets, advertising matter, booklets, and so on; they do that every year.

THE PRESIDENT: Is there objection to Supervisor Colman's motion?

SUPERVISOR McSHEEHY: Yes, yes. I feel just as you feel, and I think that every member of this Board feels the same way, that it is a moral obligation of this Board of Supervisors, but you have just heard the opinion from our City Attorney, and now Supervisor Colman, in good faith, makes a motion, rather a complicated one, and I don't think that we should act on that motion, because we might be doing the matter an injustice. In a matter of this kind, I feel that any matter as important as this requires some thought, and I believe an attorney who is familiar with the Charter and with the State law should be given an opportunity to study this, because we all know how one word in a matter of this kind can be taken advantage of. I have no objection to the motion being considered by next Friday night, and I say Friday night because we will meet next Friday, but I would not want to pass on that matter today. I don't think that we, sitting here as Supervisors of this great city, should attempt to pass a matter of this kind after the advice of our City Attorney. This is merely a motion, pure and simple, so if you will let the matter rest until Friday night, and in that time it can be reduced to writing, and in the meantime Supervisor Brown can consult with the Chamber of Commerce and with those who are conversant with the Charter and the State law, and if I am in order and can receive a second—if Supervisor Roncovieri will agree to it, I will ask him to withdraw the motion that was made, and we can recess until Friday night at eight o'clock, and then Supervisor Colman can present it in written form, and we can take it up, and if it is right I will naturally go along with it.

SUPERVISOR BROWN: I understand that the motion is to meet Friday night at eight o'clock; and I hope that motion will prevail, for the reason that I have had informal discussions with the Chamber of Commerce on this subject, but I believe we should have a formal meeting with them.

THE PRESIDENT: I should like to ask Mr. Mead if he can be here?

SUPERVISOR MEAD: I can not be here.

THE PRESIDENT: I doubt very much if I will be here; I think

I will be taken out of town on official business, and that will leave nine members to decide the matter.

SUPERVISOR RONCOVIERI: Could we meet Saturday morning? Would that be legal, Mr. O'Toole?

MR. O'TOOLE: Saturday morning is perfectly legal, but I think you ought to hear from Mr. Boyd on the matter of the effect of delaying those tax anticipation notes.

MR. BOYD: If you will meet on Saturday morning——

THE CLERK (Interrupting): You would have to conclude your business before 12 o'clock noon.

MR. BOYD: If the Board would meet promptly at 10 o'clock, Saturday morning, it is conceivable you could do it, but it would be far better, if possible, for the Board to meet Thursday for this vote; the time presses from a fiscal standpoint.

SUPERVISOR RONCOVIERI: Poll the Board for Thursday?

SUPERVISOR MCSHEEHY: Can't we meet, say Wednesday, at 2 o'clock?

THE PRESIDENT: I would like to make a statement. We seem to be almost unanimous in the thought that we will have to adhere to the City Attorney's opinion regarding the tax rate, and that we will have to pass the tax rate; and Supervisor Colman has made a motion putting us on record in favor of furnishing this \$60,000. Now it takes six votes to pass Supervisor Colman's motion—why should we meet again to consider that motion? I think six members are ready to vote on it right now, and let Supervisor McSheehy vote "No" on it if he wants to, and wants more time. I think we are losing time in this matter of the tax rate, which I think is the most important thing we have to do, based on Mr. O'Toole's statement and his opinion, and he has given a lot of thought to it, and he sees no avenue of escape. We should pass the tax rate today, and Supervisor Colman's motion is before us, and it is just a motion, so let those who are against it vote against it and those who are in favor of it vote for it and get the matter of the tax rate behind us. Those of us who are fortunate enough to be here today, don't know where we will be tomorrow if we postpone the matter; Supervisor Mead can't be here, we know that, he has made arrangements to come to some of these meetings because his vote is necessary, but you are dealing with something that is very close to the margin, and we have the tax anticipation notes to take care of, and our whole fiscal system.

SUPERVISOR UHL: Don't you think the citizens are entitled to some hearing in this matter? We have present today some citizens, and I think they might wish to be heard, if there is going to be no postponed meeting.

THE PRESIDENT: On what subject?

SUPERVISOR UHL: On the inclusion of \$60,000; the citizens haven't had an opportunity to be heard on this subject, have they? Just what is the parliamentary situation?

THE PRESIDENT: A motion is before us placing this Board on record as being in favor of including \$60,000 in next year's budget for publicity and advertising to be given to the Chamber of Commerce.

SUPERVISOR UHL: And you don't believe the citizens should be given an opportunity to talk on it?

THE PRESIDENT: To what end?

SUPERVISOR UHL: In other words, you want us to pledge ourselves to give \$60,000——

THE PRESIDENT (Interrupting): I don't. Supervisor Colman does. To what end do you want the citizens given the floor?

SUPERVISOR UHL: We are representing them, and if they have an objection.

THE PRESIDENT: If the citizens have been paying attention to the City Attorney they know that it can't be included this year, try as hard as Mr. Brown could he couldn't get it in this year; and it

has not been voted on. I don't see what anybody can say regarding the tax rate we have before us.

**SUPERVISOR UHL:** Then you are simply taking the question up at this time on the tax rate?

**THE PRESIDENT:** The question before the Board is Supervisor Colman's motion.

**SUPERVISOR McSHEEHY:** I am going to make an amendment to Supervisor Colman's motion, and my amendment will be: That when we recess we do so to reconvene tonight at 8 o'clock. I make this amendment, and I am doing it for this purpose: I want to vote, if I can, to meet this moral obligation, but I want to do it in an intelligent way. You are asking us to pledge ourselves for a \$60,000 increase in next year's budget. Between now and 8 o'clock tonight Supervisor Brown will have a chance to consult with some of the directors of the Golden Gate Bridge, and perhaps with some attorney, and I may have a chance to consult with our City Attorney, and we will know far better by 8 o'clock tonight than we know now. Therefore, I am not going to attempt to make a point of order that this motion be ruled out of order, because it is not written, and you can not make a motion of that kind unless it is in writing, you can't do it, it is just an oral motion, but I won't attempt to raise that point of order because I feel we should do something in this matter, and certain members of the Board, it is true, have appointments during the week; I have two myself. And I move that this matter remain as is and we come back at 8 o'clock tonight and we will be advised and we will—

**MR. O'TOOLE (Interrupting):** May I say now, that I will not be present to give any advice tonight.

**SUPERVISOR RONCOVIERI:** I understand the motion—I understand Supervisor Colman's motion to be that this Board pledges itself to include in the budget for the next fiscal year the sum of \$60,000, to be—then there is plenty of time to consider that, and I would move now that—I would ask that consideration of the motion by Supervisor Colman be postponed for two weeks—we can postpone the consideration of his motion for two weeks, and that would give everybody plenty of time. Go on and pass this tax rate today, and two weeks from now we will take up this motion. That has been done on this Board before.

**THE PRESIDENT:** Is there any objection to the motion to postpone consideration of Supervisor Colman's motion for two weeks?

**SUPERVISOR BROWN:** The purpose in asking for a delay in this matter was to exhaust every possibility in getting this thing done this year before this tax rate was passed. Now if the Board places itself in the position of passing the tax rate before any provision is made for this, I think that that removes one remedy which the creditors may have. I think that the two matters are related, and it seems to me that no action should be taken on one and not the other—either pass the motion by Supervisor Colman or postpone the meeting. I appreciate the effort that is being made here to help the situation, and I hope you will do one of two things, either pass Supervisor Colman's motion today and subsequently pass the tax rate, or postpone them both until eight o'clock tonight; if all members can be here. I understand that Supervisor Mead can not.

**SUPERVISOR COLMAN:** I don't agree with Supervisor Brown. And on thinking it over I see no objection to Supervisor Roncovieri's motion. The tax rate ought to be passed today, I am convinced by the City Attorney's statement, and as far as I am concerned I could not vote to include it this year. I can not go contrary to an opinion as clean cut as that. That being the case, I don't think there is anything Supervisor Brown can do to get the tax rate amended, and therefore we ought to pass the tax rate now. Two weeks will give opportunity to contact the Chamber of Commerce, and everybody else,

and it may be that some better plan will be evolved. In any event, I don't see any harm from a two weeks' delay on my motion.

THE PRESIDENT: Do you accept that as a part of your motion, continuation of consideration of your motion for two weeks?

SUPERVISOR COLMAN: Yes.

THE PRESIDENT: Is there any objection? (No response.) So ordered.

SUPERVISOR REILLY: Supervisor Brown withdrew his amendment, I believe an amendment was made by Supervisor Brown, or a motion, and seconded by Supervisor Colman, to keep the record straight.

SUPERVISOR COLMAN: In view of the City Attorney's definite statement it was illegal, with the consent of the maker I withdrew.

THE PRESIDENT: Very well. So ordered.

SUPERVISOR BROWN: I should like to ask that the remarks of the members of the Board of Supervisors on the subject of the Golden Gate Fiesta situation be made a part of the record.

THE PRESIDENT: Is there any objection? (No response.) So ordered.

#### Provision in Next Year's Budget to Cover Golden Gate Bridge Fiesta Deficit.

Supervisor Colman moved that the Board of Supervisors goes on record as stating its intention to include in next year's budget, an additional \$60,000 to the Publicity and Advertising Fund, this amount to be expended by the San Francisco Chamber of Commerce for publicity and advertising to be incurred during the next fiscal year. The Clerk to draw proper resolution.

The following matter, without recommendation of Finance Committee, was taken up:

**Authorizing Tax Anticipation Notes.**

(Code No. 9.033)

Bill No. 1432, Ordinance No. 9.0339, as follows:

Determining that funds are needed for the immediate requirements of the City and County of San Francisco for the fiscal year 1937-38 in accordance with appropriations made, as authorized by the Charter of said City and County of San Francisco, for said fiscal year; determining that funds therefor cannot be made available as provided in the first two paragraphs of Section 81 of said Charter; authorizing the Board of Supervisors of said City and County of San Francisco to borrow on its behalf the sum of \$8,000,000 solely for the purpose of anticipating receipt of income, and to cause to be issued notes or other evidences of indebtedness evidencing the amount or amounts so borrowed, which notes shall be payable exclusively out of taxes levied and collected by said City and County for said fiscal year 1937-38, providing that the principal amount of said notes together with the interest thereon shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which such money shall be borrowed and shall be repaid from the first moneys received from said taxes; and providing for the sale of said notes or evidences of indebtedness as provided by law and for the payment of the principal thereof and the interest thereon.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The Board of Supervisors of the City and County of San Francisco does hereby find and determine: That the sum of \$8,000,000 is needed for the immediate requirements of said City and County in the fiscal year 1937-38, to-wit: To meet and pay the appropriations heretofore made for said fiscal year as authorized by the Charter of said City and County, and which will become due and payable prior to June 30, 1938, and which may be paid in advance of receipt of the income for said fiscal year; that funds therefor cannot be made available as provided in the first two paragraphs of Section 81 of said Charter; that the Controller of said City and County has recommended that said sum of \$8,000,000 be borrowed for the purposes herein mentioned, and the Mayor of said City and County of San Francisco has approved said recommendation made by said Controller; and that the estimated aggregate amount of all taxes actually levied by said City and County for said fiscal year is \$32,081,469, and that said sum of \$8,000,000 does not exceed twenty-five (25) per centum of said estimated aggregate amount of all taxes actually levied for said fiscal year.

Section 2. The Board of Supervisors of said City and County of San Francisco is hereby authorized to borrow on behalf of said City and County, solely for the purpose of anticipating receipt of income, the sum of \$8,000,000 in lawful money of the United States of America, and to issue in the form hereinafter set forth notes of said City and County for the sum or sums so borrowed, payable as hereinafter provided.

Section 3. (a) As evidence of the sum to be so borrowed as aforesaid, there is hereby authorized to be issued by said City and County of San Francisco tax anticipation notes of said City and County of San Francisco in the aggregate principal amount of \$8,000,000. Said notes shall be in the denomination of not less than \$1,000 each, nor more than \$100,000 each, and such denominations shall be fixed by resolution of this Board adopted at or after the time of the public sale of said notes as hereinafter provided. All of said notes shall be signed on behalf of said City and County of San Francisco by the President of said Board of Supervisors, and by the Controller of said City and County, and countersigned by the Treasurer of said City and County of San Francisco, and the seal of said City and County shall be affixed thereto. Said notes shall bear such interest as may

be hereafter fixed by resolution of said Board of Supervisors at or after the time said notes are sold, as hereinafter provided which said interest shall in no case exceed six (6) per cent per annum, and full authority is hereby given to said Board of Supervisors to fix by resolution the rate of interest on said notes and each or any of them. Said interest shall be payable at the maturity of said notes.

Whereas, if no financial provision is made to replenish said Milk Fund, a large number of needy school children will be deprived of nourishment necessary for their proper nutrition and growth; and

**Conference of City Officials and Delegates of 45 Northern California Supervisors re Bridge-Highway Situation.**

(Code No. 5.31)

Supervisor Schmidt presented:

Resolution No. 3513, as follows:

Whereas, pursuant to an order of the Railroad Commission of the State of California, the privately-owned ferry companies operating between San Francisco and East Bay points, and between San Francisco and Sausalito have reduced their fares to thirty cents for a one-way trip and fifty cents for a round trip; and

Whereas, an appreciably reduced income is already apparent in the amount of tolls collected upon the Golden Gate Bridge and the San Francisco-Oakland Bay Bridge, which reductions in income can, in a large measure, be attributed to the greatly reduced fares of the competing privately-owned ferries; and

Whereas, this reduction in revenues will continue, and may increase in seriousness, working to the detriment of the political subdivisions financially responsible for the successful operation of the Golden Gate Bridge and to the detriment of the State Toll Bridge Authority operating the San Francisco-Oakland Bay Bridge, unless steps are taken to cope with the situation; and

Whereas, it is unreasonable to expect that automobilists will prefer the Bridges as a means of transportation across the Bay at much higher tolls than are offered by the privately-owned competing ferry companies; and

Whereas, the forty-five northern counties of the State, comprising Highway Group Number One, contribute to the maintenance of the San Francisco-Oakland Bay Bridge out of their share of the State Highway Maintenance Fund; and

Whereas, the nine counties comprising the Golden Gate Bridge and Highway District have bound themselves together to guarantee the payment of any deficits from the operation of that bridge, and are therefore vitally interested in its financial success; and

Whereas, the forty-five northern counties of California, comprising State Highway Group Number One, and the counties comprising the Golden Gate Bridge and Highway District, have a vital interest in meeting this thirty-cent competition; and

Whereas, it seems apparent that a practical way to meet said ferry competition would be to reduce bridge tolls to twenty-five cents, which reduction would also lower the barrier to the ready movement of northern county residents as well as affording their agricultural and manufactured products freer access into the great markets of the San Francisco Metropolitan Bay area; and

Whereas, a twenty-five cent toll would also make more accessible the counties of Northern California to not only the residents of, but also the tourists visiting, the San Francisco Metropolitan Bay Area; now, therefore, be it

Resolved, That the Mayor of the City and County of San Francisco be respectfully requested to appoint a committee of San Francisco City officials whose duty it shall be to call a conference of official delegates to be chosen from the Boards of Supervisors of the forty-five counties of Northern California, including the nine counties of the Golden Gate Bridge and Highway District, to discuss the Bridge-Highway situation and to devise ways and means to cope with the condition and take such cooperative steps as may be deemed necessary to protect and conserve the mutual interests of all concerned; and be it

Further Resolved, That copies of this resolution be sent to His Excellency the Governor, the State Highway Commission, the State Toll Bridge Authority, the Board of Directors of the Golden Gate Bridge and Highway District and the Boards of Supervisors of the said forty-five counties of Northern California.

*Referred to Public Utilities Committee.*

#### **Creation of Advisory Committee to Study State Legislation.**

(Code No. 5.35)

Supervisor Shannon presented:

Resolution No. 3514, as follows:

Whereas, measures of importance to this City and County are submitted from time to time to the California Legislature; and

Whereas, chapter 26 of the Statutes of 1935 authorizes the legislative body of any city and county to present to the Legislature and its Committees directly or through duly authorized representatives such information as is deemed necessary for the purpose of aiding in the passage of any legislation which in the judgment of said legislative body of said city and county may be deemed beneficial thereto, or for the purpose of preventing the passage of any legislation which said legislative body of said city and county may deem detrimental to said city and county; and

Whereas, it is deemed advisable to create a committee in the City and County of San Francisco for the purpose of studying proposed legislation in the interim between State legislative sessions, and such legislation as may be presented to the California Legislature for consideration and approval and to make reports of said studies to the Board of Supervisors for its consideration; now, therefore, be it

Resolved, That there is hereby created a committee to be known as Advisory Committee on State Legislation for the purposes hereinabove recited, to be made up of the following membership: President of Board of Supervisors, Chairman; the Chairman of Finance Committee of Board of Supervisors; Chairman of Legislative and Judiciary Committee of Board of Supervisors; Chief Administrative Officer; City Attorney; Assessor; and Controller. The Mayor shall be an ex-officio member of the Committee.

The Advisory Committee on State Legislation shall have the power by majority vote to increase the membership of its Committee when it is so deemed necessary; and, be it

Further Resolved, That said Committee, or its duly authorized representative, is hereby authorized to represent the conclusions of the Board of Supervisors of the City and County of San Francisco before the Legislature of the State of California, or any committee thereof, concerning any proposed legislation deemed beneficial or detrimental to said City and County;

And the Chairman of said Committee or any member of the Committee designated by him, is authorized and empowered to attend any conference or public or quasi public meetings, where such matters may be discussed as considered, as the representative of the City and County of San Francisco.

Expenses of said Committee to be paid out of such funds as may be provided from time to time by appropriation for said purposes.

accept the benefit of such discrimination on behalf of himself or any other person.

*Be it ordained by the People of the City and County of San Francisco as follows:*

#### SECTION I.

Section 4 of the above described ordinance passed by the People of the City and County of San Francisco at the general election held on November 8, 1932, relating to the collection and disposition of refuse in said City and County of San Francisco, is hereby amended to read as follows:

Section 4. It shall be unlawful for any person, firm or corporation, other than a refuse collector licensed by the Director of Public Health as in this ordinance provided, to transport through the streets of the City and County of San Francisco any refuse as in this ordinance defined, or to collect or to dispose of the same, except waste paper, or other refuse having a commercial value. It is provided, however, that a license for a refuse collector, as provided in section 8 hereof, shall be distinguished from a permit to operate, in the City and County of San Francisco on a certain designated route, as hereinafter provided.

Upon the conviction of any person, firm or corporation for any violation of the provisions of this ordinance, the permit of such person, firm or corporation issued under the provisions of this ordinance, shall be forthwith and immediately terminated and cancelled as of the date of the conviction.

The City and County of San Francisco herewith divided and established into routes for the collection of refuse, as designated on a map of the City and County of San Francisco, attached hereto, each said route to include only the side of the street or streets bounding each route as designated by a number on said map, said routes being numbered one to ninety-seven, inclusive, and said map and said routes are marked Exhibit A, and attached hereto and made a part of this ordinance. (See Page 1519 for Exhibit A.)

Any person, firm or corporation desiring to transport through the streets of the City and County of San Francisco, any refuse as herein defined, or to collect or dispose of the same, shall make application to the Director of Public Health for permission so to do. Said application for such permit shall contain the name of the person, firm or corporation, any of the particular route or routes, designated in said map of routes, proposed to be served by said person, firm or corporation, and a statement that said person, firm or corporation will abide by all the provisions of this ordinance, and will not charge a greater rate for the collection and disposition of said refuse than that fixed in this ordinance.

The Director of Public Health shall grant such application for a permit, but may refuse the same when the route proposed is already adequately served by a licensed refuse collector. An application for a permit must be granted, however, by the said Director of Public Health, and it is mandatory on said director to grant the same, when it shall appear in any said application for a route or routes by a person, firm or corporation, that twenty per cent or more of the householders, business men, apartment house owners, hotel keepers, institutions or residents in said route or routes, using refuse service, and paying for same, or obligated to do so, have signed a petition or contract in which they have stated that they are inadequately served by any refuse collector who is then collecting refuse on said route, [and it shall appear to said Director, after a public hearing, that such petition or contract was signed by twenty per cent or more of the householders, business men, apartment house owners, hotel keepers, institutions or residents in said route or routes using refuse service and paying for same or obligated to do so, and that the statements in said petition or contract are true.] That inadequate service is herein defined as the failure, on the part of any refuse collector to properly collect refuse on said route, or the overcharging for the collection of

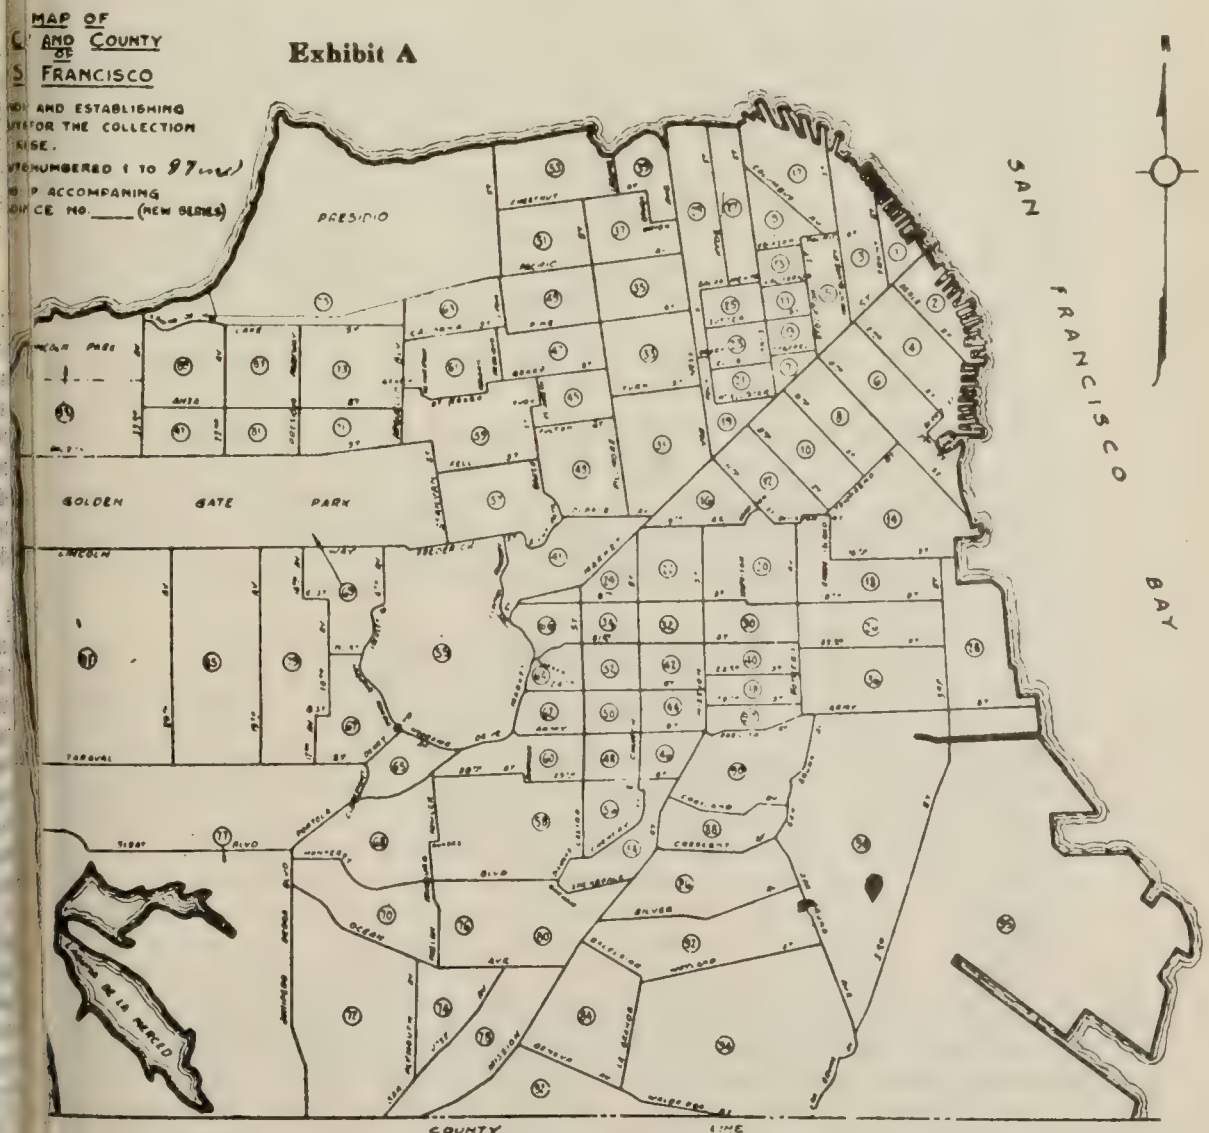

same, or for insolence toward persons whose refuse has been collected, or the collection by any refuse collector whose license has been revoked as provided in section 9 hereof. Such permit so granted by the Director of Public Health shall not be exclusive, however, and one or more persons, firms or corporations may be given a permit to collect on the same route.

Persons, firms or corporations desiring to transport through the streets of the City and County of San Francisco only waste paper or other refuse having a commercial value, and to collect and dispose of same, need not obtain a permit therefor under the provisions of this ordinance from the Director of Public Health as for the collection of other refuse.

## SECTION II.

Section 7. It shall be unlawful for any refuse collector to charge a greater rate for the collection and disposition of refuse than that fixed in section 6 of this ordinance.

Nothing herein contained shall be taken or construed as preventing a refuse collector from charging a less rate or charge for the collection of refuse than that fixed in section 6 of this ordinance; *provided, however, that it shall be unlawful for any refuse collector, either directly or indirectly, by granting rebates, discounts, allowances, gifts*

# MAP OF THE CITY AND COUNTY OF SAN FRANCISCO

*or free services, or other thing or consideration of value, to discriminate in rates or charges between different users or customers of refuse service, or organizations or associations of users or customers thereof, entitled to like rates, terms or charges under the provisions of this ordinance and regardless of whether classified or unclassified under the provisions thereof.*

*It shall also be unlawful for any person to knowingly solicit, receive, or accept the benefit of, such discrimination on behalf of himself or any other person, firm, company, corporation, organization or association.*

#### **Proposed Amendments.**

The following proposed amendments were read by the Clerk:

#### **Proposed Amendment to Ordinance Providing for Collection and Disposition of Refuse, Etc., Presented by Jos. A. Brown, Attorney for Owners' and Lessees' Apartment Association.**

Bill No. ———, Ordinance No. ———, as follows:

Providing for an amendment to the ordinance providing for the collection and disposition of refuse in the City and County of San Francisco, for the licensing of refuse collectors, fixing the maximum rates or charges for the collection of such refuse, dividing the City and County of San Francisco into collection routes and providing penalties for the violation of the provisions of said ordinances and repealing the initiative ordinance passed by the People of the City and County of San Francisco on June 14, 1927, passed by the People of the City and County of San Francisco at the general election held on November 8, 1932, by adding to section 9 of said ordinance a provision to prevent any monopolistic control of rates or prices for the collection and disposition of refuse in the City and County of San Francisco by authorizing any fifty or more persons to form groups or cooperative organizations for the collection and distribution of their own garbage on a non-profit basis.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 9-A. In order to prevent any monopoly or monopolistic control of rates or prices for the collection and disposition of refuse in the City and County of San Francisco it is hereby made mandatory and not discretionary for the Director of Public Health to grant a permit to any group of fifty or more persons to collect and dispose of garbage upon a cooperative basis in the City and County of San Francisco applying for such permit.

Section 9-B. Any fifty or more persons who shall apply for such permit shall be entitled to the issuances thereof and none of the provisions of section 4 of said ordinance shall apply to such cooperative groups in so far as they require route designations, maps, requirements or twenty per cent signatures. Nor shall any other provisions of such ordinance apply to such cooperative groups in so far as they may be inconsistent with the absolute right to a permit and license and which permit and license shall be valid in any part of the City and County of San Francisco where any members of such group have a place of business or a lease on real property or any interest therein where garbage or refuse is accumulated on such premises.

Section 9-C. Any such cooperative group of fifty or more persons shall have access to such disposal grounds or facilities as are available to other refuse collectors under section 5 of said ordinance upon same terms and conditions as such other collectors of refuse subject to the maximum charge of \$1.50 per ton as set forth in said section.

Section 9-D. Nothing herein contained shall be taken or construed as preventing any such cooperative group from charging a less rate or charge for the collection of refuse than that fixed in section 6 of this

ordinance nor from granting returns of collection charges over costs of operation.

Section 9-E. Any and all provisions of the initiative measure governing refuse collection and disposal adopted by the voters at an election held November 8, 1932, which are in any way in conflict with the amendments herein proposed are hereby repealed.

**SPECIAL ORDER—2:30 P. M.****Consideration of Reports on Result of Ordinance Prohibiting Parking on Market Street and Other Downtown Streets.**

In accordance with request previously made, Captain Charles Goff reported on conditions resulting from enforcement of recent enacted legislation prohibiting parking on Market street and other downtown streets. He stated that there was a decided improvement in traffic conditions, but that the time since the effectiveness of questioned legislation was too short to warrant definite recommendations, and that the ordinance should be given a fair trial. He expressed the opinion that between First and Seventh streets, the operation of the ordinance was good.

Communications from the Manager of Utilities and from the Market Street Railway Company were read, showing the resultant speeding up of street car traffic due to parking ban on Market street.

**Motion.**

Whereupon, Supervisor Roncovieri moved that copy of letter from the Market Street Railway Company be sent to the Manager of Utilities, and that he be requested to explain the discrepancies between the time reported as saved by street cars of the Municipal Railway and the cars of the Market Street Railway Company.

*So ordered.*

**Protests.**

Supervisor McSheehy presented protests of approximately 125 merchants and property owners who requested the elimination of the parking ban.

**Further Consideration Continued.**

Whereupon, Supervisor McSheehy moved that further consideration of the entire matter be continued until September 27, and made a Special Order of Business for 3 p. m., and that Captain Charles Goff, the Manager of Utilities, the Chief of the Department of Electricity and the City Engineer be requested to be present at that time.

*Motion carried.*

### SPECIAL ORDERS—3 P. M.

Called out of committee by Supervisor Schmidt, September 7, 1937.

#### Limiting Tenure of Office of Mayor to Two Terms of Four Years.

(Code No. 2.01)

Supervisor Schmidt presented:

Resolution No. 3163, as follows:

Whereas, an unduly prolonged tenure of office of an elective Chief Executive is contrary to the spirit of democratic government and leads to the intrenchment of selfish groups and factions, and to the formation of political dynasties which become overbearing and dictatorial in nature; and

Whereas, an outstanding precedent regarding tenure of office in governmental executive positions was established by the illustrious George Washington when he refused a third term; and

Whereas, it appears that the civic interests of the community will best be served if the same individual cannot hold the office of Mayor for longer than two terms of four years each; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco draft a Charter Amendment for presentation to the electorate of San Francisco at the next municipal election which will limit the occupancy of the office of Mayor by the same individual to two terms of four years each.

#### Limiting Tenure of Office of Police Commissioner to Six Years.

(Code No. 11.01)

Supervisor Schmidt presented:

Resolution No. 3164, as follows:

Whereas, the police activities of any community are so interwoven with the well-being, liberties, rights and protection of the public; and

Whereas, all police power and police activities should be wielded for the good of the public at large; and

Whereas, any usurpation of police power by politically intrenched groups is inimical to the welfare and well-being of the citizens of the community; and

Whereas, it appears obvious from the standpoint of human nature and experience that any man holding the office of Police Commissioner over a prolonged period of time is apt to become biased, arrogant and dictatorial in his attitude toward public sentiment and public desires; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco draft a Charter Amendment for presentation to the electorate at the next municipal election limiting the tenure of office of a Police Commissioner to one term of six (6) years; and be it

Further Resolved, That upon the adoption of such Charter Amendment by the people, any Police Commissioner who has held office for a period of six (6) years prior to the adoption of such Charter Amendment shall automatically be dropped from said Police Commission.

### CHARTER AMENDMENT.

#### POLICE PENSIONS.

Supervisor McSheehy presented proposed amendment to Section 168 of the Charter, affecting retirement of future members of the Police Department:

### CHARTER AMENDMENT No. —

#### POLICE PENSIONS.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of the City and County by amending Section 168 thereof, relating to future members of the Police Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County at the municipal election to be held on the 2nd day of November, 1937, a proposal to amend the Charter of said City and County, as follows:

Section 168: Subdivision (a). Persons who are members of the police department on the effective date of this amendment and future members of the department shall, on and after the effective date of this amendment become members of the retirement system, under the conditions set forth herein. Members of the police department who did not exercise affirmatively the option provided in subdivision (h) of Section 166 of this charter shall, on and after the effective date of this amendment, become members of the retirement system under the provisions of this section.

The retirement board as constituted under section 159 of the charter of the City and County of San Francisco shall be the sole authority relating to the distribution and investment of such funds or fund as may be established, provided that all investments shall be of the character legal for insurance companies in California, and provided further, that if any section, or part of any section in this charter is so far as it should conflict with this section or any part of this section as amended, shall be superseded by the contents of this section.

Subdivision (b). Any member of the department who shall have reached the age of fifty years and who shall have served in the department for twenty-five years in the aggregate in any capacity or rank whatever, on his request, or by order of the board of police commissioners if it is

seemed for the good of the department, or any member who has arrived at the age of sixty-three years shall be retired by the retirement board forthwith, and such member shall thereafter, during his lifetime, be paid in equal monthly installments, from the police retirement fund a limited pension as follows:

For twenty-five years aggregate service (the member having reached the age of fifty years) fifty per cent (50%) of the average monthly rate of salary which such member is receiving at the date of his retirement; and an additional one and one-half (1½%) per cent of such average salary for each year over twenty-five years, up to and including thirty (30) years service in the aggregate, served by such member before retirement.

Subdivision (c). In determining the aggregate number of years of service mentioned in subdivision "b" of this section, the following periods of time shall be considered and allowed:

1. Time spent on leave of absence without pay from the department for service in the army, the navy, or the marine corps in time of war.
2. Time other than the foregoing, spent on leave of absence without pay from the department; provided, however, that only one year of such time shall be considered and allowed.

As a condition precedent to the allowance of the time mentioned in this subdivision (c), a member must comply with the following: Within sixty days after the effective date of this amendment, he shall pay to the retirement board five per cent (5%) of the total salary he would have earned in the department had he been on active duty therein, rather than on said leave of absence without pay. The basis for computing the amount to be paid shall be the salary attached to the rank held by him while on said leave of absence.

Subdivision (d). Whenever any member of the police department shall become so physically or mentally disabled by reason of bodily injuries received in, or by reason of sickness caused by the discharge of the duties of such member in the department, as to render necessary his retirement from active service, the board of police commissioners shall recommend to the retirement board that such member be retired from further service in the department, but in the interim, he shall receive the salary attached to this rank. Such member, if retired, shall, during his lifetime, be paid from said pension fund a pension in an amount to be determined by the retirement board, but such pension shall be not less than fifty per cent (50%) of the salary attached to the rank held by such member in the department at the date of such retirement order. Such pension shall be paid in equal monthly installments; provided, however, that any pension granted to any member of the police department for disability or sickness as provided for in this subdivision, shall cease, when the disability or sickness ceases, and then such member shall be restored to active duty in the department to the same rank such member held at the time of retirement; provided further, that the retirement board shall have power to hear and determine all matters pertaining to the granting and termination of any pension award as provided for in this subdivision. Said board shall make its findings in writing, based upon the report of at least three regularly licensed practicing physicians, and such other evidence concerning such disability as it may have before it. Said board shall deter-

mine the degree of disability and such determination shall govern the amount of pension to be awarded to such disabled member which shall not be less than fifty per cent (50%) as hereinabove provided; and provided further, that upon the written request of any such retired member or upon its own motion, said board shall have the power at any time prior to the restoration of such retired member to active service, to consider new evidence pertaining to the case of such retired member, and to increase the amount of such pension award to be thereafter paid.

Subdivision (e). Whenever any member of the police department shall die as the result of any injury received during the performance of his duty or from sickness caused by the discharge of such duty, or after retirement or while eligible to retirement from such department on account of years of service; then an annual pension shall be paid in equal monthly installments to his widow, or child or children, or dependent parent or parents, in an amount equal to one-half ( $\frac{1}{2}$ ) of the average monthly rate of salary which such deceased member shall have received in the department immediately preceding the time of his death or the date of this retirement from active duty in such department. Said pension shall be paid to the widow during her lifetime or until she remarries, and thereafter a pension shall be paid in equal monthly installments in an amount equal to one-half ( $\frac{1}{2}$ ) of the average monthly rate of salary which such deceased member shall have received in such department, immediately preceding the time of his death or the date of his retirement from active duty in such department, to the legally appointed guardian of the child or children of such deceased member until such child or children shall have attained the age of eighteen years, or to his child or children, should there be no widow until such child or children have attained the age of eighteen years, or to his dependent parent or parents during their lifetime or during such dependence, should there be no widow or child.

Provided, further, however, that no widow of a pensioner retired on account of years of service, shall be entitled to a pension unless she shall have been married to such deceased pensioner at least five years prior to the date of his retirement, and provided further, that no widow of a member of the police department eligible for retirement from such department, who dies from causes other than those arising out of or from the performance of his duties, shall be entitled to a pension unless she shall have been married to such deceased member for at least five years prior to the date of his death, and provided, further, that if such widow, child or children shall marry, then the pension paid to the person so marrying shall cease, and provided further that should the dependency of such parent or parents terminate, then the pension paid to such dependent parent or parents shall cease.

Subdivision (f). All pensions granted in accordance with the provisions of this section shall remain in full force and effect for the period granted and any decrease of salaries of active members of the police department shall not in anywise affect the amount of the pensions to be paid to retired members, or to any other person pensioned pursuant to the provisions of this section.

Subdivision (g). For the purpose of providing and maintaining a fund to meet the payments of demands drawn for the payments of pensioners,

a fund is hereby created to be known as the police pension fund. The retirement board shall annually prepare a budget consisting of the estimated requirements for the next succeeding fiscal year to pay and discharge:

- (a) Service Pensions;
- (b) Disability Pensions;
- (c) Widows' Pensions;
- (d) Minors' Pensions;
- (e) Dependents' Pensions; and
- (f) Administration Expense.

There shall be included in said budget a sum equal to five per centum of the estimated total payroll of the police department for those members of said department included within the pension provisions of this section for the next succeeding fiscal year.

The mayor shall approve and the board of supervisors shall adopt in the annual appropriation ordinance, the budget as submitted by the retirement board.

In addition, each member of the police department included within the pension provisions of this section shall contribute to said police pension fund in the manner as hereinafter in this section provided.

The administrative head of the police department shall cause to be shown on each and every payroll of said department a deduction of five per cent (5%) of the amount of salary of his rank as shown on each such payroll of each such member whose name appears thereon, and shall certify to the controller on each such payroll the amount to be deducted from the compensations of each such member whose name appears hereon, and shall cause to be drawn a payroll check in favor of the retirement board for the total amount of the deduction shown on each payroll of such department, and said retirement board shall deposit said payroll check to the credit of the police pension fund. It shall be the duty of the administrative head of the police department to cause to be furnished a copy of each and every such payroll hereinbefore mentioned to the said retirement board; each member shall be deemed to consent and agree to each deduction made as provided for herein, and the payment of each payroll check to such member shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such member during the period covered by such payroll, except such claims as such member may have to the benefits provided for in this section.

If subsequent to the fiscal year, it shall be determined that such contribution by the city and county, together with the member's contribution, was not sufficient to meet such liability, then the city and county shall make up such additional contribution as may be necessary to make up the deficit.

Subdivision (h). When any member of the department shall die from natural causes and before being eligible for retirement, there shall be paid to his estate or beneficiary, a death benefit, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

Subdivision (i). Should a member be separated from the department through any cause other than death or retirement, then such contributions with interest shall be refunded to him by the retirement board at such time as he terminates his services from the department.

Subdivision (j). Upon the completion of the period of service mentioned in subdivision (b) of this section, entitling such member to retire under its provisions, such member shall be entitled to a certificate showing the aggregate number of years served by such member in the department, which certificate shall be irrevocable and shall serve as evidence of such service; such member shall be entitled to retire at any time thereafter from active service from the department in accordance with subdivision (b) of this section hereinbefore referred to, which right shall be a fully matured, absolute, vested property right, reserved for such member, as a constituted and granted right to retire and no event or occurrence of whatsoever kind or nature, political or otherwise, whether prior pending or subsequent, shall ever operate as a forfeiture thereof, provided, however, that if such member shall continue in the service of said department he shall nevertheless be entitled to all the benefits of the additional percentage as provided for by subdivision (b) of this section hereinbefore referred to, in computing the aggregate number of years of service in such department up to the time of his actual retirement.

Subdivision (k). Any member of the police department, retired under the provisions of subdivision (b) of this section, shall not be eligible to hold any salaried position, either elective or appointive, in the federal state, county, or municipal governments, unless he waives during such period of service all benefits granted under this section.

In the event that any clause, section or phrase of this charter amendment shall be adjudged unconstitutional, the remainder thereof shall continue in full force and effect.

**Motion by Supervisor James B. McSheehy re Reduction in  
Water Costs.**

Whereas, the average daily consumption of water within the City and County of San Francisco for the year 1935-1936 was 52,276,000 gallons; 110,000 individual accounts of the Water Department showed \$6,513,507 total revenue for consumption of water; of which amount \$1,000,000 was applied to the redemption of bonds; \$167,535 was expended for additions and betterments to the system; \$1,253,477 was transferred to the General Fund and, after payment of operating expenses, there resulted a net profit for the year 1935-1936 of \$2,-422,982.66; and

Whereas, there is in storage at present approximately 120,000,000,000 gallons of water representing a 5-year supply; and from Hetch Hetchy sources and Spring Valley sources there is a daily inflow of approximately 128,000,000 gallons, of which amount approximately 70,000,000 gallons is permitted to overflow into the Pacific Ocean; and

Whereas, on May 1, 1928, the City and County of San Francisco acquired the Spring Valley Water Company's system for \$41,000,000 for which a bond issue was voted; and during the campaign preceding the bond election it was promised there would be a substantial reduction of water rates, and said promise has not been fulfilled, but instead the schedule of rate charges in effect is the highest of any city in the United States, based on a per capita charge; and

Whereas, of the 110,000 consumers in San Francisco 77,000 are in what is known as the "3300 cubic foot a month" class, paying approximately 34½ cents per 1000 gallons of water plus a meter charge of 70 cents per month; and

Whereas, prior to the year 1921 and under the management of the old Spring Valley Water Company the ratepayers paid on what was known as a "flat rate" charge computed on the estimated consumption according to the number of fixtures, bathrooms, toilets, sinks, etc., contained in each house, which said "flat rate" was in effect for approximately 60 years; and

Whereas, the years 1919 and 1920 were what is commonly termed "dry" years, and San Francisco had to depend entirely on the Spring Valley Water Sheds for water, said Spring Valley Water Company did apply to the California State Railroad Commission for permission to place meters throughout the city *so that if there was any waste of water by consumers they would have to pay for same*, and meters were installed and resulted in a great reduction in consumption; and in addition thereto the Spring Valley Water Company was permitted to increase its rates by adding a meter charge; and

Whereas, in the San Francisco Examiner of August 16, 1937, and in The San Francisco News of September 11, 1937, there appeared announcements that San Jose and Palo Alto were about to enter into contracts with the Manager of Utilities of San Francisco to purchase water for 13 1/3 cents per 1000 gallons, despite the fact that, after ratepayers and taxpayers of San Francisco have invested over \$100,000,000 in Hetch Hetchy and Spring Valley Systems, they were, and are required to continue to pay 34½ cents per 1000 gallons; and

Whereas, there appeared in the Admission Day Parade on September 9, 1937, in Santa Monica, a large float calling attention to the fact that Los Angeles was selling water to its consumers for 17½ cents per 1000 gallons; now, therefore, be it

Resolved, That the President of this Board appoint a committee of three Supervisors to request from the Chief Administrative Officer the sum of Two Thousand (\$2,000) Dollars for the purpose of employing engineers to ascertain the amount of water now in storage; the amount of water daily consumed in San Francisco; the amount of water flowing daily into the Pacific Ocean; the amount of money collected monthly for the use of meters; and such other information as may be required to present to his Honor the Mayor, showing that

(a) Reduction of water rates should be made.

(b) Meters should be taken out and water should be paid for at a "flat rate" instead of at the present rates with added meter charge, so that citizens would be encouraged to use water more freely, to plant trees, shrubs, and otherwise beautify their homes.

(c) San Franciscans should receive a preference to the use of water now allowed to flow into the Pacific Ocean, and should receive the advantage of the greatly reduced rates offered to the residents of San Jose and Palo Alto by the Manager of Utilities, which rates are in fact only one-third of the rates now charged in San Francisco; and through such reduction in rates San Francisco will be enabled to advertise to the world that this city is selling water for less than the 17 1/3 cent rate per 1000 gallons emblazoned on the Los Angeles float in the Admission Day Parade at Santa Monica, instead of suffering through comparison between our present 34 1/2 cent rate per 1000 gallons and the rate of 17 1/3 cents announced by the City of Los Angeles; and be it

Further Resolved, That this Committee report back its findings to the Board of Supervisors within thirty (30) days, and that they be transmitted to his Honor the Mayor, for such action as he deems best.

#### **Motion to Refer to Joint Committee.**

Supervisor Colman, seconded by Supervisor Brown, moved that the foregoing amendment be referred to Joint Committee of Public Utilities and Finance.

#### **Motion Failed.**

After discussion, the roll was called on motion of reference to Joint Committee, as follows:

Ayes—Supervisors Brown, Colman, Ratto, Roncovieri—4.

Noes—Supervisors McSheehy, Reilly, Schmidt, Shannon, Uhl—5.

#### **Original Motion Carried.**

#### **Appointment of Committee.**

Whereupon, the Chair announced that he would appoint Supervisors McSheehy, Meyer and Reilly as members of committee to investigate San Francisco's water supply.

#### **Memorandum Regarding San Francisco's Water Supply.**

Supervisor Ratto presented the following memorandum, respecting San Francisco's water supply:

"At the present time we are selling approximately 65,000,000 gallons of water per day.

"We are delivering into Spring Valley Lakes from 31,000,000 to 49,000,000 gallons per day, all from the Calaveras Reservoir. No water comes from Hetch Hetchy at the present time, because the Raker Act forces us to use up all our local sources of supply before we may take any water from Tuolumne River sources. Since February, no water has run into Spring Valley Lakes from rainfall sources. In other words, we are actually lowering Spring Valley Lakes water content every day, so that while we had 60,000,000 gallons in the spring of the year in Spring Valley Lakes, we now have 46,000,000 gallons in Spring Valley Lakes. This process will proceed throughout the fall, so

that by the time the winter rains come, the Spring Valley Lakes will be materially lower than they are at present. E. G. Cahill."

*Referred to Special Committee just appointed.*

#### **Referred to Building Committee.**

Supervisor Uhl requested to have referred to the Building Committee, matter of two libraries which were to be constructed, one on Cortland avenue and the other in West Portal, the money for which was presumed to be from P. W. A. He requested information as to the status of these projects at the present time, and what suggestions can be offered to see that these districts are provided with libraries.

#### **Information Requested re Hetch Hetchy.**

Supervisor Uhl moved that the Public Utilities Commission be requested to supply the following information:

Revenue received by the Hetch Hetchy Water System from completion of the system to date.

The number of gallons of Hetch Hetchy water delivered into the San Francisco Water System, and the amount of money paid by the San Francisco Water Department to Hetch Hetchy Water System.

Will Hetch Hetchy water be delivered to our sister communities?

Will the revenue to be derived from the sale of Hetch Hetchy water be credited to the Hetch Hetchy Water System?

*Motion carried.*

*Motion carried.*

#### **Funston Avenue Approach to the Golden Gate Bridge.**

Gerhard of the Civic League of Improvement Clubs and Associations, requesting information as to status of Funston Avenue Approach to the Golden Gate Bridge. Whereupon, the President appointed Supervisor Ratto as a committee of one to invite Col. John Skeggs to be present at the next meeting of the Board, to give his views on the matter.

2 p. m.

The Board of Supervisors met in regular session.

### CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Brown, Colman, McSheehy, Meyer, Ratto, Reilly, Roncovieri, Schmidt, Uhl—9.

Absent—Supervisors Mead, Shannon—2.

Quorum present.

President Shannon being absent, Supervisor McSheehy was elected President pro tem.

### APPROVAL OF JOURNALS.

The Journals of Proceedings of the meetings of May 20, 21 and 24 and September 20, 1937, were considered read and approved.

### SPECIAL ORDER—3 P. M.

Consideration of reports on result of ordinance prohibiting parking on Market street and other downtown streets.

### Discussion.

THE CHAIRMAN: It is one minute to three. We will take up the special order now.

SUPERVISOR UHL: I move we sit as a committee of the whole if you so desire.

THE CHAIRMAN: I think that would be the better way.

SUPERVISOR UHL: I so move.

THE CHAIRMAN: Is there any objection to sitting as a committee of the whole? So ordered.

SUPERVISOR UHL: I move that the present chairman act as chairman.

THE CHAIRMAN: Is there any objection? So ordered.

SUPERVISOR BROWN: May I ask what the parliamentary situation is? Are we simply hearing reports, or is there some legislation before us?

THE CHAIRMAN: If you ask me, Supervisor, I think the ground work is being laid more to create legislation to rescind the present ordinance.

SUPERVISOR UHL: I am going to make a motion to amend.

THE CHAIRMAN: All right. Then, sitting as a committee of the whole, with reference to the no-parking ordinance—Supervisor Uhl, I recognize you.

SUPERVISOR UHL: At this time—I am going to make a motion a little later—regarding the non-parking on Market street, I would to hear, through the Chair, from Captain Goff. He was asked to kindly return today and give us his report or offer suggestions regarding this

parking on Market street. I would like that taken up separately because it is an independent ordinance from the triangle district. I would like, through the Chair, to hear from Captain Goff, what he would have to say as to his observations made during the last two weeks on Market street, whether or not we should follow the suggestion I made to change the boundaries east to either Third or New Montgomery or Second, and west to Seventh. Will you kindly let us hear from you on that, Captain?

THE CHAIRMAN: Supervisor Uhl, may I say to you—Captain Goff, as I understand it, I think we had a resolution several weeks ago and you were asked to make a report here today. Have you a report to make?

CAPTAIN GOFF: I didn't draw up any written report, Mr. Chairman.

THE CHAIRMAN: Then you can make a verbal report, as requested by Supervisor Uhl.

CAPTAIN GOFF: Yes. I started to make that investigation, we started in making a house to house canvass, but, I suppose, owing to the strike there has developed an unusual condition and we could not arrive accurately as to just what the conditions would be under normal business conditions, but I did make considerable study of the situation. I found that collisions had dropped off 40 per cent with the Municipal Railway, I found that in 15 days the collisions had dropped off 50 per cent with all vehicles. I found that the running time on various runs averaged from 8 to 14 miles per hour with an automobile, and I found that many of the street cars at times were held to the schedules loading passengers, especially at Van Ness avenue, so it was hard to get an accurate estimate of the correct loading time. It would take, no doubt, the engineers on that. I found there was not any general opposition to the ordinance but owing to the conditions I thought it would be best to continue it for at least a couple weeks until conditions became normal so we could make an accurate house to house canvass, and survey because conditions are abnormal at the present time.

There is an increase in automobile traffic on Market street, increase in street cars, and an increase in passengers on the street. We are now in the process of making a complete report on changes on some of the alleys, to the parking. For instance, on one side of the alley that is of sufficient width, to permit parking on one side without interference in case of fire with the fire department. Owing to this explanation, I would ask that it be continued for two weeks more so that a more accurate analysis could be made under usual business conditions.

SUPERVISOR UHL: I would like to hear, through the Chair, from Mr. Wiley, please. May I say this to you, that in checking, personally, on the question of the non-parking—you have been absent—you were away from the last meeting—I noticed, for example, on Market street I will come to a stop signal on Market at Ninth, and when that signal says "Go" just as I get to Tenth street comes up the Stop at Tenth street. Just as I get to Tenth street at Van Ness I missed there. I wonder if those conditions can not be corrected, through synchronization of those two or three short blocks, as in the long block from First to Second? The same thing on Kearny happens, I reach Bush street and it is "Go" and by the time I reach Sutter street it is "Stop", and by the time I get to Post street it is "Stop" again. I would like to hear from you, if there are any suggestions you could offer to speed up that traffic?

MR. WILEY: Supervisor Uhl, and gentlemen: As Supervisor stated, we had two or three meetings, and talked on this question of control of traffic, and I pointed out to Supervisor Uhl the difficulties of traffic control in San Francisco, and, answering you specifically on this particular point, we find this condition today: That we did not have, for example, several months or a year ago, that is the increase in

the amount of traffic that is crossing Market street at various intersections. For example, we find that today there are more vehicles by about—Mr. Casey, the City Engineer, has the figures—15 or 20 per cent that crosses Market street at Tenth than the number of vehicles on Market street itself, so naturally, the only obvious thing to do is to give Tenth street more time to permit that large amount of flow to cross Market, and any time you give a larger length of time to your cross-town at any place on Market street you cut down your speed on Market. We find that that is the case at Tenth, at Eighth, at Sixth, and at Fourth. We also, as you know, made some experiments on lower Market and I think you will agree they worked out to better advantage. But the whole matter of traffic control is simply this: That you can not take any one street—you can not take Market street, for example, and think of Market street only when you are thinking of traffic control because to get higher speed on Market street or to permit that cross to run through at a longer length of opening signal, you are doing it to the detriment and holding back your tremendously heavy cross-town traffic which crosses Market from your retail to your industrial and wholesale district, and vice versa.

SUPERVISOR UHL: May I interrupt to ask this question: Did you approve or disapprove of the hand control at that peak hour which brings that condition about?

MR. WILEY: Of course, that is kind of putting me on the spot.

SUPERVISOR UHL: I don't mean to do that.

MR. WILEY: I personally disapprove of the hand control on any intersection except when some particular emergency arises and I do not call peak traffic a matter of emergency. I am referring to a case of fire or some unforeseen tie-up of traffic. An officer takes over the control of an intersection from the automatic—he is in the middle of an intersection which is surrounded on four sides with other intersections—they are tied in, synchronized, and when he takes it over, mentally he thinks he is doing a good job and he possibly is at his one particular intersection, but he is gumming up the control four ways from that intersection.

Market street: As long as there has been so much said about Market street traffic, I would like you gentlemen to know that regardless of the pros and cons of parking or not parking on Market street, it was not the intention at any time when parking was banned on Market street, to speed up the traffic on Market street. By that I mean speed in number of miles per hour which automobile traffic can move. But the idea was that we would then have a clear, single lane both east and west and we would get a larger volume of traffic through but not through at any higher miles per hour. You will also note there was considerable said in the paper about it, speeding up the traffic and so forth, due to the signals. We speeded the signals up so fast the street cars could not unload and load. They could not keep up with the progressive timing. The result was we had to go back and make two different trials, which we had known before—we had made before. We had to finally go back to the old system which is a signal speed of 14.6 miles per hour. If you will start on Market street on a Sunday, for example, when you do not have any right hand movement or any particularly heavy traffic, you can drive from the Ferry Building to Twelfth street at 14.6 miles per hour—the signals will open up progressively in front of you; but you don't do it, practically for the simple reason that two or three times, depending upon the density of the traffic, you would have such a tremendous amount of right turns and the right turns can not flow through the pedestrians. The result is that you are held back at two or three intersections on Market street—you will stop—then you have to wait through a whole cycle. The result is it brings your average speed down to about 11 or 12 miles per hour, which, considering that at each intersection you have

the pedestrians leaving the safety zones, and walking to the curb, and vice versa, we think that is fairly good speed for Market street.

I don't know whether I have answered your question or not.

SUPERVISOR UHL: I would like to ask, then, the question of you, through the Chair—I have pointed out to you that where I will find the Go signal at Ninth street, going west, when I come to Tenth I hit the Stop signal, and when I come to Van Ness unfortunately I hit the Stop signal. Can those be synchronized where the blocks are short?

MR. WILEY: It is possible, though, since we have given Tenth street more time—and that is what threw it out—because Market street at Tenth—if the signals were open longer you wouldn't have to stop, but since we have had to give Tenth street more time—it is possible we might be able to synchronize those two blocks but we have been more or less hesitant about attempting those things until we have a little bit better information as to the traffic flow. The City Engineer is making charts at the present time which will give us the traffic flow at every intersection on which we have signals, and I would rather wait for a few weeks until we have had time to study those traffic flows, and then adjust the signals to conform to the density of traffic.

SUPERVISOR UHL: You tried that synchronizing down at the lower end and it worked satisfactorily.

MR. WILEY: We originally tried it for everything east of First, but we were stopped and lost time at Beale, so then we synchronized First and Fremont, and then reversed the next three, 180 degrees from First and Beale, and we find that increased the speed down there.

SUPERVISOR UHL: Will you also make a study on Kearny street? Will you kindly do that? More trouble comes in there—naturally, if you go a block and stop it ruins the whole flow.

MR. WILEY: Your triangle district north of Market is a different condition again. Let me say this: You will have to admit, as everybody will, that progressive timing south of Market on your east and west streets, is perfect. You wouldn't want anything finer. You can drive there at 22 miles an hour without a stop. The next question is, why you can not drive on your north and south streets at the same speed, such as Fifth and Fourth. The answer is, as I explained to you, the blocks are 270 feet shorter north and south than they are east and west, and naturally your timing must be the same way and naturally your miles per hour is more. The same thing applies when you get north of Market. We have extremely short blocks north and south—it seems to me like they are 343 as against east and west block length of around 480. Now, we have fair progressive timing on the east and west blocks at somewhere around nine and a fraction or 10 miles an hour, but your north and south blocks being shorter gives you naturally a shorter period.

SUPERVISOR UHL: But is not this the fact, that you have on one of those streets, either Geary, Post or Sutter, you have given more time on one of the crossings at Grant Avenue than the other two, and that has reflected back on Kearny street?

MR. WILEY: That is correct.

SUPERVISOR UHL: If the adjustment can be made, I think the public would appreciate it; either give them all that additional time so as to synchronize Sutter and Post and giving either Geary—which ever one has had the advantage from the others, the same advantage in timing there.

MR. WILEY: As I said before, you can only do so much with automatic signals. You can do something which will give you a faster speed on Market and get more cars through, but then you do it to the detriment of your triangle district, and south of Market. We can speed up the signals in the triangle district north of Market, for example—why, you can drive on the street through there at 10 or 15 miles an hour and get an open signal at every intersection, but your cycle length is so short at the end of an hour's time that you are

actually not getting as much traffic through, not getting as much volume through as you are with the slow timing.

SUPERVISOR UHL: Does that same thing apply on east and west, Howard street, south of Market? And north and south—in other words, what influenced you in placing 22 miles an hour east and west south of Market, which reflects 16 minutes north and south? Couldn't you just as well have placed that at 25?

MR. WILEY: The answer is that the City Fathers years ago, that laid out the city, laid out a fine block length, 580 feet long, which works out perfectly for a 60 second cycle. That is the reason it happens to give you a speed of 22 miles per hour.

SUPERVISOR UHL: What would happen at 25 miles an hour?

MR. WILEY: You can drive at 25 miles an hour now. You start at the lower end of the cycle, then you can drive 25 miles an hour without being stopped, but it comes back to the same question again, if you speed up the signals so you get an approximate 25 miles an hour then you are going to fight certain traffic due to right and left hand turns which will not permit you to keep up with your progressive timing.

SUPERVISOR UHL: You believe 22 miles an hour—

MR. WILEY: I think that is as fast as you can possibly run it, and getting there very nicely. But, there is just one thing more I would like to say in a general answer to the question you have asked, and which I have seen in the paper several times—you speak about driving up to an intersection and having the Stop signal against you. That is true, but you will find in your triangle district, or any of those districts, it is better to be held up for two or three seconds, but drive fast between intersections,—it is better to be held up at each intersection you come to than it is to attempt this synchronization or instantaneous timing and then have to wait through an entire half cycle. The reason for progressive timing, about the period we are using at the present time, north of Market, is essential at the present time. Yet, if you drive today in the triangle district, bounded roughly by Powell on the west, and Market and Bush, there are only three streets in that triangle district in which there are any street car lines or lines with which automobile traffic is absolutely dependent upon the speed of your street cars, because your cars block the street cars. The street cars have to stop to let off and take on passengers, and the result is your automobile traffic can not proceed any faster than the street cars, with the exception of three streets, that is Montgomery, Grant avenue and Post. It is a very easy matter, too—in 30 seconds time we can change the entire triangle district to what is known as instantaneous or synchronized timing but the over-all length of time it would take you to go from one end of the street is longer. You might think you are making better speed but you are not.

SUPERVISOR UHL: I am going to ask you to kindly check up that section in there, south of Sutter street, taking in Kearny up to Powell. I would like to come and talk it over with you because I feel we could make a vast improvement on Kearny street where there is a very heavy flow of traffic. It even catches the street car. He will get a Go on Sutter street, he stops at Post, and he stops at Market. He isn't benefited by it.

MR. WILEY: The trouble in that whole triangle district is just this: That you have such heavy right and left hand turns, and, as I stated in my report, when I came back from the east, until such time as the right and left hand turns are cut out in that triangle district you are not going to speed up traffic. It is a common sight for privately owned automobiles driven by chauffeurs to let the ladies off at down town stores, and all they do to kill time is go around the block for an hour. They are all most polite fellows—they will stop to let the traffic go when making a right hand turn, going through the pedestrians. In the meantime all the cars behind them are being

the pedestrians leaving the safety zones, and walking to the curb, and vice versa, we think that is fairly good speed for Market street.

I don't know whether I have answered your question or not.

SUPERVISOR UHL: I would like to ask, then, the question of you, through the Chair—I have pointed out to you that where I will find the Go signal at Ninth street, going west, when I come to Tenth I hit the Stop signal, and when I come to Van Ness unfortunately I hit the Stop signal. held up. As long as you have right and left hand movements in the triangle district and the heavy pedestrian traffic crossing there, which naturally cars can not plow through them, you are going to get no better speed than at the present time.

SUPERVISOR UHL: Through the Chair, I am going to ask that Mr. Wiley, if you will, kindly confer with Captain Goff, along the lines of those left hand turns. I know what it is—the signal says Go and before they can get a left hand turn because of the oncoming traffic, the signal says Stop. I see last week, in the papers, that Los Angeles is going out a great distance on prohibiting left hand turns. It is one of the factors that slows up our traffic movement very materially. Therefore, I would like a report from Mr. Wiley and Captain Goff, at the next meeting, bearing on that left hand turn situation, within the triangle district.

If there is no one else cares to be heard, I am going to follow the request of Captain Goff——

THE CHAIRMAN: There are a number to be heard.

SUPERVISOR COLMAN: May I ask you what you meant when you said the condition now was not normal, Captain Goff?

CAPTAIN GOFF: On account of the strike, the waterfront strike.

SUPERVISOR COLMAN: The traffic is now lighter than normal.

CAPTAIN GOFF: Yes, on account of there is very few heavy trucking vehicles at all. The store people, some are not purchasing as much and there is less patronage to the stores, especially in the district near the Embarcadero.

SUPERVISOR COLMAN: I thought I understood Mr. Wiley to say there was a big increase. That is in other sections of the city.

CAPTAIN GOFF: There is a big increase in west bound traffic. There is a big increase in all traffic, but it is not shopping traffic, the traffic we are dealing with, that shops through the stores.

MR. WILEY: What I said was, the increased amount of traffic north and south crossing Market, cross-town traffic has increased. Possibly there are more automobiles.

SUPERVISOR COLMAN: What is the reason for that?

MR. WILEY: Undoubtedly due possibly to the bridge.

SUPERVISOR COLMAN: That is a normal condition—that will continue to increase, then.

MR. WILEY: Well, up to a certain point.

CAPTAIN GOFF: Tenth street has increased about 60 per cent, more than 60 per cent—more than doubled.

SUPERVISOR COLMAN: What is the decrease, would say, below normal?

CAPTAIN GOFF: The decrease below normal is our trucking; there is hardly any trucking going on.

SUPERVISOR COLMAN: How would you put that in percentage of trucking?

CAPTAIN GOFF: Well, I have not counted up the trucking, but I would say it was around 20 per cent.

SUPERVISOR COLMAN: Your suggestion is, then, to wait until things are normal and you can get a more intelligent picture of the conditions.

CAPTAIN GOFF: Both from the storekeepers, and from all parties.

SUPERVISOR UHL: May I ask for one more check up? Captain Goff, I have sat at First and Market streets for a considerable length of time checking, and I find by the hand control—what is the cycle there,—30 seconds or 35 seconds?

CAPTAIN GOFF: I think about 35 seconds.

SUPERVISOR UHL: I have checked there twice and I find on hand control he has held it as long as a minute, 65 seconds on one particular case. I wish you would check with Mr. Wiley on the question of hand control. It throws out the whole system, as I see it.

CAPTAIN GOFF: That is true. One of the things we have to deal with is the periodical mass of traffic, and another is loading up

of street cars. My men try to take advantage of the loading up of street cars. For instance, if the signal would go automatically they might head off a street car that just had one more passenger to load and we try to take them, being the heavy volume of traffic, the street cars. We try to wait until the street car is loaded and then speed it up.

**SUPERVISOR RATTO:** About two weeks ago when I took up the left hand turns in the triangle district, at that time you stated that you had made a survey and stated that owing to the fact that you allowed left hand turns sometimes you eliminated a lot of congestion. Have you made any further study?

**CAPTAIN GOFF:** Yes; here is what I find, owing to the location of that triangle district, and to the stores being in just a few blocks, if we stop left hand turns in that little district then you have to make right hand turns all around the block to get back again and the right hand turns take up practically as much time as left hand turns. It is a peculiarly situated district in there, that shopping district. People come down Geary street—they want to shop perhaps at Livingstons, and the White House, and they make a left hand turn, and if they go down Geary street and could not make a left hand turn in to Kearny, it would take a long time to route people, to get them to come down to O'Farrell street, to make a left hand turn at O'Farrell and Market where the turn table is, blocked by the cable car standing there. Then we find that whenever they make a left hand turn, if some of the shoppers are ahead of them, they take their time, and the ordinance stipulates that pedestrians have the right of way when they are traveling in the proper direction to the signal. So, under the law you have got to wait. If you waited until your pedestrian movement was through you would have to wait for hours because it is continuous in that shopping district. So that is just another one of the difficulties we have to deal with. If we do like they do in New York, where they have a lot of man power at every intersection, and they just form a line across those streets and prohibit the pedestrians from moving until the automobiles are through—which is here a violation of the regulations. That is another thing. As Mr. Wiley just stated, at those heavy points like Fourth street and Sixth street your turning movement there, your cross-movement, are the difficulty. Fourth, and Fifth, and Sixth, are some of the heaviest movements in the city, and that is what retards your movement of traffic.

**SUPERVISOR RATTO:** At that time when we had the meeting, where you stated there might be some intersections in the triangle district that we might eliminate the left hand turns—I wish you would look into that.

**CAPTAIN GOFF:** We will also look into that. We are looking into the feasibility of making turns in the middle of the block.

**SUPERVISOR COLMAN:** A few weeks ago we asked that a letter be directed to the Public Utilities Commission asking them what the result was in the speed of the Municipal cars after the no parking ban went into effect. I would like to inquire if we received an answer? I was told Mr. Cahill had answered that request, and I would suggest that his letter be read to us on that subject.

**THE CLERK:** Here is one as of today; this is his second one. (Letter from Mr. Cahill read by the Clerk.)

**SUPERVISOR UHL:** Mr. President, and members of the Board, I have before me the supplemental report of Mr. Cahill under date of May 11, 1937, in which he says that traveling literally—on page four—traveling literally at less than pedestrians' walking speed, they average only 2.37 miles. That is from the Ferry up to Kearny street—I am reading—"We were already 12 minutes behind schedule on reaching Kearny street."

**SUPERVISOR RATTO:** 12 minutes?

**SUPERVISOR UHL:** Yes, sir, 12 minutes. Now he says here in

March, April and May—this was May 11th—he says now on May 11th it was 9.1 minutes, and yet in his report to us he has 12 minutes behind schedule. Also he says in August and September it was 9.1. Therefore, I would ask the Clerk to kindly call Mr. Cahill's office about this, and advise us which is correct. That shows a saving of 3 minutes—in other words, in the report of May 11th he says 12 minutes behind schedule from the Ferry to Kearny street, and here he tells us now 9.1—so if there is a 3 minute saving—

SUPERVISOR COLMAN: Could I perhaps move that Mr. Cahill be sent for to explain that?

SUPERVISOR UHL: I wish you would.

THE CHAIRMAN: Will you kindly send for Mr. Cahill, please?

SUPERVISOR RONCOVIERI: I would ask that the letter of the Market Street Railroad be read, on the same subject. What is the saving he tells us?

(Letter of August 23, 1937, from the Market Street Railway Company, was read by the Clerk.)

SUPERVISOR RONCOVIERI: What was the distance in which he saves 3.6 minutes?

THE CLERK: The Ferry Building to Ninth street.

SUPERVISOR RONCOVIERI: Mr. Cahill was asked why the Municipal cars saved only that much time.

SUPERVISOR UHL: There is an interference of automobile traffic there—there is no interference of automobile traffic on the Market Street tracks that there is on the Municipal tracks so you must make due allowance for that interference on the Municipal car lines.

SUPERVISOR RONCOVIERI: That may be the answer, but we did not get it from Mr. Cahill. We got it from Mr. Uhl.

SUPERVISOR UHL: If there is any citizen that would like to talk on this matter, I would move the privilege of the floor to him.

THE CHAIRMAN: May I say, Supervisor Uhl, Mr. Casey, our engineer, was also asked at the time—I wonder if Mr. Casey has anything to offer on this matter?

MR. CASEY: In accordance with the request of the Board, and with, of course, no funds being available, but with such help as we could gather, we made some observations. We think they are observations that you might desire. I might state, to clear up the point that Supervisor Colman was talking on a few moments ago, concerning the increased traffic, I might state that I am sure Chief Wiley refers to the normal increase of traffic which we observed in our various traffic counts a year ago, and then just recently, and that those counts were made before this waterfront situation developed. There has been no rigid check downtown since the waterfront trouble developed. Even if there were, I don't think it would have any bearing on the type of traffic that crosses Market street at Sixth or Tenth or Twelfth streets or further out.

It is a fact that on Tenth street there are 14,000 cars in 12 hours, across Market, at Tenth; 7,000 each way. On Market street there are 5,000 which are crossing Tenth on Market.

SUPERVISOR RONCOVIERI: Let's get that again.

MR. CASEY: 7,000 cars in each direction on Tenth street. On Market street there are 5,000 cars in each direction that cross Tenth and Market. You can see from that, Supervisor Uhl, that Mr. Wiley has to function with on that traffic signal, as he says he has to function there with. There were field observations made by me starting on August 16th and completed on August 21st, and I don't think it will take more than six or seven minutes to read them. I would be glad to read them if you care to hear them.

SUPERVISOR COLMAN: Before you do that, could we ask Mr. Cahill a question?

SUPERVISOR UHL: May I ask a question, through the Chair?

THE CHAIRMAN: I recognize Mr. Uhl. May I ask that you allow Mr. Cahill, first, Mr. Casey?

MR. CASEY: Yes.

SUPERVISOR UHL: We are discussing the question of possible improved time noticed on the Municipal line on Market street during the non-parking. May I ask, what is the schedule of the Municipal cars between the Ferry and Kearny street at the peak hour?

MR. CAHILL: I will have to go back to my office and get that. I haven't got that at my finger tips.

SUPERVISOR UHL: I would like to ask you, the combined questions at the same time, because they all refer to that. That is the first important question I would like to ask you. The next, so you can check—you wrote a letter to the Board under date of September 27th in which you say the average delay behind schedule made by the Municipal Railway cars at peak load hours during the months of March, April and May, 1937, between the Ferry and Kearny street, was 9.1 minutes. Whereas, in your supplemental report to us under date of May 11, 1937, which comes as one of the methods referred to in this letter of yours of September 27th, where you say the average delay behind schedule was 9.1 minutes, in your May 11th letter I read that from the Ferry to Kearny you say the cars were all 12 minutes behind schedule on reaching Kearny street. Which of the two figures is correct?

MR. CAHILL: The average is 9.1 minutes.

SUPERVISOR UHL: Why did you set up in this that the average was 12 minutes behind schedule?

MR. CAHILL: I can't remember what that document is.

SUPERVISOR UHL: Kindly show that to Mr. Cahill, will you, please?

MR. CAHILL: I don't know; I will have to take this and the figures, and put them together. The actual situation is that as far as the parking ordinance is concerned, there is no decrease in the running time of the Municipal Railway cars on account of the parking ordinance, between the Ferry and Kearny street, during the time the no-parking ordinance has been in existence, and it has varied from 1.4 minutes to 1.7 minutes saving at Van Ness avenue. In other words, it takes about 28 minutes to get from the Ferry to Van Ness avenue on the Municipal Railways cars, and that has been lessened by 1.2 minutes or rather 1.4 minutes to 1.7 minutes, which, when you consider that at the peak load hours the time of from 50 to 60 minutes to make a trip in one direction from the Ferry to the terminus of the K, L and N lines, it is not of any consequence at all. So, as far as the Municipal Railway is concerned, it doesn't make any difference whether you continue the policy of the parking ordinance.

SUPERVISOR UHL: Through the Chair, may I ask you for a letter covering these points, Mr. Cahill: What is the schedule at peak hour from the Ferry to Kearny street—what has been during the past week the time, leaving the Ferry at 5 o'clock, at what time did that car, designating the number of the car, reach Kearny street? This explanation from you here in your supplemental report of May 11, 1937, on page four, where you say they were all 12 minutes behind schedule on reaching Kearny street, and in your letter of September 27, 1937, you say 9.1 minutes—if you will kindly explain that difference in figures I would appreciate the information.

SUPERVISOR REILLY: Mr. Chairman, I am under the impression that Mr. Cahill probably made a mistake. Maybe I am in error—Did I understand Mr. Cahill to say 28 minutes from the Ferry to Twelfth street?

MR. CAHILL: 28 minutes from the Ferry to Van Ness avenue.

SUPERVISOR REILLY: During the peak hour?

MR. CAHILL: Yes.

SUPERVISOR REILLY: Yet during the day the time would be less?

MR. CAHILL: Yes.

THE CHAIRMAN: Are there any other questions any members

wish to ask Mr. Cahill? Hearing none, Mr. Cahill is excused. Now, members of the Board, there are a number of citizens here—Oh, Mr. Casey, you really had the floor. Did you have anything further to present to the Board?

MR. CASEY: Well, I will, Mr. Chairman, present in probably five or six minutes the data we gathered in accordance with the request of this Board of Supervisors.

THE CHAIRMAN: Members of the Board, Mr. Casey, our engineer, has certain data to present to the Board which we have asked him for.

MR. CASEY: These observations were taken between August 16th and August 21st, 1937, since the parking ban, of course, has been established. The first observations are:

"Speed and volume—Automobiles: Off peak hours before parking ban, average time in either direction from The Embarcadero to Twelfth street was 11.75 minutes, or an average speed of 10.25 miles per hour."

SUPERVISOR UHL: That is from the corner of Van Ness?

MR. CASEY: From The Embarcadero to Twelfth.

SUPERVISOR COLMAN: Before the ban?

MR. CASEY: Before the ban, off peak hours. The volume of automobile traffic in either direction was 467 per hour average. For off peak hours after parking ban the average time in either direction, from the Embarcadero to Twelfth street, was 11.69 miles per hour.

SUPERVISOR COLMAN: As against what?

MR. CASEY: As against 10¼ miles per hour. The volume of automobile traffic in either direction is 506 per hour, a slight increase of some 40 cars per hour using Market street at the same period, after.

SUPERVISOR UHL: May I interrupt long enough to say that if it had been the same number of cars, 467 instead of 506, their speed would have been greater?

MR. CASEY: Well, probably negligibly, though,—

SUPERVISOR COLMAN: Taking it during peak hours—

MR. CASEY: Yes, we will have that next. The speed increase is 1.44 miles per hour average. The volume increase is 39 autos per hour.

Peak hour before parking ban 4:30 p. m. to 6 p. m., average time westbound from the Embarcadero to Twelfth street, was 9.3 miles per hour. The volume of automobile traffic westbound was 654 per hour.

Peak hour after parking ban 4:30 to 6 p. m., average time westbound was 8.3 miles per hour. Volume of automobile traffic westbound 770 average per hour. The speed decreased 1 mile per hour, and volume increased 116 automobiles per hour westbound. That is the information we received for automobiles in accordance with your request.

SUPERVISOR COLMAN: Do you mean that they were slower after the ban during the peak hours than before the ban?

SUPERVISOR UHL: There were 137 more cars, a greater volume of cars.

MR. CASEY: Right.

SUPERVISOR UHL: Where would you say that those cars, that increase of practically 20 per cent in the automobiles, where would you say they came in from?

MR. CASEY: The increased traffic?

SUPERVISOR UHL: Yes. They couldn't left turn.

MR. CASEY: Now, Supervisor— I—at the outset I stated that we, merely with the few men we could gather, just went into the machine and took what we saw at various spots to give us this cross-section. This is at the best meagre information; in order to get right into the seat of the information it will take quite a number of men, and get all the system, and then make comparisons with my report on August 1, 1936, and also compared with the information received

by Doctor McClintock when he obtained his information in March, April, May and June, 1937.

SUPERVISOR UHL: You say the speed was reduced from 9.3 to 8.3?

MR. CASEY: About one mile per hour.

SUPERVISOR UHL: To me it would evidence the fact that the no-parking ban has made possible that additional 20 per cent of cars traveling on Market street.

MR. CASEY: There is no question about it.

SUPERVISOR UHL: Thus, it has been favorable to have the no-parking in that area.

MR. CASEY: I am not here making an argument in favor of the parking ban. I am in favor of it personally, but I am honestly giving you the information we have gathered in the field between August 16th and August 21st. But I might state further that this increase of traffic causing manually operated signals takes a little longer time for the Market street traffic than otherwise.

SUPERVISOR UHL: Are you making a further study on this matter?

MR. CASEY: You see, the traffic signals are manually operated in the evening hours, and they are stopped perhaps a little longer, holding the Market street traffic up, and that would tend to reduce the miles per hour, and we may have just hit a bad day. To get a real average of this thing you will have to do it two or three times a month. This was only taken between August 16th and August 21st.

SUPERVISOR UHL: Mr. Chairman, through the Chair, two weeks ago in discussing this matter, Captain Goff rather agreed that we could reduce the area for the day for no parking from perhaps Third or New Montgomery to Seventh street, and then make it no parking at the peak hours west of Seventh and east of Third or New Montgomery. Have you made any observation or study along that line, Mr. Casey, whether it would be desirable?

MR. CASEY: No.

SUPERVISOR UHL: Can you perhaps do it?

MR. CASEY: We can make any kind of a study you want, under any conditions we find in the field. If you want an extensive report, that will cost money. If you want us to go down there at the times we can spare some of our men, we can do it.

SUPERVISOR UHL: That is the idea, whether or not we could reduce the parking ban on Market street in some areas.

MR. CASEY: I don't think the City Engineer's office should be asked to make an investigation to recommend for or against parking on any street, if it is a function of the police department.

SUPERVISOR UHL: I don't mean to have you conflict with them. If in your report you could give us a picture of the conditions existing, say beyond Seventh street to the west, and east of New Montgomery—if you could give us that it would be appreciated.

MR. CASEY: We could do that. Street car speeds. When I said, Mr. President, that I would take five or seven minutes to present this I meant if I presented it continuously without questions. I don't say that I have any objections to the questions.

THE CHAIRMAN: Go ahead.

MR. CASEY: Street car speeds. Off peak hours after parking ban, the average time for both Municipal and Market Street Railway cars, 14.3 minutes, or 8.37 miles per hour, from the Embarcadero to Twelfth street in off peak hours.

Peak hour after parking ban, 4:30 p. m. to 6 p. m., average time westbound for both Municipal and Market Street Railway cars, 19.7 minutes, or 6.07 miles per hour.

Peak hour after parking ban, 4:30 p. m. to 6 p. m., average time eastbound, 15.2 minutes, or 7.88 miles per hour.

SUPERVISOR RONCOVIERI: Will you kindly repeat those figures?

MR. CASEY: I will be glad to. Off peak hours after parking ban, the average time for both Municipal and Market Street Railway cars,

14.3 minutes, or 8.37 miles per hour, from The Embarcadero, the Municipal and Market Street.

SUPERVISOR RONCOVIERI: 14.3?

MR. CASEY: 14.3, or 8.37 miles per hour.

SUPERVISOR RONCOVIERI: Did you hear Mr. Cahill a few minutes ago, he said 28 minutes.

MR. CASEY: This is off peak hours. Peak hour, after parking ban, on the peak hours between 4:30 and 6 p. m., the average time westbound for both Municipal and Market Street Railway cars, was 19.7.

SUPERVISOR UHL: That is compared with the 28 minutes of Mr. Cahill's statement.

MR. CASEY: Peak hour, after parking ban, 4:30 to 6 p. m., average time, eastbound, 15.2 minutes, or 7.88 miles per hour. That is eastbound. No data on street car speeds before parking ban. We had no information on that, we did not have that information.

Market street signal timing operates on a 70-second cycle during off peak hours and during peak hours the cycle lengthens to 80 seconds. Signals are operated manually during the evening peak hours, at the following crossings: Drumm, First, Montgomery, Kearny, Stockton, and Taylor streets. Manual operation is used during heavy pedestrian movements.

From the W. P. A. traffic survey, the following information is presented, showing curb use along both sides of Market street from Spear to Seventh street, before the enactment of the no-parking ordinance.

Total curb space, 10,829 lineal feet. Safety zones, fire hydrants, cross-walks and loading zones, 6,642 lineal feet.

SUPERVISOR COLMAN: May I interrupt you to ask—you said that the running time of both Market Street and the Municipal cars were the same as the result of your investigation?

MR. CASEY: Yes, the average, yes.

SUPERVISOR COLMAN: That is what you actually found out?

MR. CASEY: Yes. We put men on the cars with stop watches to obtain this information, our employees.

SUPERVISOR COLMAN: Well, I think that is an interesting statement in view of the letter received from Mr. Kahn. Now, as to the actual time of running, that information is available in the hands of the superintendent of the Municipal Railway. He keeps that every day. I realize Mr. Casey has made his just twice, but it seems as though Mr. Casey might have discovered the fact if there was an increase in the time of the Market Street Railroad—that would have shown itself to your men?

MR. CASEY: Oh, I see,—yes, it would.

SUPERVISOR COLMAN: Apparently there is a discrepancy which comes out of this, that Mr. Casey does not confirm the statement of Mr. Kahn in his letter, when Mr. Kahn points out that the Market Street Railroad have effected savings by the parking ban greater than the Municipal lines. Now, as to which time is actually correct, I think the better way to find that out, and I will attempt to do it, is to get the daily records which are a matter of record. After all, that is something that he has only taken twice and they have it taken every day since that period of time.

MR. CASEY: Correct. Because of better sight distance made possible by the parking ban, accidents have been substantially reduced. We made no further comments on that because we left that up to Captain Goff.

SUPERVISOR COLMAN: That, by the way, is definitely true. I think Captain Goff's statement—I have it—substantially, for the Market Street Railroad, and by Mr. Cahill, too. There is no doubt about it.

MR. CASEY: 61.38 per cent of the curb space is not available for parking on Market street at any time, because it is used by safety

zones, fire hydrants, cross-walks and loading zones. That is another piece of information we obtained from our maps and investigation.

SUPERVISOR COLMAN: What percentage?

MR. CASEY: There are 10,829 lineal feet of curb space on Market street between The Embarcadero and Twelfth. Of that amount of curb the safety zones, fire hydrants, cross-walks, and loading zones, take up 6,642 lineal feet, or 61 per cent. That is between Spear street and Seventh street. That is correct—but the parking is not so disastrous on Market because 61 per cent of the curb space is not available for parking use any way.

SUPERVISOR COLMAN: So there is really only about 39 per cent of the space available for parking?

MR. CASEY: That is right. I think that is all I have, unless there are questions.

SUPERVISOR RONCOVIERI: I want to be certain that I get that correctly,—that 19.7 minutes was from the Ferry to where?

MR. CASEY: From the Ferry to Twelfth street, the average time westbound for both Municipal and Market Street Railway cars was 19.7 or 6.07 miles per hour between 4:30 and 6.

SUPERVISOR RONCOVIERI: Now, will somebody refresh my memory as to what Mr. Cahill said concerning the 28 minutes? That is from the Ferry to Van Ness Avenue?

THE CHAIRMAN: Aren't they the same thing?

SUPERVISOR RONCOVIERI: No, Twelfth street is a block further out.

SUPERVISOR COLMAN: Mr. Cahill made the statement that during the peak period it was 28 minutes.

SUPERVISOR RONCOVIERI: A slight discrepancy.

SUPERVISOR COLMAN: That is not correct; it is a heavy discrepancy. I would like to have a copy of Mr. Casey's statement. I presume every member of the Board—I presume each member of the Board, and also Mr. Cahill's statement regarding the time and so forth.

THE CLERK: If you will direct that that be printed in the Journal you will all have copies of it.

SUPERVISOR RONCOVIERI: I move that the entire proceeding from the beginning, on this very subject, be printed.

SUPERVISOR COLMAN: I'd send each member a copy.

THE CLERK: It will be printed in the Journal.

THE CHAIRMAN: It will be printed, it is so told us. I would like to have the entire proceedings.

SUPERVISOR UHL: I would like to have a question of Mr. Cahill. That is, what is the schedule on the peak from the Ferry to Van Ness avenue? I would like him to kindly give us the time at the peak hour during the past week, what it has been from the Ferry to Van Ness avenue. In other words, that will then be checked against the figures Mr. Casey has given. If my memory serves me correctly, the inspector told me it is 12 minutes from the Ferry to Van Ness avenue, and their running on the peak hour about 7 minutes behind schedule, which will make 19 minutes, which Mr. Casey has quoted. However, by asking that question to the Public Utilities Commission we will get it correct.

---

At the conclusion of the discussion, on motion of Supervisor Uhl, the Clerk, in conjunction with Supervisor Uhl, was directed to prepare an amendment to the ordinance limiting the parking ban on Market street to a district between First street and Eighth street except during peak hours when the ban will be effective from The Embarcadero to Twelfth street as at present.

### In Memoriam, William H. Crocker.

(Code No. 5.91)

Supervisors Brown and McSheehy presented:

Resolution No. 3563, as follows:

Whereas, Almighty God has summoned William Henry Crocker, one of San Francisco's leading citizens, to his eternal reward; and

Whereas, this kindly, courteous, philanthropic gentleman devoted his life to the growth and prosperity of San Francisco and to the progress, welfare and comfort of its inhabitants; and

Whereas, quietly and without ostentation, Mr. Crocker pursued his earthly course, conducting his business on the most ethical standards and dispensing unstintedly and effectively of his fortune to worthy charitable endeavors; and

Whereas, Mr. Crocker will long be missed and sorely mourned by those who knew him personally, as well as by San Franciscans as a whole; now, therefore, be it

Resolved, That this Board of Supervisors notes with sincere regret the passing of William Henry Crocker, and hereby extends its heartfelt sympathy to his bereaved family; and be it

Further Resolved, That when this Board of Supervisors adjourns this day, it does so out of respect to the memory of the late William Henry Crocker.

*Adopted* unanimously by rising vote.

On motion of Supervisor McSheehy, the entire membership of the Board was appointed to attend the funeral and represent the City.

### Traffic School Courses.

(Code No. 11.02)

Supervisor Reilly presented:

Resolution No. 3564, as follows:

Whereas, under the auspices of the Works Progress Administration the San Francisco Traffic School has been performing a most laudable and necessary work in the education of traffic violators; and

Whereas, a review of the accomplishments of this endeavor shows that over 4000 persons have received compulsory instructions in driving, rules of the road and other important phases of the subject, with the gratifying result that less than eight-tenths of one per cent of those having taken the course are found in the columns of traffic violator repeaters; and

Whereas, the already appalling death rate, resulting from automobile operation, is on the increase and presents a problem which must be immediately and effectively dealt with; and

Whereas, many judges of the Municipal and Superior Courts, the Police Department, the California Safety Council, the City and County Federation of Women's Clubs, the American Legion, the California State Automobile Association, Mr. Ray Ingels, Director of Motor Vehicles of the State of California, the Department of Education of the State of California, the press and many other representative organizations have highly commended the work of the San Francisco Traffic

School and have urged that courses on the subject be made available to those who desire voluntarily to take them; and

Whereas, similar courses of instruction on this subject are now an established part of the curriculum in the San Francisco Public Schools for day students; and

Whereas, outside communities, not having available such a course of instruction, but recognizing its value, have required the attendance of traffic violators in their jurisdictions at the San Francisco Traffic School; and

Whereas, many requests have been received by the San Francisco Traffic School for the establishment of courses in this subject, which shall be available not only to traffic violators, but also to those who desire to become proficient in the subject so as to avoid becoming a violator; and

Whereas, if the Department of Education of the City and County of San Francisco were to include courses in this subject as a part of its educational program, the sum of approximately \$15,000 annually would cover the cost of salaries and equipment necessary to make available to all persons, at convenient hours, courses in this subject as at present conducted by the San Francisco Traffic School, and of this sum the Department of Education of the State of California would contribute subventions ranging from fifty (50%) per cent to, in some cases, practically the total cost of instruction, depending upon the type thereof; and

Whereas, because an ounce of prevention is worth a pound of cure; because the traffic education of many individuals is surprisingly scant; because it is imperative that steps be taken for the preservation of human life; because the establishment of this service will result in a decrease in property damage occasioned by traffic violations; because a saving will result to the City and County of San Francisco in services rendered by the Police Department and the Emergency Hospitals as a consequence of fewer accidents, and because increased driving efficiency will ultimately effect reductions in insurance premiums; now, therefore, be it

Resolved, That the Joint Committee on Streets and Traffic and Finance be and is hereby authorized to hold a hearing on this subject; to request all the interested parties to attend; to inquire of the Board of Education of the City and County of San Francisco whether it would be willing to establish a traffic school under its jurisdiction which would be available to all, and, if its assent is received, to discuss ways and means whereby the necessary money may be made available for the continuation of this most valuable educational feature.

**City Attorney to Intervene in Hearing Before Railroad Commission  
for Fair and Equitable Rates on Golden Gate Bridge.**

(Code No. 12.111)

Supervisor Roncovieri presented:

Resolution No. 3565, as follows:

Whereas, the Golden Gate Bridge and Highway District has made application to the Railroad Commission of the State of California for a rehearing in the matter of the rates recently established for foot passengers and automobile traffic between Sausalito and San Francisco; and

Whereas, it appears to the Board of Supervisors of the City and

County of San Francisco that the rates established by the Railroad Commission are inequitable, illogical and without justification in that:

5 foot passengers traveling via ferry from San Francisco to Sausalito and return are required to pay twenty-five (25c) cents each or a total for the five of.....\$1.25

and

5 passengers while in an automobile traveling via ferry from San Francisco to Sausalito and return are required to pay for both car and five (5) passengers, only the sum of ..... .50

Whereas, these rates are obviously disproportionate and grossly unfair and have been invoked solely with the idea of competing on an unfair basis with the publicly owned Golden Gate Bridge, which according to statements of Mr. Sydney Taylor, Traffic Engineer of the Golden Gate Bridge, recently published in the press, is suffering a deficit as a result thereof, and

Whereas, if this condition is permitted to continue to increase in gravity, the City and County of San Francisco as well as the other constituent counties of the Golden Gate Bridge and Highway District will be required to make up such deficits through their tax levies, eighty-seven (87%) percent of which will be borne by the taxpayers of the City and County of San Francisco; now therefore be it

Resolved, That the City Attorney be and he is hereby authorized and instructed to intervene in the aforementioned application for a rehearing, on behalf of the City and County of San Francisco, and to present to the Railroad Commission such arguments as will make for the establishment of a fair and equitable rate such as will not jeopardize the investment in the Golden Gate Bridge and create an additional tax burden upon the rate payers of the City and County of San Francisco, as well as the other counties comprising the Golden Gate Bridge and Highway District.

**Requesting State Railroad Commission to Investigate Telephone Rates Existing in San Francisco Metropolitan Bay Area Cities With View to Reduction.**

(Code No. 15.08)

Supervisor Schmidt presented:

Resolution No. 3566, as follows:

Whereas, the sister communities of the San Francisco Bay Area are geographically closely associated; and

Whereas, the new bridges have done a great deal to make all sections of the San Francisco Metropolitan Bay Area more accessible to the inhabitants thereof; and

Whereas, more frequent use of telephone communication between all San Francisco Bay Cities should be encouraged in order to more closely cement the social and business relationships existing between them; and

Whereas, cheap telephone rates will do a great deal to foster such social and business relations between the local cities; and

Whereas, the telephone company serving Southern California has greatly reduced rates between neighboring cities; and

Whereas, the new bridges obviate the necessity of expensive cables which formerly were a factor in maintaining high rates; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record requesting that the State Railroad Commission investigate the telephone rates existing between the sister cities of the San Francisco Metropolitan Bay Area and see if the toll

system now existing for ordinary social and business calls cannot be eliminated; and be it

Further Resolved, That copies of this resolution be forwarded to the State Railroad Commission and the local telephone company.

**Requesting Park Commission to Set Aside Palace of Fine Arts for  
San Francisco Museum of Science and Industry.**

(Code No. 24.052)

Supervisor Schmidt presented:

Resolution No. 3567, as follows:

Whereas, the City and County of San Francisco should do everything in its power to encourage the development of Science and Industry; and

Whereas, other large cities at home and abroad have found the development of museums of science and industry to have not only cultural and educational value, but also serve as great tourist attractions; and

Whereas, our city, from a standpoint of business, should do everything possible to foster and increase its tourist attractions; and

Whereas, we have in the Palace of Fine Arts a building apparently suitable for such a purpose; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record requesting information of the Park Commission as to the availability and feasibility of using the Palace of Fine Arts as the building for a San Francisco Museum of Science and Industry.

**Authorizing the Mailing of Arguments Approving Charter Amendment No. 1, Public Inspection of Civil Service Papers.**

(Code No. 3.02)

Whereas, a general municipal election will be held in the City and County of San Francisco on the 2nd day of November, 1937, at which Charter Amendment No. 1, Public Inspection of Civil Service Papers, has been ordered submitted to the electors by the Board of Supervisors; now, therefore, be it

The Supervisor requests this opinion by the next meeting of the Board.

*Amendment referred to Streets Committee.*

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

**Relative to Proposed Reduction in Water Rates.**

The following communication of Supervisor McSheehy was read by the Clerk:

San Francisco, California,  
October 1, 1937.

Mr. A. J. Cleary, Chief Administrative Officer,  
City Hall, San Francisco.

Dear Mr. Cleary: By motion adopted by the Board of Supervisors on Monday, September 20, 1937, the undersigned committee of three

members was appointed to request the appropriation of \$2,000 from the Publicity and Advertising Fund under your jurisdiction for the purpose of financing an investigation of the present high water rates in San Francisco (which rates are today the highest of all cities of comparable size in the United States), and to report back its findings to the Board of Supervisors within thirty (30) days, and which findings are to be transmitted to His Honor the Mayor for such action as he deems best.

Contained in the motion are eight paragraphs setting forth:

1. The receipts, disbursements and profits of the San Francisco Water Department for the fiscal year 1935-1936;

2. The amount of water delivered to San Francisco, and the amount available and unused and which eventually finds its way into the Pacific Ocean;

3. Purchase of the Spring Valley Water Company's properties with a positive assurance of a substantial reduction of water rates;

4. Placing of a meter charge which never existed for sixty years prior to 1921;

5. Installation of meters in 1921 as an emergency measure to restrict the use of water;

6. Permission of the Railroad Commission of the State of California for installation of meters because of a great shortage of water and a threatened water famine;

7. That contracts are about to be entered into with San Jose and Palo Alto by which these cities are to purchase water from the San Francisco Water Department for 13 $\frac{1}{4}$  cents per 1,000 gallons although San Franciscans are compelled to pay nearly three times that amount;

8. In the Admission Day parade, September 9, 1937, at Santa Monica, a float carried a large sign announcing that the City of Los Angeles is selling water at 17 $\frac{1}{2}$  cents per 1,000 gallons to its consumers.

The eight points as outlined above are followed with directions to the Committee to report back its findings to the Board of Supervisors within thirty (30) days—and further directs that such findings be then transmitted to His Honor the Mayor for such action as he deems best.

In pursuing these investigations this committee has reason to believe the findings will justify His Honor the Mayor in recommending to the Public Utilities Commission a substantial reduction in water rates, removal of the meters, and installation of a flat rate charge for water.

The Public Utilities Commission, through its Manager of Utilities Mr. E. G. Cahill, forwarded to the Board of Supervisors a statement which was introduced on Monday, September 20, 1937, indicating that they are not in favor of removal of the meters or of making a substantial reduction in water rates for the citizens of San Francisco; but appear only to be interested in selling the unused water to our sister cities to the south for the purpose of increasing revenue to be reflected in further reductions of the city's tax rate. You will note in this year's budget (1937-1938), that \$1,900,000 of the net profits of the San Francisco Water Department is reflected in a reduction of the city tax rate. However, the real beneficiaries of this reduction in taxes are the owners of large holdings of property that have wells and do not consume city water in any manner proportionate to the consumption by home owners.

The Press of San Francisco has quoted you as saying that the sum requested should come from the Public Utilities Commission. Common sense would tell one that the maker of a condition would not countenance an appropriation for the purpose of investigating a condition that he himself created. Los Angeles has seen fit to expend at least \$1,000 for the purpose of constructing a float to tell the people of California (including the people of San Francisco), the advantages which accrue to that city in offering a low water rate to all of its consumers.

If it was good publicity for Los Angeles to expend this sum for the purpose of advertising this fact to the world, why is it not good publicity for San Francisco to make a similar expenditure so that eventually we may advertise to the world that we are selling water at a rate low enough to attract new residents and new industries.

The late Senator Phelan and the late Governor Rolph, both former Mayors of our city, had but one thought in mind when they advocated the bonding of our city for millions of dollars to give to San Francisco a supply of water at a price that would invite manufacturers and residents to locate in San Francisco and allow the home surroundings of this great city to be beautified by the planting of trees, shrubs and flowers. Golden Gate Park was once a great sand dune—look at it now!

With the welfare of San Francisco in mind this committee assures you that if the appropriation is made available for its use, a report will be submitted to the Board of Supervisors and transmitted to His Honor the Mayor substantiating in every particular the purpose of the motion of September 20, 1937, and that will justify His Honor the Mayor in requesting the Public Utilities Commission to put into effect a substantial reduction in water rates, eliminate meters, and sell water on a flat rate basis that will allow the people of San Francisco to buy and use much larger quantities of water than is now possible under the present high rates and meter charges.

The Committee trusts that you will allow the appropriation requested, so that San Francisco may advertise to the world that it is no longer the city that is charging more for water than any other city of comparable size in the United States.

Very truly yours,

Special Committee to Investigate Water Rates,  
By James B. McSheehy, Chairman,

**Opinion of City Attorney Re Cases in Which the Board of Supervisors May Act by Motion and Not by Ordinance or Resolution.**

Thereupon, the following was read by the Clerk:

September 27, 1937.

Dear Sir: I have your request that I advise you as to whether or not a so-called motion made by Supervisor McSheehy at a meeting of the Board of Supervisors held on April 20, 1937, which said motion was adopted by a four to five vote, there being only nine members of the Board present at the meeting, is a motion or a resolution.

I understand the purpose of your inquiry to be that, if the matter is a resolution, it must be adopted by a majority vote as provided by the Charter.

The preamble of the so-called motion consists of some eight clauses introduced by "Whereas" setting forth conditions which the mover of the motion alleges to exist in regard to the water supply of San Francisco. These are followed by the "Resolves" which set forth the action to be taken by the Board. These read as follows:

"Resolved, That the President of this Board appoint a committee of three Supervisors to request from the Chief Administrative Officer the sum of two thousand (\$2,000) dollars for the purpose of employing engineers to ascertain the amount of water now in storage; the amount of water daily consumed in San Francisco; the amount of water flowing daily into the Pacific Ocean; the amount of money collected monthly for the use of meters, and such other information as may be required to present to his Honor the Mayor, showing that (a) reduction of water rates should be made; (b) meters should be taken out and water should be paid for at a 'flat rate' instead of at the present rates with added meter charge, so that citizens would be encouraged to use water more freely, to plant trees, shrubs and otherwise beautify their homes; (c) San Franciscans should receive a preference to the use of water now allowed to flow into the Pacific Ocean, and should receive the advantage of the greatly reduced rates offered

to the residents of San Jose and Palo Alto by the Manager of Utilities, which rates are in fact only one-third of the rates now charged in San Francisco; and through such reduction in rates San Francisco will be enabled to advertise to the world that this City is selling water for less than the  $17\frac{1}{3}$  cent rate per 1,000 gallons emblazoned on the Los Angeles float in the Admission Day parade at Santa Monica, instead of suffering through comparison between our present  $34\frac{1}{2}$  cent rate per 1,000 gallons and the rate of  $17\frac{1}{3}$  cents announced by the City of Los Angeles; and be it further

"Resolved, That this Committee report back its findings to the Board of Supervisors within thirty (30) days, and that they be transmitted to his Honor the Mayor for such action as he deems best."

It is quite true that the mover of the motion took particular care to label his action as a motion made in open Board, the minutes of the Board showing the following actions taken by the Supervisors to move the adoption of the so-called motion:

"SUPERVISOR McSHEEHY: Members of the Board, I have here a motion that I will make. I want you to read it rather slowly, Mr. Dunnigan, and I have copies struck off for every member of the Board. I would ask you to follow it if you please. (Motion read by Clerk.)

"SUPERVISOR McSHEEHY: Mr. President, as you will notice, and members of the Board, this is in the form of a motion, and I trust that I will receive a second. (Seconded by Supervisor Reilly.)

"SUPERVISOR SCHMIDT said, 'I will also second the motion.'

"THE PRESIDENT: It was regularly moved and seconded that the motion be adopted. Are you ready for the question, Mr. McSheehy? (Mr. McSheehy spoke.)"

#### *Opinion.*

I approach the matter from two standpoints:

First: Was the motion made by Supervisor McSheehy a motion or a resolution; and

Second: Has the Board of Supervisors the power to accomplish the purposes outlined in the so-called motion?

Giving consideration to the first question I direct attention to Section 13 of the Charter, which provides that:

"Action by the board of supervisors shall be by ordinance or resolution in writing introduced by a member or by committee of said board and passed or adopted by a majority of all the members of the board at each reading."

It should be noted that the section does not state that "legislative" action by the Board should be by ordinance or resolution. Therefore, it is not necessary to determine whether the motion made is a legislative act.

It appears to me that it demands action by the Board for the reason that it authorizes the President to appoint a committee to do certain things: First, to request of the Chief Administrative Officer an allowance of \$2,000 for the purpose of employing engineers, which engineers are to make certain investigations and certain reports, I presume to the Committee mentioned although this is not definitely set forth in the so-called motion, and the Committee is then to report back its findings to the Board of Supervisors and the Board of Supervisors is to transmit these findings to the Mayor. I am therefore of the opinion that the motion or resolution demands definite action by the Board. This being the case the action should be taken either by ordinance or by resolution adopted by a majority vote of all the members of the Board.

The document presented by Mr. McSheehy has all the earmarks of a resolution. It has the usual number of "whereases" followed by the "Resolved" of the Board. While I will admit that there is no set form for a resolution, Roberts, in his "Rules of Order," says:

"If it is desired to give the reasons for the resolution they are usu-

ally stated in the preamble each clause of which constitutes a paragraph beginning with 'Whereas.' The preamble is always amended last as changes in the resolution may require changes in the preamble. In moving the adoption of the resolution the preamble is not usually referred to as it is included in the resolution."

It would therefore appear from the action taken by Mr. McSheehy that, while he put his act in the form of a motion, he really moved the adoption of a resolution and as the motion did not receive the requisite six votes, in my opinion, it failed passage.

There are many cases in the law books dealing with the actions of legislative bodies and most of them hold that, except for the purpose of regulating procedure, there is little difference between a motion and a resolution. In *El Paso Gas and Electric Company v. City of El Paso*, 54 S. W. 798, the Supreme Court of Texas said:

"A motion is a proposition made to the house by a member which, if adopted, becomes the resolution, vote or order of the house."

Continuing, the Court said: "Although the word 'resolution' or 'resolved' was not used by the common council in taking this proceeding, it is none the less a proceeding, by whatever name it may be called. The requirements of the charter cannot be evaded in a matter of such importance nor the mayor deprived of his prerogative by the mere change of word by calling what is resolved to be done a motion and not a resolution."

In *Monroe v. Pearson*, 157 N. W. 849, the Supreme Court of Iowa said: "It is further agreed that the proceedings of the council were not in the form of a resolution. The form of the proceedings was a motion duly entered of record and carried. This motion was the equivalent of a resolution."

In *Commonwealth et al. v. Bither*, 144 Atl., at page 733, the Supreme Court of Pennsylvania held: "It is true the act of 1923 prescribes that the appointment of a tax collector to fill a vacancy shall be by a 'resolution,' and that the declaration of the council in naming Tarnier is couched in the form of a motion. It is nevertheless a carefully worded councilmanic act, and in substance and purpose carries the weight and legal significance of a resolution; the effect being the same as if the word 'resolution' had been used, instead of 'motion.' . . . The substance of the councilmanic deliverance and the intention of those who formally voted for it must govern."

I am therefore of the opinion that, notwithstanding the fact that Supervisor McSheehy labeled his act as a motion, in reality it is a resolution and as it required some positive action to be taken by the Board it required six votes to make it effective.

As to the second point:

I believe the form of the action is of far less importance in the instant case than is the substance thereof. It appears to me that the Board, in endeavoring to enact the legislation submitted to me, is going far afield and attempting to take action on matters which are beyond its jurisdiction.

In the first place, the Chief Administrative Officer has no funds which could be allocated for the purpose which you mention and if he had any surplus funds under his jurisdiction, they could only be appropriated upon the recommendation of the Mayor.

Secondly, the Public Utilities Commission, under the provisions of the Charter, has charge of the construction, management, supervision, maintenance, extension, operation and control of all public utilities and the Board of Supervisors, except in the matter of concurring in rates, has no right to suggest any action whatsoever in regard to the management, supervision or conduct of the utility and the doing so would be a violation of Section 22 of the Charter.

True, I note from the form of the so-called motion that any information obtained is not to be sent to the Public Utilities Commission

but rather to the Mayor. I can find nothing in the Charter that authorizes your Board to make an independent investigation of any matter within the jurisdiction of the Public Utilities Commission, even if the purpose of said investigation is to lay certain facts before the Mayor in the hope that he will transmit them to the Commission. The only time that the Board would have any power over such matters as are set forth in the so-called motion would be at the time of approving rates in conformity with the provisions of Section 130 of the Charter, and if any such information as is called for in the so-called motion is desired at that time the information should be obtained, not through the hiring of an independent engineer, but through the Manager of the Utilities. It must be borne in mind that, while the Board of Supervisors might differ as to how any particular utility should be conducted, the Public Utilities Commission, and not the Board, is charged with its conduct. The purpose of Section 22 of the Charter is that as long as persons occupy their respective positions as members of the Public Utilities Commission they should exercise their sound discretion unhampered by action of the Board of Supervisors except when such action is provided for by the Charter.

In view of the foregoing, you are advised that, in my opinion, Mr. McSheehy's so-called motion is not effective and, furthermore, even if it had received the requisite number of votes, its provisions could not be legally carried out.

Respectfully submitted,

JOHN J. O'TOOLE,  
City Attorney.

**Requesting Mayor to Prevent Removal of Panama Pacific Line  
and the Grace Line as San Francisco Commercial Carriers.**

(Code No. 5.49)

Supervisor McSheehy presented:

Resolution No. 3577, as follows:

Whereas, a percentage of the business of this community develops from Ocean-borne commerce; and

Whereas, the City of San Francisco has established itself as the gateway between the east coast and Pacific ports to the west in the trans-shipment of passengers and cargo; and

Whereas, the Port of San Francisco provides berthing facilities of the finest type anywhere in the country; and

Whereas, the removal of one or both of these lines would provide a serious set-back in the development of ocean-borne commerce to this port; and

Whereas, hotels, stores, travel agencies and the prestige of the port would suffer tremendous losses; now, therefore, be it

Resolved, That this Board of Supervisors file its protest against the removal of either the Panama-Pacific Line or the Grace Line, or both of them from the intercoastal trade route between New York and San Francisco; and be it

Further Resolved, That the Mayor be requested to take whatever action he considers most effective to stop the removal of these companies as San Francisco commercial carriers; and be it

California.**

(Code No. 5.31)

Resolution No. 3513, as follows:

Whereas, pursuant to an order of the Railroad Commission of the State of California, the privately-owned ferry companies operating between San Francisco and East Bay points, and between San Francisco and Sausalito, have reduced their fares to thirty cents for a one-way trip and fifty cents for a round trip; and

Whereas, an appreciably reduced income is already apparent in the amount of tolls collected upon the Golden Gate Bridge and the San Francisco-Oakland Bay Bridge, which reductions in income can, in a large measure, be attributed to the greatly reduced fares of the competing privately owned ferries; and

Whereas, this reduction in revenues will continue, and may increase in seriousness, working to the detriment of the political subdivisions financially responsible for the successful operation of the Golden Gate Bridge and to the detriment of the State Toll Bridge Authority operating the San Francisco-Oakland Bay Bridge, unless steps are taken to cope with the situation; and

Whereas, it is unreasonable to expect that automobilists will prefer the bridges as a means of transportation across the bay at much higher

tolls than are offered by the privately-owned competing ferry companies; and

Whereas, the forty-five northern counties of the State, comprising highway group number one, contribute to the maintenance of the San Francisco-Oakland Bay Bridge out of their share of the State Highway Maintenance Fund; and

Whereas, the nine counties comprising the Golden Gate Bridge and Highway District have bound themselves together to guarantee the payment of any deficits from the operation of that bridge, and are therefore vitally interested in its financial success; and

Whereas, the forty-five northern counties of California, comprising State Highway group number one, and the counties comprising the Golden Gate Bridge and Highway District have a vital interest in meeting this thirty-cent competition; and

Whereas, it seems apparent that a practical way to meet said ferry competition would be to reduce bridge tolls to twenty-five cents, which reduction would also lower the barrier to the ready movement of northern county residents as well as affording their agricultural and manufactured products freer access into the great markets of the San Francisco Metropolitan Bay area; and

Whereas, a twenty-five-cent toll would also make more accessible the counties of Northern California to not only the residents of, but also the tourists visiting, the San Francisco Metropolitan Bay area; now, therefore, be it

Resolved, That the Mayor of the City and County of San Francisco be respectfully requested to appoint a committee of San Francisco City Officials, whose duty it shall be to call a conference of official delegates to be chosen from the Boards of Supervisors of the forty-five counties of Northern California, including the nine counties of the Golden Gate Bridge and Highway District, to discuss the Bridge-Highway situation and to devise ways and means to cope with the condition and take such cooperative steps as may be deemed necessary to protect and conserve the mutual interests of all concerned; and be it

Further Resolved, That copies of this resolution be sent to his Excellency the Governor, the State Highway Commission, the State Toll Bridge Authority, the Board of Directors of the Golden Gate Bridge and Highway District and the Boards of Supervisors of the said forty-five counties of Northern California.

**Endorsing "Chronicle" Plan to Fix Bay Bridge Toll at 25 Cents.**

(Code No. 12.112)

The following matter called out of Committee by Supervisor Schmidt was taken up:

Resolution No. 3018, as follows:

Whereas, it is only fair and equitable that posterity bear some part of the financial burden of the cost of the San Francisco-Oakland Bay Bridge, and in pursuance of that thought, the San Francisco Chronicle has proposed a refinancing plan whereby the present tolls may be reduced from sixty-five cents to twenty-five cents on each passenger automobile; and

Whereas, the San Francisco-Oakland Bay Bridge is only another great unit connecting up the State system of highways, it is proposed that it be financed out of gas tax funds in the same manner as those other great highway projects of the State of California, the Redwood Highway and the Feather River Canyon Highway by an allocation of gas tax funds for the amortization of the bonds; and

Whereas, it is deemed practical that this may be done on the basis proposed, to-wit: that the annual \$2,000,000 bond amortization charges be met from gas tax funds and that the maintenance charges be met, as now, from gas tax supplied highway maintenance funds, and that the \$2,000,000 annual interest charges on the bonds be met from the proposed twenty-five cent toll certain to be sufficient because of the increased traffic anticipated; now, therefore, be it

Resolved, That the Board of Supervisors of San Francisco goes on record as heartily in favor of the plan proposed by the San Francisco Chronicle and urges that the State Highway Commission proceed at once to put it into effect.

**Action Deferred.**

On motion of Supervisor Schmidt the foregoing resolution was *laid over until October 25, 1937, and made a Special Order of Business for 2:30 p. m.* by the following vote:

Ayes—Supervisors Brown, Colman, McSheehy, Mead, Meyer, Ratto, Reilly, Roncovieri, Schmidt, Uhl—9.

No—Supervisor Shannon—1.

Absent—Supervisor Brown—1.

### Streets of Major Importance Improved by W. P. A. Funds.

(Code No. 5.31)

Supervisor Ratto presented:

Resolution No. 3603, as follows:

Whereas, the following named streets have been, or will be, widened and repaved by funds partially provided by the Works Progress Administration, to-wit:

Seventeenth street—Market to Harrison streets.

Third street—Bayshore Highway to Islais Creek.

Fifteenth street—Beaver to Buena Vista.

Columbus avenue—The Embarcadero to Beach.

Bay street—The Embarcadero to Van Ness avenue.

Valencia street—Market to Mission streets.

and

Whereas, the work done upon said streets in such that the same would not have been performed out of normally budgetary funds for the reason that such funds were not, and will not be, available for said purpose; and

Whereas, the said work done, and to be done, on said streets was in no way for the special benefit of the property fronting on said streets, but was done in order to make said streets more available for the carrying of vehicular traffic from all parts of the city, and, therefore, the same was for the benefit of the public generally.

Now Therefore, Be It Resolved, That this Board of Supervisors does hereby find and declare that the above mentioned streets, and all other streets heretofore similarly improved by funds provided by the Works Progress Administration, are streets of major importance, and that the improvements made and being made thereon are not made for the benefit of fronting property, but are being made for the purpose of facilitating general vehicular traffic within the City, and that it would be unfair that any part of the cost of said improvements should be made a charge against the owners of the property fronting on said streets.

### SPECIAL ORDER—2:30 P. M.

The following matter was called out of Committee by Supervisor Schmidt:

**Endorsing "Chronicle" Plan to Fix Bay Bridge Toll at 25 Cents.**

(Code No. 12.112)

Resolution No. 3018, as follows:

Whereas, it is only fair and equitable that posterity bear some part of the financial burden of the cost of the San Francisco-Oakland Bay Bridge, and in pursuance of that thought, the San Francisco Chronicle has proposed a refinancing plan whereby the present tolls may be reduced from sixty-five cents to twenty-five cents on each passenger automobile; and

Whereas, the San Francisco-Oakland Bay Bridge is only another great unit connecting up the State system of highways, it is proposed that it be financed out of gas tax funds in the same manner as those other great highway projects of the State of California, the Redwood Highway and the Feather River Canyon Highway by an allocation of gas tax funds for the amortization of the bonds; and

Whereas, it is deemed practical that this may be done on the basis proposed, to-wit: that the annual \$2,000,000 bond amortization charges be met from gas tax funds and that the maintenance charges be met, as now, from gas tax supplied highway maintenance funds, and that the \$2,000,000 annual interest charges on the bonds be met from the pro-

posed twenty-five cent toll certain to be sufficient because of the increased traffic anticipated; now, therefore, be it

Resolved, That the Board of Supervisors of San Francisco goes on record as heartily in favor of the plan proposed by the San Francisco Chronicle and urges that the State Highway Commission proceed at once to put it into effect.

#### Action Deferred.

Supervisor Schmidt moved that the foregoing Resolution No. 3018, and Resolution No. 3513 as well, which come up next Monday, be laid over until November 8, 1937, and be made a Special Order of Business for 2:30 p. m. on that day.

*So ordered.*

### Action Deferred.

The following matters were, on motion of Supervisor Schmidt, *laid over one week*:

The following matters were called out of Committee by Supervisor Schmidt:

**Appointment of Committee to Call Conference of Delegates from  
Boards of Supervisors of the Forty-five Counties of Northern  
California.**

(Code No. 5.31)

Resolution No. 3513, as follows:

Whereas, pursuant to an order of the Railroad Commission of the State of California, the privately-owned ferry companies operating between San Francisco and East Bay points, and between San Francisco and Sausalito, have reduced their fares to thirty cents for a one-way trip and fifty cents for a round trip; and

Whereas, an appreciably reduced income is already apparent in the amount of tolls collected upon the Golden Gate Bridge and the San Francisco-Oakland Bay Bridge, which reductions in income can, in a

large measure, be attributed to the greatly reduced fares of the competing privately owned ferries; and

Whereas, this reduction in revenues will continue, and may increase in seriousness, working to the detriment of the political subdivisions financially responsible for the successful operation of the Golden Gate Bridge and to the detriment of the State Toll Bridge Authority operating the San Francisco-Oakland Bay Bridge, unless steps are taken to cope with the situation; and

Whereas, it is unreasonable to expect that automobilists will prefer the bridges as a means of transportation across the bay at much higher tolls than are offered by the privately-owned competing ferry companies; and

Whereas, the forty-five northern counties of the State, comprising highway group number one, contribute to the maintenance of the San Francisco-Oakland Bay Bridge out of their share of the State Highway Maintenance Fund; and

Whereas, the nine counties comprising the Golden Gate Bridge and Highway District have bound themselves together to guarantee the payment of any deficits from the operation of that bridge, and are therefore vitally interested in its financial success; and

Whereas, the forty-five northern counties of California, comprising State Highway group number one, and the counties comprising the Golden Gate Bridge and Highway District have a vital interest in meeting this thirty-cent competition; and

Whereas, it seems apparent that a practical way to meet said ferry competition would be to reduce bridge tolls to twenty-five cents, which reduction would also lower the barrier to the ready movement of northern county residents as well as affording their agricultural and manufactured products freer access into the great markets of the San Francisco Metropolitan Bay area; and

Whereas, a twenty-five-cent toll would also make more accessible the counties of Northern California to not only the residents of, but also the tourists visiting, the San Francisco Metropolitan Bay area; now, therefore, be it

Resolved, That the Mayor of the City and County of San Francisco be respectfully requested to appoint a committee of San Francisco City Officials, whose duty it shall be to call a conference of official delegates to be chosen from the Boards of Supervisors of the forty-five counties of Northern California, including the nine counties of the Golden Gate Bridge and Highway District, to discuss the Bridge-Highway situation and to devise ways and means to cope with the condition and take such cooperative steps as may be deemed necessary to protect and conserve the mutual interests of all concerned; and be it

Further Resolved, That copies of this resolution be sent to his Excellency the Governor, the State Highway Commission, the State Toll Bridge Authority, the Board of Directors of the Golden Gate Bridge and Highway District and the Boards of Supervisors of the said forty-five counties of Northern California.

**Endorsing "Chronicle" Plan to Fix Bay Bridge Toll at 25 Cents.**

(Code No. 12.112)

Resolution No. 3018, as follows:

Whereas, it is only fair and equitable that posterity bear some part of the financial burden of the cost of the San Francisco-Oakland Bay Bridge, and in pursuance of that thought, the San Francisco Chronicle has proposed a refinancing plan whereby the present tolls may be reduced from sixty-five cents to twenty-five cents on each passenger automobile; and

Whereas, the San Francisco-Oakland Bay Bridge is only another great unit connecting up the State system of highways, it is proposed that it be financed out of gas tax funds in the same manner as those other great highway projects of the State of California, the Redwood

Highway and the Feather River Canyon Highway by an allocation of gas tax funds for the amortization of the bonds; and

Whereas, it is deemed practical that this may be done on the basis proposed, to-wit: that the annual \$2,000,000 bond amortization charges be met from gas tax funds and that the maintenance charges be met, as now, from gas tax supplied highway maintenance funds, and that the \$2,000,000 annual interest charges on the bonds be met from the proposed twenty-five cent toll certain to be sufficient because of the increased traffic anticipated; now, therefore, be it

Resolved, That the Board of Supervisors of San Francisco goes on record as heartily in favor of the plan proposed by the San Francisco Chronicle and urges that the State Highway Commission proceed at once to put it into effect.

### Adopted.

The following was presented:

### Canvass of General Municipal Election of Tuesday, November 2, 1937.

November 10, 1937.

To the Honorable the Board of Supervisors, City Hall, San Francisco.

Gentlemen: On Thursday, November 11th, at 11 a. m., I am leaving for Washington, D. C., to attend the United States Conference of Mayors. In accordance with Section 25 of the Charter, I designate Honorable Warren Shannon, President of the Board, to act as Mayor during my absence.

## SPECIAL ORDER—2:30 P. M.

The following matters heretofore called out of Committee by Supervisor Schmidt were taken up:

Appointment of Committee to Call Conference of Delegates from Boards of Supervisors of the Forty-five Counties of Northern California.

(Code No. 5.31)

Resolution No. 3513, as follows:

Whereas, pursuant to an order of the Railroad Commission of the State of California, the privately-owned ferry companies operating between San Francisco and East Bay points, and between San Francisco and Sausalito, have reduced their fares to thirty cents for a one-way trip and fifty cents for a round trip; and

Whereas, an appreciably reduced income is already apparent in the amount of tolls collected upon the Golden Gate Bridge and the San

Francisco-Oakland Bay Bridge, which reductions in income can, in a large measure, be attributed to the greatly reduced fares of the competing privately owned ferries; and

Whereas, this reduction in revenues will continue, and may increase in seriousness, working to the detriment of the political subdivisions financially responsible for the successful operation of the Golden Gate Bridge and to the detriment of the State Toll Bridge Authority operating the San Francisco-Oakland Bay Bridge, unless steps are taken to cope with the situation; and

Whereas, it is unreasonable to expect that automobilists will prefer the bridges as a means of transportation across the bay at much higher tolls than are offered by the privately-owned competing ferry companies; and

Whereas, the forty-five northern counties of the State, comprising highway group number one, contribute to the maintenance of the San Francisco-Oakland Bay Bridge out of their share of the State Highway Maintenance Fund; and

Whereas, the nine counties comprising the Golden Gate Bridge and Highway District have bound themselves together to guarantee the payment of any deficits from the operation of that bridge, and are therefore vitally interested in its financial success; and

Whereas, the forty-five northern counties of California, comprising State Highway group number one, and the counties comprising the Golden Gate Bridge and Highway District have a vital interest in meeting this thirty-cent competition; and

Whereas, it seems apparent that a practical way to meet said ferry competition would be to reduce bridge tolls to twenty-five cents, which reduction would also lower the barrier to the ready movement of northern county residents as well as affording their agricultural and manufactured products freer access into the great markets of the San Francisco Metropolitan Bay area; and

Whereas, a twenty-five-cent toll would also make more accessible the counties of Northern California to not only the residents of, but also the tourists visiting, the San Francisco Metropolitan Bay area; now, therefore, be it

Resolved, That the Mayor of the City and County of San Francisco be respectfully requested to appoint a committee of San Francisco City Officials, whose duty it shall be to call a conference of official delegates to be chosen from the Boards of Supervisors of the forty-five counties of Northern California, including the nine counties of the Golden Gate Bridge and Highway District, to discuss the Bridge-Highway situation and to devise ways and means to cope with the condition and take such cooperative steps as may be deemed necessary to protect and conserve the mutual interests of all concerned; and be it

Further Resolved, That copies of this resolution be sent to his Excellency the Governor, the State Highway Commission, the State Toll Bridge Authority, the Board of Directors of the Golden Gate Bridge and Highway District and the Boards of Supervisors of the said forty-five counties of Northern California.

#### Endorsing "Chronicle" Plan to Fix Bay Bridge Toll at 25 Cents.

(Code No. 12.112)

Resolution No. 3018, as follows:

Whereas, it is only fair and equitable that posterity bear some part of the financial burden of the cost of the San Francisco-Oakland Bay Bridge, and in pursuance of that thought, the San Francisco Chronicle has proposed a refinancing plan whereby the present tolls may be reduced from sixty-five cents to twenty-five cents on each passenger automobile; and

Whereas, the San Francisco-Oakland Bay Bridge is only another great unit connecting up the State system of highways, it is proposed that it be financed out of gas tax funds in the same manner as those other great highway projects of the State of California, the Redwood

Highway and the Feather River Canyon Highway by an allocation of gas tax funds for the amortization of the bonds; and

Whereas, it is deemed practical that this may be done on the basis proposed, to-wit: that the annual \$2,000,000 bond amortization charges be met from gas tax funds and that the maintenance charges be met, as now, from gas tax supplied highway maintenance funds, and that the \$2,000,000 annual interest charges on the bonds be met from the proposed twenty-five cent toll certain to be sufficient because of the increased traffic anticipated; now, therefore, be it

Resolved, That the Board of Supervisors of San Francisco goes on record as heartily in favor of the plan proposed by the San Francisco Chronicle and urges that the State Highway Commission proceed at once to put it into effect.

**Referred.**

The following substitute resolution offered by Supervisor Schmidt in lieu of the two foregoing resolutions, was *referred to the Finance Committee*:

**Appointment of Committee to Call Conference of Delegates From  
Boards of Supervisors of the Forty-five Counties of Northern  
California.**

(Code No. 5.31)

Resolution No. 3644, as follows:

Whereas, the two great San Francisco bridges are toll bridges for the use of which tolls are exacted from all who traverse the same; and

Whereas, the exaction of tolls tends to diminish and discourage motorists of all classes, including tourists and commercial motorists, from freely using such bridges as highways leading into and from the City and County of San Francisco; and

Whereas, the said bridges are in fact units in the system of highways that makes California famous throughout the world; and

Whereas, the said bridges are not included in the State Highway System nor operated by the State, but are in fact operated by the officials of the Golden Gate Bridge and Highway District and by the officials of the State Toll Bridge Authority; and

Whereas, an appreciably reduced income is already apparent in the amount of tolls collected upon the Golden Gate Bridge and the San Francisco-Oakland Bay Bridge; and

Whereas, this reduction in revenues may increase in seriousness, working to the detriment of the political subdivisions financially responsible for the successful operation of the Golden Gate Bridge and to the detriment of the State Toll Bridge Authority operating the San Francisco-Oakland Bay Bridge, unless steps are taken to cope with the situation; and

Whereas, were the two great bridges to become a part of the State Highway System, operated by the State of California and maintained out of gas tax revenues in whole or in part, the reduction or abolishment of tolls would result in much freer use of the bridges to the mutual benefit of San Francisco and the cities and counties to the north and east of San Francisco; now, therefore, be it

Resolved, That the Mayor of the City and County of San Francisco be respectfully requested to appoint a committee of San Francisco City officials, whose duty it shall be to call a conference of official delegates, to be chosen from the Boards of Supervisors of the forty-five counties of northern California, including the nine counties of the Golden Gate Bridge and Highway District, to discuss the bridge highway situation and to devise ways and means to cope with the condition and take such cooperative steps as may be deemed necessary to protect and conserve the mutual interests of all concerned; and be it

Further Resolved, That copies of this resolution be sent to his Excellency the Governor, the State Highway Commission, the State Toll

Bridge Authority, the Board of Directors of the Golden Gate Bridge and Highway District, and the Boards of Supervisors of the said forty-five counties of Northern California.

**Nineteenth Avenue Track Relocation—Agreement With Market Street Railway Company.**

The following resolution was taken up:

(Code No. 12.064)

Resolution No. 3623, as follows:

Resolved, In accordance with the recommendation of the Department of Public Works, that the Mayor and the Clerk of the Board of Supervisors, in behalf of the City and County of San Francisco, a municipal corporation, be and are hereby authorized and directed to execute that certain written agreement, dated September 20, 1937, with the Market Street Railway Company, a corporation, relative to

the relocation of the railway tracks on Nineteenth avenue, San Francisco, California, between Wawona street and Sloat boulevard. To defray the cost of said work the City shall pay the company the sum of \$4,517 from Appropriation No. 951.909.02, Project No. 5-B.

Reference is hereby made to said agreement on file in the office of the Director of Property for all particulars contained therein.

Approved by the Director of Property.

**Communication From Public Utilities Commission.**

The following was read by the Clerk:

November 13, 1937.

Subject: Reconstruction of tracks, Nineteenth avenue between Wawona and Sloat.

To the Honorable the Board of Supervisors, City Hall, San Francisco.

Gentlemen: It has come to my attention that there is pending before your honorable Board Resolution No. 3623, which proposes an appropriation of \$4,517 for the expense of reconstruction and relocation of certain street railway tracks on Nineteenth avenue between Wawona street and Sloat boulevard.

May I call your attention to the fact that these tracks, which are now operated by the Market Street Railway Company, were originally constructed under a franchise granted to the Parkside Transit Company by the Board of Supervisors on October 17, 1907, by Ordinance No. 288 (New Series). The length of the franchise was 25 years. Therefore, this franchise expired on October 17, 1932.

All franchises granted under Ordinance No. 288 were specifically excluded from the provision of Charter Section 131, which permitted private street railway companies to surrender their franchises and obtain certificates entitling them to a 25-year extension. The Market Street Railway Company did not surrender this franchise as it was prohibited from doing so by the Charter section, and the franchise, therefore, finally expired on October 17, 1932.

This franchise provided that upon expiration the trackage and overhead construction were to revert to and become the property of the City. The company has, therefore, been operating its No. 17 line over Nineteenth avenue between Wawona street and Sloat boulevard since October 17, 1932, purely by sufferance of the City, and has been operating over City property which, if it were utilized by the City, would constitute an extension of the Municipal Railway.

I understand from your proposed Resolution No. 3623 that it is now proposed to reconstruct and relocate those tracks. I take this opportunity to call your attention to the fact that the tracks in question, together with their overhead construction, cannot now and never will be utilized as a portion of the Municipal Railway. Under no circumstances would the Public Utilities Commission authorize operation of the Municipal Railway over these tracks. If the City should decide to operate a line on approximately the route now used by the No. 17 line of the Market Street Railway Company, the particular two blocks of track on Nineteenth avenue between Wawona street and Sloat boulevard would not be utilized.

Very truly yours,

E. G. CAHILL, Manager of Utilities.

**Statement of Chief Administrative Officer Alfred J. Cleary.**

MR. PRESIDENT AND GENTLEMEN OF THE BOARD: I was advised today that your Board had under consideration a recommendation from the Director of Public Works, Mr. Worden, to the effect that the City contribute to the replacement of the single track on Nineteenth avenue between Sloat boulevard and Wawona street.

PRESIDENT SHANNON: May I tell you that that matter has been voted down?

MR. CLEARY: Well, I simply want to make it a matter of record that at the time the recommendation was made the Manager of Utilities, Mr. Cahill, on April 29, 1937, advised the Director of Public Works, Mr. Newton, of the Market Street Railway, Colonel Skaggs, Chief Engineer of the Highway Commission, City Engineer Casey, Mr. Ohman, and myself, that the Utilities Commission was not in a position to guarantee any transportation whatever to the people of that district if the Market Street Railway removed its tracks or refused to operate. On that assumption, a recommendation was made by the Director of Public Works and concurred in by myself, that the City allow the State to take out of the gas tax fund a certain proportion of the cost of removing and replacing that track. I had a meeting with Mr. Cahill this morning and he advised me to the effect that if and when it became necessary for the Utilities Commission to provide transportation to that district he was in a position to say that it could be done. That, therefore, places the matter in a different light. However, the cost of removing the track will be an extra on the contract and will have to be borne by the City.

## SPECIAL ORDER—2:30 P. M.

### Consideration of Supervisor Uhl's Rapid Transit Bus Plan.

The following was presented by Supervisor Uhl and read by him to the Board:

Plan herewith submitted is supplemental to Municipal Railway operations. It is not proposed to abandon operation of any of the lines of the Municipal Railway.

Bus Route No. 11 is the only line traversing Market street, from the

Perry to Castro street. Bus Route No. 4 merely extends from Valencia street to Second street on the south side of Market street; returns via Mission street to Valencia street. No other bus line on Mission street.

Express bus operation at the peak hours will result in a saving of at least ten minutes; and exceeds the saving in time proposed by Mr. Cahill in his Subway Plan. It is proposed—except on the Feeder Routes—that there will be a two-minute headway at peak hours—suitable headway on other than peak hours to meet the demand.

Only on peak hours will Express Service be provided on Route No. 21. At other than peak hours, service seems generally satisfactory.

With parking regulations there will be no congestion of traffic due to bus operation. Evidence of this fact is noted on Mission street where the Greyhound buses traverse Mission street from Fifth to the County line at the peak hour. At 5:15 and 5:30 p. m. four Greyhound buses can be seen leaving the Greyhound bus terminal and following each other out Mission street, two going to San Jose via Bayshore and the other two continuing out Mission street to the County line. The Greyhound bus at peak hour covers a distance from Fifth and Mission to County line in from 25 to 29 minutes. The San Mateo street car covers the same distance in from 41 to 49 minutes, a saving via bus of from 15 to 20 minutes. Certainly operation of the Greyhound buses on Mission street will convince anyone with an open mind that buses are practical.

Advantages of bus operation are as follows:

1. Flexibility of the bus. Routes can be changed as required. In case of fire can detour.
2. Bus operation will not impair pavement as is the case with rails. It will eliminate expensive repair of pavement between car tracks and at intersections.
3. Elimination of noise.
4. Loading and unloading at curb.

In 30 months 140 miles of trolley tracks were removed in the City of New York and buses substituted for trolley cars. Whereas revenue from street car operation on Madison avenue was \$60,000 a month, revenue has increased through bus operation to \$110,000 per month. It is felt that many persons who were using their automobiles because of poor street car service now take the bus because of superior service.

The bus routes proposed are along natural routes. For example, you cannot get east or west of Third street. You cannot go west of Alemany boulevard. You cannot go east or west of bus route on Market street over Upper Market, Portola, Sloat boulevard to the Ocean. Howard street, Van Ness avenue South is a natural bus arterial, and with the removal of the tracks will make a perfect bus arterial. A route over Twenty-fifth avenue across the Park on south side of Nineteenth avenue is a natural one, you cannot very well go east or west of Nineteenth avenue. Nineteenth avenue is one of the bus routes proposed by Mr. Cahill. Likewise, Mr. Cahill proposed a bus feeder on Noriega evidencing the fact that the bus and not the trolley car is the best transportation available today. I am merely enlarging upon thirteen bus feeder proposals submitted by Mr. Cahill.

Following are the bus routes proposed at this time:

ROUTE NO. 1: From County line along Third street to Market, returning via Market, Second, Howard and Third streets to County line. At the morning peak hours buses will load passengers only between County line and Evans avenue. At the afternoon peak hours passengers will load at Third and Market, Second and Market, Second and Mission; no loading after leaving Second and Mission until reach Evans avenue. Local traffic will be picked up by street cars.

ROUTE NO. 2: County line, thence via San Jose avenue, Alemany boulevard, Bayshore, Potrero, Brannan and Fifth to a terminal at Mint avenue. Returning via the same route. At the morning peak hour passengers loaded between County line and Silver avenue. In the afternoon peak hour passengers will load at Mint avenue, Howard

street; no further stop until arriving at Silver avenue. Local traffic will be taken on by either the present street rail facilities or local bus service.

ROUTE NO. 3: From Embarcadero via Howard, Van Ness avenue South, Army, Mission, Ocean Avenue to terminal at Nineteenth avenue and Sloat boulevard, returning same route. At morning peak hour passengers loaded between Nineteenth avenue and Sloat boulevard to Army and Mission. In afternoon peak hour passengers loaded between The Embarcadero and Sixth street, making first stop at Silver avenue.

ROUTE NO. 4: Sloat boulevard at Nineteenth avenue via St. Francis boulevard, Santa Clara, Monterey, San Jose, Twenty-second street, Valencia, Market to Second; returning via Mission, McCoppin, Valencia, Twenty-second, San Jose, Monterey, Santa Clara, St. Francis boulevard to Nineteenth avenue and Sloat boulevard. At morning peak passengers loaded between Nineteenth avenue and Sloat boulevard, and San Jose and Monterey. Afternoon passengers loaded at Third and Market, Second and Market, Second and Third at Mission. No passengers loaded until arriving at San Jose and Monterey boulevard. Present street car facilities take care of passengers between Embarcadero and San Jose and Monterey boulevard.

ROUTE NO. 5: From Forty-eighth avenue via Lincoln way, Stanyan, Oak, Divisadero, Ellis, Fourth, Townsend to Third street depot. Returning over same route. Express bus service on morning peak hour between Lincoln way and Stanyan. At the evening peak hour passengers loaded between Third and Townsend and Fourth and Market, making first stop for passengers at Stanyan and Lincoln way.

ROUTE NO. 6: From Forty-eighth avenue via Cabrillo, Arguello, Turk, Leavenworth, Eddy to Market. Returning via Market, Golden Gate avenue, Parker, Turk, Arguello and Cabrillo. At morning peak hour passengers loaded between Forty-eighth avenue and First avenue. Evening peak hour passengers loaded on Market at Eddy, at Turk, at Golden Gate avenue. No further stops to load passengers until arriving at First avenue and Cabrillo.

No further stops to load passengers until reaching First avenue.

At afternoon peak hour passengers loaded on Beale, and at Mission, Market and California; on California at Montgomery, and on Montgomery at Bush. No further stops to load passengers until Fillmore street.

Following is an excerpt from the Saturday, May 1, 1937, issue of the *Automotive Daily News*:

*"New Bus Equipment Ups Chicago Passenger Traffic."*

"Chicago—Increases up to 40 percent in passenger traffic, increase in safety as measured by reduced number of accidents, decreased driver fatigue, and maintenance of schedule with greater ease, are some of the immediate results following on the purchase by Chicago Motor Coach Co. of new equipment, consisting of 194 new coaches, both double deck and single deck. These coaches have now piled up a total of nearly four million miles of routine service.

"Every line on which new equipment has been placed in operation has shown increases in traffic far beyond those of Chicago's other transportation system. That the new equipment is in a large measure responsible for this increase is indicated by the fact that the few lines still operating with the older equipment have shown a very small increase.

"None of the lines are as yet equipped 100 per cent with new equipment. The largest increase in passengers (40 per cent) is on the line with the greatest number of new buses, while the other lines have increases virtually in direct proportion to the number of new units, ranging down to about 29 per cent above last year."

The following is data obtained from the City of New York on the subject at hand:

City Omnibus Corporation is the largest single transportation substitution in all history.

"676 motor coaches replaced 585 street cars which had been operating over 140 miles of track.

"The first of the changeovers took place February 1st, 1935, when the Madison Avenue line, 11 miles along, was motorized. The coach service proved sensationally popular with the public, and riding increased 90 per cent during the first year of operation.

"During the first year of operation revenues increased 87.29 per cent.

"Madison avenue, once snarled in traffic due to slow moving street cars, overnight became a boulevard. On close check the riding time of motor coaches along the route was equal to that of private cars. The substitution of coaches was enthusiastically acclaimed by the press, the public and the merchants, and brought the statement from Mayor La Guardia, "Madison avenue, since the substitution of buses for trolleys, has become one of the show boulevards of the world."

The street cars on Madison avenue operated at three miles per hour; in peak service about six cars per block were used.

After modernizing the avenue and removing car tracks, the bus speed is seven miles per hour during the peak and the buses operate on a one-half minute headway. This applies to the congested district during the peak hour. Note, the buses in this particular district travel over twice as fast as the old street cars.

Following is an actual record covering Madison avenue supplied by the operator:

Number of coaches per day—typical week.....	104
Total miles operated—typical week day.....	9,448
Number of passengers per week day.....	124,342
Maximum number of passengers per hour-peak service...	10,020

Next came the motorization of 8th and 9th avenues. Seventy-five Yellow coaches replacing street cars on 9½ miles of route. From the first day of operation these lines proved highly successful, it being necessary to add 25 more coaches to take care of increased riding. Revenue for both lines increased 82.61 per cent.

Then followed motorization of the following:

Broadway, 7th avenue, Lexington avenue, 34th street, 116th street, Spring-Delancy street, 14th street, 79th street, 86th, 96th streets.

Since February 1, 1935.

Statistics reported by the Transit Commission of New York for the third quarter of 1936 says in part "The street surface railway lines combined carried a total of 133,821,000 passengers during the quarter, a decrease of 23,823,000 (18 per cent) fewer than September, 1935.

The total bus traffic of the City of New York reported for the quarter ended September 30, 1936, amounted to 139,923,000 passengers, representing an increase of 46,091,000 passengers or 49.1 per cent over the corresponding period of 1935.

#### Equipment—

Approximate equipment needed:

400	41-passenger buses at \$12,500 .....	\$5,000,000
40	25-passenger buses at \$7,000 .....	250,000
40	21-passenger buses at \$4,000 .....	160,000
		<hr/>
		\$5,510,000
10 per cent .....		551,000
		<hr/>
		\$4,959,000
Garages .....		1,000,000
Trackless Trolley "H" Line.....		500,000
		<hr/>
Total .....		\$6,459,000

Should be financed by either of following:

1. Ten-year bond issue; or
2. Purchase agreement covering ten-year annual payment of \$645,900.

Not less than 500 employees will be required in bus operations, shops, etc.

Whether these buses can be operated at a profit (and I believe they can), is beside the question. Service and not dollars is the paramount issue. To meet the East Bay Rapid Transportation one year hence is our problem. Buses can be provided within six months after funds are available.

*P. S.*—Serious consideration should be given the matter of underpassing Market at Sixth, and at Tenth street. These underpasses will positively speed up traffic.

(Blueprints delineating the various proposed routes were also furnished each member.)

#### Referred.

On motion of Supervisor Colman, the foregoing matter was ordered *referred to the Public Utilities Commission for consideration and report in a reasonable time—December 6, 1937, and notification if it cannot be done at that time.*

**Referred.**

The following matter was *referred to the Finance and Streets Committee*:

**Appointment of Committee to Call Conference of Delegates From  
Boards of Supervisors of the Forty-five Counties of Northern  
California.**

(Code No. 5.31)

Resolution No. 3644, as follows:

Whereas, the two great San Francisco bridges are toll bridges for the use of which tolls are exacted from all who traverse the same; and

Whereas, the exaction of tolls tends to diminish and discourage motorists of all classes, including tourists and commercial motorists, from freely using such bridges as highways leading into and from the City and County of San Francisco; and

Whereas, the said bridges are in fact units in the system of highways that makes California famous throughout the world; and

Whereas, the said bridges are not included in the State Highway System nor operated by the State, but are in fact operated by the officials of the Golden Gate Bridge and Highway District and by the officials of the State Toll Bridge Authority; and

Whereas, an appreciably reduced income is already apparent in the amount of tolls collected upon the Golden Gate Bridge and the San Francisco-Oakland Bay Bridge; and

Whereas, this reduction in revenues may increase in seriousness, working to the detriment of the political subdivisions financially responsible for the successful operation of the Golden Gate Bridge and to the detriment of the State Toll Bridge Authority operating the San Francisco-Oakland Bay Bridge, unless steps are taken to cope with the situation; and

Whereas, were the two great bridges to become a part of the State Highway System, operated by the State of California and maintained out of gas tax revenues in whole or in part, the reduction or abolishment of tolls would result in much freer use of the bridges to the mutual benefit of San Francisco and the cities and counties to the north and east of San Francisco; now, therefore, be it

Resolved, That the Mayor of the City and County of San Francisco be respectfully requested to appoint a committee of San Francisco City officials, whose duty it shall be to call a conference of official delegates to be chosen from the Boards of Supervisors of the forty-five counties of Northern California, including the nine counties of the Golden Gate Bridge and Highway District, to discuss the Bridge Highway situation and to devise ways and means to cope with the condition and take such cooperative steps as may be deemed necessary to protect and conserve the mutual interests of all concerned; and be it

Further Resolved, That copies of this resolution be sent to His Excellency the Governor, the State Highway Commission, the State Toll Bridge Authority, the Board of Directors of the Golden Gate Bridge and Highway District and the Boards of Supervisors of the said forty-five counties of Northern California.

**Communication From Public Utilities Commission Re Water Rates.**

The Clerk read the following:

November 16, 1937.

To the Honorable the Board of Supervisors, City Hall, San Francisco, California.

Gentlemen: I acknowledge letter of your Clerk under date of November 8th, reading as follows:

"Herewith plan re East Bay Municipal Utility District, which Supervisor Uhl requests you to read, and give your views thereon. The Supervisor also requests that you check the number of water meters in San Francisco, and also to answer 'Why is there a 70c meter charge in San Francisco where there is only a 50c meter charge in Oakland?'"

I have carefully examined the enclosed bulletin issued by the East Bay Municipal Utility District and submit herewith my comments thereon.

There is no question but that the East Bay Municipal Utility District is an efficient organization, deserving of the praise bestowed upon it in the article quoted and by any other engineers who have examined its operations.

Naturally, in quoting Mr. Plowman of Denver, the district did not go out of its way to further quote the reference in the article in question from the Engineering News-Record, as follows:

"The ideal water utility structure, from this standpoint of centralized and efficient organization, is the utility district. Such agencies function in Omaha, San Antonio, San Francisco, Oakland, and the Maryland suburbs of Washington, D. C., with success comparable to the best practice of private business."

\* \* \*

"There are other well-managed municipal water utilities. To mention a few: those serving San Francisco, Los Angeles, San Antonio, Denver, Omaha, Des Moines, Louisville, Detroit, Washington (Maryland suburban district), and metropolitan Boston, where efficient management is powerfully backed by a more or less independent water board organization."

The author of the article quoted was making studies of the organizations of various water systems with a view of recommending the best form of organization for Denver. The East Bay District is wholly integrated and self-contained, with power to fix rates, levy taxes and control its funds without reference to any Board of Supervisors or other legislative body—it has its own purchasing department, its own attorneys, its own civil service department, and is, in short, a self-contained organization. All responsibility is vested in its board of directors and no legislative body has power to interfere with its action in any way or to divert water revenues for other purposes.

Granting that the East Bay District may be more ideally organized to control all of its functions and that San Francisco is denied a completely integrated public utility organization under the existing Charter, with which Mr. Uhl should be familiar, nevertheless we do not feel that the showing of the San Francisco Water Department under municipal ownership suffers by comparison with the showing made by the East Bay District.

With regard to water rates, the bulletin transmitted over the signature of the board of directors of the East Bay District lays stress on a comparison of bills in San Francisco of \$1.74 as compared with a bill of \$1.42 for the same amount of water sold in the East Bay. This comparison is between bills on the basis of water rates, but let us go into the matter further and see how other factors alter this picture. It should be remembered that in the East Bay District taxes are levied to support the water system and to provide service to consumers, and that these taxes are in addition to the water bills rendered, while in San Francisco our Water Department provides funds

from its surpluses to reduce taxes. In the East Bay District, in addition to the revenue collected from water sales, the district levies a tax to help defray its expenses. This tax levy, which formerly was 50 cents per \$100 of valuation, has been recently reduced so that in the last year it was 25 cents per \$100 of assessed valuation of the property within the district. This tax for water service, in addition to the rates charged, brought in a total of \$1,113,125. If the district were to abandon this policy of taxing for water costs, it would have to increase all of its water rates an average of approximately 20 per cent. We should not forget that in San Francisco our Water Department has contributed to the General Fund for the past six years a total of \$6,105,110 for the reduction of taxes, which is an average of more than \$1,000,000 per year.

Let us compare the cost to the consumer of the same amount of water. If San Francisco taxpayers paid 25 cents in their tax rate for the support of the Water Department, this would amount to approximately \$2,000,000. To this amount there should be added the average of \$1,000,000 per year which is contributed to tax reduction by the San Francisco Water Department. If we followed the East Bay District policy this \$3,000,000 would reduce our water rates approximately 43 per cent and the consumer's bill quoted, that is \$1.74, would then be 99 cents, in comparison with the East Bay bill of \$1.42.

The publicity pamphlet transmitted by Supervisor Uhl does not mention that our industrial and commercial rates are lower than those in the East Bay. For example, a new industry or business coming to San Francisco, whose bill under our rates would amount to \$1,283.35, under East Bay rates would amount to \$1,707.31.

While the Supervisor is disparaging the results of the operation of the San Francisco Water Department, let him not overlook the fact that in addition to the \$1,000,000 per year cash which is contributed to the General Fund by the San Francisco Water Department, that department is furnishing free water to San Francisco which amounted to \$421,000 in the last fiscal year.

The East Bay District collects from each municipality served within its area full scheduled rates for all water served. It also collects for fire service. The revenue to the district is based on the amount and size of pipe installed for fire protection services. In San Francisco the Water Department bases its charges on the number of hydrants in service at the rate of \$3 per month per hydrant. This \$3 per month hydrant charge in San Francisco is not actually collected by the department, but is merely set up on the books of the department for accounting purposes, as the department furnishes water to other City departments free of charge. If the charge actually collected by the East Bay Municipal Utility District were reduced to a hydrant basis, as is used in San Francisco it would receive \$5 per month for each hydrant. Thus we find that the fire protection service of the San Francisco Water Department is rendered at a cost of \$3 per month per hydrant, which the department never receives, in contrast with \$5 per month per hydrant which is actually collected by the East Bay District. If the San Francisco Water Department collected this revenue on the basis of the charges actually collected by the East Bay Municipal Utility District, this would increase the value of free water furnished to San Francisco municipal departments from the \$421,000 above mentioned to about \$570,000 per year.

Supervisor A. Uhl asks that we check the number of water meters in San Francisco. As of June 30, 1937, there were 115,645 active services as compared with 125,546 for the East Bay District. The pamphlet transmitted refers to an increase of 3545 meters in the district in the last year. This compares with an increase of 2171 meters in the San Francisco system. This increase in water services installed is partially due to normal resumption of services discontinued during the depression, but we should not overlook that the East Bay has been spending vast sums of money to attract new population and that

the completion of the San Francisco Bay Bridge has already started to draw some people from San Francisco to the East Bay.

The question is raised as to why there is a 70c meter charge in San Francisco and a 50 cent charge in Oakland. In the first place, this is not a meter charge. It is a service charge. The basic schedule in San Francisco was designed to produce the required revenue by charging the various consumers on a schedule of rates which would equitably distribute the cost of rendering that service. It was found under our conditions of cost of supply and distribution that a service charge of approximately 70 cents, combined with the usage charge set up in our rate schedule, most equitably distributed these costs. If we were to reduce our service charge for small residences from 70 cents to 50 cents, we would reduce the Water Department's revenue by approximately \$200,000, which we would then be required to add to our usage charge, and this would increase the rate per unit of water consumed. It is evident that the East Bay District has considered it preferable to fix a lower service charge and make up the difference in revenue by increased charges for water usage and by taxing property owners.

Let us consider a typical case: A small residence assessed at \$4,000 in the East Bay District pays, in addition to its city and county and other taxes, a tax to the East Bay Municipal Utility District amounting this year to \$10, which is equal to 83 cents per month. This tax is paid regardless of the amount of water consumed. It is, therefore, the equivalent of a service charge of 83 cents per month, plus the 50 cents per month included in the water bill for a service charge, or a total of \$1.33 per month, whether or not any water is used. I contrast this with the 70 cents per month service charge paid by the average residential consumer in San Francisco, together with the fact that the Water Department contributes approximately \$1,000,000 per year for reduction of taxes here.

If we apply the \$1,000,000 annually paid to the General Fund for reduction in taxes in San Francisco on a comparable basis with the East Bay and consider it a part of the San Francisco service charge, the owner of the residence assessed at \$4,000 in San Francisco would receive a reduction of \$4.70 per year in his taxes, which is equivalent to 39 cents per month, hence the net charge for service in San Francisco is reduced from 70 cents per month to 31 cents per month, in contrast to the \$1.33 per month charged for service and in taxes in the East Bay area.

It is also interesting to note that during the fiscal year 1935-1936 the East Bay Municipal Utility District paid in taxes a total of \$22,473.24, while during the same fiscal year the San Francisco Water Department paid in taxes to San Mateo, Santa Clara and Alameda counties a total of \$201,278.31 in taxes.

I trust that the information herein will fully answer the question propounded by Supervisor A. Uhl.

Very truly yours,

E. G. CAHILL, Manager of Utilities.

## Communication from Acting Mayor Shannon.

November 25, 1937.

Honorable Board of Supervisors, City Hall, San Francisco, California.

Gentlemen: At the regular meeting of the Board of Supervisors on November 15, 1937, you refused to give approval to Resolution No. 3623 authorizing the City and County of San Francisco to enter into a contract with the Market Street Railway Company relative to the relocation of railway tracks on Nineteenth avenue between Wawona street and Sloat boulevard.

I am enclosing a letter received from the Chief Administrative Officer, as well as a copy of the opinion of the City Attorney upon this matter.

In view of the suggestions of the Chief Administrative Officer and the opinion of the City Attorney, by virtue of the authority vested in me by Section 14 of the Charter, I hereby request that the aforesaid resolution be reconsidered by your Board. My reasons for requesting said reconsideration being that the facts relative to this matter are set forth in the opinion of the City Attorney and that said facts may not have been fully before the Board at the time of the original consideration of the resolution.

Yours very truly,

(Signed) WARREN SHANNON,  
Acting Mayor.

CHIEF ADMINISTRATIVE OFFICER  
San Francisco  
California.

November 24, 1937.

Subject: Removal of Nineteenth Avenue Car Tracks.

Honorable Warren Shannon, Acting Mayor, City and County of San Francisco.

Dear Mr. Shannon: I am transmitting herewith an opinion from City Attorney John J. O'Toole on the subject of the relocation of tracks on Nineteenth avenue between Wawona street and Sloat boulevard.

In view of the facts recited in the opinion of the City Attorney, I request that, under the authority vested in the Mayor by Section 14 of the Charter of the City and County of San Francisco, you request the Board of Supervisors to reconsider action taken on Resolution No. 3623 at its meeting November 15, 1937, and to the end that, in view of subsequent developments, the Board of Supervisors may take such action as it may deem advisable.

Sincerely yours,

(Signed) ALFRED J. CLEARY,  
Chief Administrative Officer.

*Opinion of City Attorney in re Allowance to Market Street Railway Company for Removal of Railway Tracks on Nineteenth Avenue.*

November 24, 1937.

Dear Sirs: I have your request that I advise you as to the propriety of your making a recommendation for the approval of a contract between the Market Street Railway Company and the City and County of San Francisco relative to the removal of street railway tracks on Nineteenth avenue between Sloat boulevard and Wawona street.

I understand that Nineteenth avenue is being improved out of the one-quarter-cent gas tax fund and, therefore, the expenditures for the improvement of the street must receive the approval of the divisional engineer of the Department of Public Works of the State of California.

In other words, while the work is being done by the City, it is really under the jurisdiction of the State Highway Department.

See: *Southern Cal. Roads Co. v. McGuire et al.*, 2 Cal. (2d) 115.

It further appears that on Nineteenth avenue between Wawona street and Sloat boulevard the Market Street Railway Company is maintaining a double-track street railway constructed some years ago under a franchise granted to the Parkside Railway Company. This franchise has expired by limitation of time and pursuant to a provision in the franchise the rails, poles and trolley lines and all other physical property on the street has reverted to the City.

#### *Opinion.*

As a condition precedent to the approval of the work by the engineer for the State Department of Public Works, it was agreed between the City Engineer and the Highway Division of the Department of Public Works of the State of California that the double line of railway tracks on Nineteenth avenue between Wawona street and Sloat boulevard would be removed and a single track installed in their place, with the exception of a very short space where a double track was necessary to complete the connection with the street car line on Sloat boulevard. As a matter of fact, it was the wish of the State Highway Department that the tracks should be entirely eliminated from Nineteenth avenue and the installation of a single track was a compromise in order to permit the continuation of railway service over Nineteenth avenue and Twentieth avenue.

I also understand that several conferences were held between the representatives of the City, the State Highway Department and the Market Street Railway Company, and that it was finally agreed between all parties that the double tracks should be removed and the single track installed upon the following conditions, to-wit: That the total expense thereof would be approximately \$6,676; that the Market Street Railway Company would contribute to this expense the sum of \$2,159, and that with the approval of the State Highway Department, the City would contribute the remainder of said expense, to-wit, the sum of \$4,517, the last mentioned sum to be paid out of the so-called one-quarter-cent gas tax allotted for the improvement of state highways within the boundaries of San Francisco.

While the terms of this agreement were never definitely set forth, in so far as the obligations of the Market Street Railway Company are concerned, I have before me an agreement entered into under authorization of the Board of Supervisors on September 13, 1937, which provides for the program for the biennium commencing July 1, 1937, for the improvement of highways in San Francisco out of the one-quarter-cent gas tax. This agreement sets forth the various highways in San Francisco which are to be improved, among which is Nineteenth avenue.

In the contract this project is referred to as Project 5A and 5B. 5A provides that the City shall acquire an additional thirty-foot right of way along Nineteenth avenue, and 5B provides that the City shall grade and pave two 38-foot roadways on Nineteenth avenue from Sloat boulevard to Taraval street at a cost of \$4,600, which sum is to be paid from the one-quarter-cent gas tax fund.

While, as I have said, the Market Street Railway Company is not a party in any way to the agreement, from records submitted to me by the Engineering Department of San Francisco, it is evident that the representatives of the Market Street Railway Company were present at the conferences leading to the agreement between the City and the State relative to the improvement of Nineteenth avenue. For instance, I have before me a memorandum of a meeting in your office on April 26th of the present year at which were present with you, Mr. Cahill and Mr. Ost of the Public Utilities Department, Mr. Newton of the Market Street Railway Company, Colonel Skeggs, District Engineer for the State Highway Department, Messrs. Hester, Casey and

Ohmen of the Department of Engineering of the City. At that time Mr. Newton stated that as long as the Market Street Railway Company had no franchise and could be stopped from operating its tracks over Nineteenth avenue and Twentieth avenue at any time, that it would not be willing to expend any amount in the relocation of the tracks. Thereupon, Colonel Skeggs, representing the State Highway Department, said that the State would contribute out of the one-quarter-cent gas tax for the purpose of relocating the tracks on a single-track basis on the avenue between Wawona street and Sloat boulevard an amount sufficient to defray the cost of labor, ballast and paving if the Railway Company would furnish all track materials, ties, poles and rails and superintend their installation. Mr. Newton thereupon stated that he would take the offer to his superiors and in due time advise the City Engineer, as well as the State Highway Department, as to whether or not the suggestion would be accepted. Finally, after considerable negotiations, and prior to the 13th day of September, 1937, the Railway Company accepted the suggestion of Colonel Skeggs and it was tacitly agreed that the cost of removing the tracks and installing the single track would be carried out on the financial basis above set forth, that is, that the Railway Company would pay \$2,159 and the remaining \$4,517 would be made a charge against the one-quarter-cent gas tax.

Thereafter, and on the 13th day of September, 1937, under resolution of the Board of Supervisors, a memorandum of agreement was entered into between the Chief Administrative Officer of San Francisco, the Director of Public Works and the State of California Department of Public Works covering the work to be done in San Francisco for the present biennium out of the one-quarter-cent gas tax.

Subsequently a tentative agreement was prepared between the City and the Market Street Railway Company which practically carried out the conditions regarding the removal of the tracks which had been theretofore agreed upon between the City, the State and the Market Street Railway Company. This agreement was submitted to me for approval. I found that the agreement did not cover certain conditions which I thought should be re-written therein and after conferring with the attorneys for the Railway Company these conditions were agreed to and I re-drafted the agreement and approved it as to form. The main change which I made in the agreement was that by reason of the City contributing or permitting the removal and installation of the railway tracks, the Company would not gain any right to operate its railway tracks over Nineteenth avenue or Twentieth avenue which it did not have at the date of the execution of the agreement. In other words, the expiration of the franchise would not be waived. In this form I approved the agreement and returned it to the Director of Property. I understand that subsequently the agreement was signed by all interested parties under the misapprehension that the proper resolution of the Board of Supervisors had been passed authorizing its execution.

From the foregoing the following conclusions appear to me:

That it was agreed between the State Highway Department of the State of California, the Director of Public Works of San Francisco, and the representatives of the Market Street Railway Company, that the railway tracks on Nineteenth avenue between Wawona street and Sloat boulevard should be re-located; that the Company should pay an agreed amount to defray a portion of the expense of removal and that the remainder of said expense should be met out of the one-quarter-cent gas tax as a cost incident to the improvement of Nineteenth avenue; that thereafter a memorandum of agreement was, under authority of the Board of Supervisors, entered into between the State Department of Public Works of the State of California and the City, which provided for the improvement of Nineteenth avenue and definitely set aside the sum of \$4,600 to cover the cost of the city's work on Nineteenth avenue between Sloat boulevard and Taraval street, which included the relocation of the tracks of the Market

Street Railway Company. This agreement was ratified by the Board of Supervisors, and although the Market Street Railway Company was not a party to it, it was understood between all of the parties, including the Market Street Railway Company, that the tracks should be relocated on the basis hereinbefore set forth; that the Director of Works, the City Engineer and the Director of Property, acting upon this agreement, proceeded to enter into the necessary agreement with the Market Street Railway Company to carry out the terms heretofore agreed upon; that while this agreement was signed, no authority of the Board of Supervisors was ever given for its execution.

You are, therefore, advised that in view of the fact that the tracks in question are owned by the City and are at the present time being used for the accommodation of the public generally, and that the State Department of Public Works has approved the improvement of Nineteenth avenue, the plans for which improvement included the payment of the necessary amount to defray the City's contribution to the cost of the removal and relocation of said railway tracks, the Board of Supervisors has full power to authorize an agreement between the City and the Market Street Railway Company which will carry out the conditions tentatively agreed upon between the City and the Company, which includes the payment of \$4,517 to defray the City's portion of the cost of relocating the tracks. It is needless to say that this is a matter, like the approval of any other contract, which lies within the sound discretion of the Board of Supervisors, and if that body deems any other course, as to the handling of these tracks, more beneficial, it may refuse to approve the agreement.

If you should desire to ask further consideration of this matter at the hands of the Board, my suggestion is that you request the Acting Mayor that he request, pursuant to the provisions of section 14 of the Charter, reconsideration of Resolution No. 3623, which was refused passage on November 15th.

Respectfully submitted,

JOHN J. O'TOOLE,  
City Attorney.

**Expression of Thanks to Bernstein Family for Thanksgiving Dinner for the Poor, Each Year.**

(Code No. 5.92)

Supervisor Schmidt presented:

Resolution No. 3669, as follows:

Whereas, the spreading of cheer to the unfortunates of a city on such an occasion as Thanksgiving has become impersonal through the exigencies of community organization; and

Whereas, the true significance of such a holiday is only imparted through a spirit of genuine hospitality and friendliness; and

Whereas, for twenty years a unique observance has been conducted in this City by one of its notable business enterprises, namely, the policy established by the late Maurice Bernstein who in 1907 first closed the doors of his restaurant to the general public that he might at his own expense serve a Thanksgiving Dinner to many of our citizens who otherwise would be unable to partake of the holiday's spirit; and

Whereas, since the death of said Maurice Bernstein this sympathetic gesture has been continued uninterruptedly by his widow, Jessie Bernstein, and his son, Joseph Bernstein, so that year in and year out some 3500 men, women and children, have been afforded an opportunity to fully participate in the significance of this occasion without regard to race, color or creed; and

Whereas, the conduct of this Thanksgiving Dinner on Thursday, November 25, 1937, marked the 20th anniversary of this event at Bernstein's Fish Grotto, in the City and County of San Francisco; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, on behalf of the citizens do hereby express their appreciation to the Bernstein family; and be it

Further Resolved, That a copy of this resolution be forwarded to Mrs. Jessie Bernstein.

**Free Tolls for American Intercoastal Vessels Through Panama Canal.**

(Code No. 5.2)

Supervisor Reilly presented:

Resolution No. 3671, as follows:

Whereas, two large American steamship companies whose steamships, flying the American flag, are engaged regularly in transporting freight and passengers to and from the port of San Francisco and other Pacific coast ports and other American ports on the Atlantic coast, have made application to the federal government for permission to withdraw such steamships from said intercoastal trade; and

Whereas, the withdrawal of such "luxury liners" will be a serious blow to the port of San Francisco, resulting in loss of business and prestige to California in general and to San Francisco in particular; and

Whereas, said steamship companies and the federal governmental agencies controlling the operations of the same have announced that said steamships have been operated at a loss due, in great part, to the payment by said steamships of many thousands of dollars, to the United States Government, each time any of said steamships passes through the Panama Canal; and

Whereas, the Panama Canal was constructed solely by the government of the United States, with the money of American taxpayers, primarily for the use and benefit of the American people; and

Whereas, the imposition of heavy tolls on American vessels engaged in intercoastal trade, by the United States government, is inconsistent with the policy of the American people in developing an American merchant marine; now, therefore, be it

Resolved, by the Board of Supervisors of the City and County of San Francisco, That we respectfully petition the government of the United States, including the President and the Congress, to forthwith cause appropriate legislation to be enacted at the coming session of the Congress to relieve all American vessels engaged entirely in intercoastal trade from the imposition of any tolls while passing through the American-owned Panama Canal; be it

Further Resolved, That copies hereof be forwarded by the Clerk of the Board of Supervisors to His Excellency, the President of the United States, to the Senate and the House of Representatives of the United States, and to all members of Congress from California.

### Condition of Market Street Railway Tracks.

The following was read by the Clerk and ordered *filed*.

November 26, 1937.

Mr. W. H. Worden, Director, Department of Public Works, City and County of San Francisco.

Dear Sir: Pursuant to instructions received on November 15, 1937, I have endeavored to appraise the work performed by the Market Street Railway Company on its tracks during the interim between the time our survey report was submitted on September 1, 1936, and the present date. On account of the lack of time and funds, we found it impossible to conduct as close an inspection as might be desirable. The Market Street Railway Company was requested to furnish a list of its operations on its trackage, but this was not forthcoming, and hence it became necessary to conduct an independent examination.

It was found that where trackage has been improved by the Market Street Railway Company, only sufficient work, such as **shimming and** partial restoration, was performed to eliminate most of the wear and tear on its rolling stock. The crossings needed rebalasting or shimming, and low spots were in evidence along the rails. The pavement adjacent to the rails was repaired in the worst spots, but little attention was given to the problem as a whole.

It is our opinion that whatever benefit might be derived from such patching is offset by the further deterioration of pavement along the line of tracks. Only where material improvement has been evidenced has credit been given.

The repair of track areas on Howard street between The Embarcadero and Thirteenth street, and on Van Ness avenue South between Thirteenth and Twenty-sixth streets, also on what is known as the Parkside Franchise, was included in the estimate previously submitted, as the company was operating over said lines, but as said franchises have expired and have not been renewed, credit for these repairs is also listed.

Estimate of cost of restoration, September 1, 1936.....	\$1,118,171
Twentieth avenue, Lincoln way to Wawona street:	
Wawona street, Nineteenth to Twentieth avenues; Nineteenth avenue, Wawona street to Sloat boulevard .....	\$ 161,362

Estimate of repairs that should be made by the Market Street Railway Company in the restoration of trackage and pavements within its right of way .....	923,634

\$1,118,171

It is our opinion that the amount necessary for repairs in order to restore the Market Street Railway Company's tracks to a satisfactory condition is \$923,634.

Respectfully submitted,

JOHN J. CASEY,  
City Engineer.

As a Trustee of the War Memorial, he made the project an outstanding civic success.

An enduring monument to his memory will be the gratitude of all with whom he came in contact.

The Board of Supervisors expresses to his widow its deepest sympathies and adjourns out of respect to the memory of the late Kenneth R. Kingsbury.

(Code No. 5.95)

Bill No. 1483, Ordinance No. 5.951, as follows:

An ordinance to be known as the "Golden Gate International Exposition Building Ordinance" governing the erection, use, repair, demolition and control of buildings and structures, and the installation, use, repair and control of plumbing, sewerage, water, gas, steam, and other pipes, and the installation, use, repair and control of electric light, power and other wires, conduits and other apparatus, and the erection and maintenance of steam boilers, steam, gas and other engines and other apparatus and governing other matters of building construction or repair, necessary, proper or expedient for the safety, health, convenience and welfare of the public within that portion of the City and County of San Francisco located on Yerba Buena shoals now in course of reclamation selected as the site of the Golden Gate International Exposition and now held under a lease heretofore granted to the San Francisco Bay Exposition, a non-profit corporation by the City and County of San Francisco.

Be it ordained by the people of the City and County of San Francisco:

Section 1. This ordinance shall be known as the "Golden Gate International Exposition Building Ordinance" of the City and County of San Francisco.

Section 2. This ordinance shall apply to and govern the erection, use, alteration, repair, demolition and control of buildings and structures of every nature and description; the installation, use, repair and control of plumbing, water, gas, steam, sewerage and other pipes and other instrumentalities; the installation, use, repair and control of electric light, power and other wires, conduits and apparatus; the

erection and maintenance of steam boilers, steam, gas and other engines and other apparatus; and governing any and every other matter of building construction or repair necessary, proper or expedient for the safety, health, convenience and welfare of the public, within that portion of the City and County of San Francisco located on Yerba Buena shoals now in course of reclamation, selected as the site of the Golden Gate International Exposition, hereinafter referred to as the "Exposition", and now held under lease by the San Francisco Bay Exposition, a non-profit corporation, hereinafter referred to as the "Exposition Company," which is sponsoring said Exposition, the said lease having been made by the City and County of San Francisco as lessor and said Exposition Company as lessee under date of August 22, 1936, pursuant to Ordinance No. 12.173544, Bill No. 1064, of the City and County of San Francisco, approved August 4, 1936.

Section 3. The Board of Supervisors of the City and County of San Francisco hereby declares that this ordinance is necessary in the public interest. It hereby finds that the site of said Exposition in, on and to which this ordinance will apply is a portion of the City and County of San Francisco separated from the mainland thereof and entirely surrounded by the waters of the Bay of San Francisco except as it is connected with Yerba Buena Island by a Causeway approximately three hundred (300) yards in length; that said site is now being improved by the City and County of San Francisco out of funds supplied by the Federal Government and said Exposition Company with certain buildings, structures and other improvements of a permanent character now in course of construction intended for municipal use in the operation of a public municipal airport on said site after the close of said Exposition; that said site is now being improved and will be further improved by or for said Exposition Company with certain buildings, structures and other improvements of a temporary character for the use of said Exposition in the conduct of said Exposition, which by the terms of said lease are to be demolished and removed by the Exposition Company following the close of said Exposition and on or before the 31st day of December, 1940; that by reason of the location and surrounding of said site and by reason of the temporary character of the buildings, structures and improvements to be placed thereon and subsequently removed by the Exposition Company, this site and the temporary use and improvement thereof for Exposition purposes present problems which differ in character from those concerned with the mainland and which can be adequately provided for in the interest of public safety, health, convenience and welfare by standards of construction, maintenance and operation different from those prevailing on the mainland and more suitable to the intended temporary use of said site for Exposition purposes; and that the Exposition Company has issued and published certain "Rules and Regulations for Grounds and Buildings," approved by it on May 11, 1937, duly certified copies of which have been transmitted to and filed with the Mayor of the City and County of San Francisco and the Clerk of the Board of Supervisors of said City and County, which "Rules and Regulations for Grounds and Buildings" prescribe certain and definite standards for works of construction on said site, and for the maintenance and operation thereof, which, if duly observed, will provide for safe and sanitary buildings and structures and for proper protection against fire hazard and will adequately provide for the public safety, health, convenience and welfare.

Section 4. (a) The Exposition Company may erect, use, alter, demolish and control buildings and structures of every nature and description, including therein all provisions for plumbing, water, gas, steam, sewerage and other pipes and instrumentalities, and electric light, power and other wires and conduits in or used in connection with any building or structures erected, used, altered or controlled under the provisions hereof, on the condition that electrical distribution system, wiring, installation, apparatus and electrical equipment

shall be subject to the inspection and approval of the Chief of the Department of Electricity of the City and County of San Francisco, and on condition that the plans and specifications for the erection of any such building or structure which said plans and specifications shall show the provisions made for the installation of plumbing, pipes and appliances and the scheme of electric wiring shall first be submitted to and approved in writing by the Bureau of Fire Prevention and Public Safety before works of construction thereunder shall be commenced and provided that any plans and specifications for alterations and repairs to any such building or structure estimated to exceed one thousand dollars (\$1,000) in cost shall likewise be so submitted and approved before such alterations or repairs are commenced.

(b) During or after the erection of any building or structure under the provisions hereof, the same or any portion thereof, may be altered, used or demolished by said Exposition Company, and it may erect, use, maintain and remove booths of every description, railings, cases and shelving for exhibitors, and may install in any such building, structure or improvement any plumbing, water, gas, steam, sewerage and other pipes and instrumentalities, electric light, power and other wires and conduits, steam boilers, steam, gas and other engines and apparatus subject to inspection and approval as hereinbefore provided in subparagraph (a) of this section.

(c) The Exposition Company may install, use and control any and all plumbing, water, gas, steam, sewerage and other pipes and instrumentalities which it shall determine to be necessary, proper or expedient for the safety, convenience and welfare of the public within the site of said Exposition.

(g) The Exposition Company may establish, maintain and use such emergency hospitals and make such provision for the sanitation of that portion of the City and County of San Francisco within the said site as it shall determine to be necessary, proper or expedient for the safety, convenience and welfare of the public within the said site, provided that in matters affecting the public health the Exposition Company shall cooperate with and be subject to the inspection and approval of the health officer of the City and County of San Francisco.

(h) The Exposition Company may erect, maintain and operate such places of amusement, including theatres and moving picture shows as it shall determine to be necessary, proper or expedient for the safety, convenience and welfare of the public within the said site.

(i) The Exposition Company may maintain and operate concessions for restaurants, sales of curios, pictures and any and all classes and kinds of goods, wares and merchandise.

Section 5. All work hereinabove in Section 4 of this ordinance provided for may be done by, and all privileges therein given to the Exposition Company shall inure to the benefit of, the employees, contractors and licensees of the Exposition Company, provided that no general powers or privileges therein given to the Exposition Company shall be delegated by it, and that it shall not by its own act be relieved

of any of its obligations hereunder, and provided, further, that all of the work to be done and all of the privileges to be exercised hereunder shall be in accordance with said "Rules and Regulations for Grounds and Buildings."

And the City and County of San Francisco, in recognizing the existence of the Exposition Company and any rights or authority granted hereunder to it does not assume any responsibility or obligation for any claim or demand of any person for injuries or damages of any nature or description growing out of any of the work or things for which provision is herein made.

Section 7. Section 8. All ordinances and regulations or parts thereof in conflict with the provisions of this ordinance shall, so long as the provisions of this ordinance are in full force and effect, be of no force and effect in that portion of the City and County of San Francisco located on Yerba Buena Shoals, now in course of reclamation, selected as the site of said Exposition, and now let and demised to said Exposition Company under and by authority of the lease thereof, hereinabove described, or with regard to any works of construction or repair or any installations on said site or the maintenance, operation or control thereof, but with regard to all such matters the provisions of this ordinance shall alone be in force and effect during the effective period of this ordinance.

## **ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

**Mayor Requested to Appoint Citizens' Committee for Beautification  
of City Streets and Buildings Prior to 1939 Exposition.**

(Code No. 13.04)

Supervisor Schmidt presented:

Resolution No. 3683, as follows:

Whereas, there is to be held in the City and County of San Francisco the Golden Gate International Exposition in 1939, which will be attended by millions of visitors; and

Whereas, it is desirable that the city make the best possible impres-

sion on its visitors, to the end that many will choose either to lengthen their stay or settle permanently in our midst; and

Whereas, San Francisco property owners and businessmen as well as the city government should do everything possible to increase the beauty and attractiveness of San Francisco by cleaning, painting and remodeling their properties; and

Whereas, improved properties, clean streets and the creation of beauty spots will not only increase the pride of San Franciscans in their city, but will also act as added tourist attractions; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco respectfully request his Honor the Mayor to appoint a citizens' committee composed of men and women best qualified to direct and conduct a city-wide educational cleanup and improvement campaign which will arouse the interest of all of our citizens in the desirability and advantage of enhancing our city's renowned natural beauties.

**Memorializing Congress to Provide for the Continuance of Federal Aid Highway Funds by Providing That the Highway Act of June 16, 1936, Remain Unchanged.**

(Code No. 5.2)

Supervisor Ratto presented:

Resolution No. 3682, as follows:

Whereas, the State of California has been apportioned annually by the U. S. Government under the terms of the Hayden-Cartwright Act for Federal Aid Highways a sum which is less than one-half of that which is now actually collected by the Federal Government from the motorists of this State; and

Whereas, a recommendation has now been made to Congress to take immediate steps to cancel the 1939 authorization for Federal Aid Highways prior to January 1, 1938, which allocation for expenditures would aggregate \$238,000,000 for each of the fiscal years 1938 and 1939, and it has been further proposed to reduce the aforementioned appropriations to approximately \$100,000,000 for each of the next two years, which action would deprive California and other states that have promptly utilized their Federal Aid Funds, from obtaining any Federal aid for the ensuing two years; and

Whereas, the State of California will actually stand to lose \$20,000,000 in the next biennium, together with the possible cancellation of approximately \$10,000,000 in highway projects already authorized, which will cause an irreparable loss to labor who would ordinarily receive from these highway projects the highest prevailing rate of wages, while agriculture, in the shipment of farm products over farm-to-market roads, must again be hindered by lacking or costly transportation facilities, and the whole construction industry and its affiliated material groups, as well as the motorists who pays the bill, will all suffer immeasurably; and

Whereas, the recommended reduction of Federal Aid Funds would completely destroy any possibilities for advance planning of the Federal highway program and instead of stimulating employment which has again been lessened through the present industrial recession, and if curtailment of highway construction is now attempted a most detrimental and depressing situation will undoubtedly follow to affect labor and industry alike; and

Whereas, the terms of the Hayden-Cartwright Act have previously provided a most beneficial protection against gas tax diversion throughout the several states by reason of its mandatory provisions of reduc-

ing by one-third the Federal highway allotments of states participating in the diversion of gas tax funds and any reduction or discontinuance of the present Federal Aid highway appropriations would react most unfavorably against all future highway construction if the present proposal to advocate diversion by governmental sanction is now tolerated; therefore, be it

Resolved, That all members of Congress and the United States Senate from the State of California and all other Western States be and they hereby are requested to exert every effort to insure the continuance of the Federal Aid highway program by permitting the Highway Act of June 16, 1936, to remain absolutely unchanged.

### **Sales Tax for the Benefit of Aged.**

(Code No. 5.3)

Supervisor Shannon presented:

Resolution No. 3684, as follows:

Whereas, inasmuch as our aged citizens receiving State aid should not be forced into the position of paupers by being paid in the form of "aid" or "relief", but in consideration of their lives of labor and service as citizens of the State, should be entitled to be considered as worthy pensioners of the State; and

Whereas, as a result of the liberalization of State aid to the aged of the State of California, the burden of taxation on the general property taxpayer of the counties of the State of California has been greatly increased; and

Whereas, some counties are now unable to raise their portion of the tax with the result that the aged living in those counties are not receiving aid which they need and in other counties the aged are seriously worried because of their feeling of uncertainty and insecurity as to how long their county will be able to stand its portion of the tax under the present method of taxation which imposes an unfair burden on property owners; and

Whereas, the benefits of old age aid are enjoyed by all classes and therefore taxes should be borne by a broad tax such as the sales tax; and

Whereas, the sales taxes of the several counties of California have increased from \$40,000,000 a year to \$60,000,000 for the second year, \$73,000,000 for the third year, estimated \$95,000,000 for the fourth year and for the last two months will total \$12,000,000 a month or approximately \$145,000,000 for the twelve-month period which is greatly in excess of the amount necessary for the purpose intended; and

Whereas, this amount will be greatly in excess of that necessary for the purposes to which this tax was originally intended to be applied and it is highly desirable that this load of taxation be not placed on the shoulders of the already heavily overburdened general property taxpayer; and

Whereas, attempts are being made to divert this tax or abolish it entirely; and

Whereas, no better way of handling this excess can be considered than to apply it to the benefit of those who pay it; and

Whereas, this would reduce the tax burden of the general property taxpayer and at the same time assure the permanent payment of aid to the aged; now, therefore, be it

Resolved, That His Excellency, the Governor of the State of California, be requested to use his good offices and best endeavors to have this excess applied to Old Age Relief, thereby removing the burden of taxation now borne by the general property taxpayer of the State of California.

**Memorializing Congress to Provide for the Continuance of Federal Aid Highway Funds by Providing That the Highway Act of June 16, 1936, Remain Unchanged.**

(Code No. 5.2)

Also, Resolution No. 3682, as follows:

Whereas, the State of California has been apportioned annually by the U. S. Government under the terms of the Hayden-Cartwright Act for Federal Aid Highways a sum which is less than one-half of that which is now actually collected by the Federal Government from the motorists of this State; and

Whereas, a recommendation has now been made to Congress to take immediate steps to cancel the 1939 authorization for Federal Aid Highways prior to January 1, 1938, which allocation for expenditures would aggregate \$238,000,000 for each of the fiscal years 1938 and 1939, and it has been further proposed to reduce the aforementioned appropriations to approximately \$100,000,000 for each of the next two years, which action would deprive California, and other states that have promptly utilized their Federal Aid Funds, from obtaining any Federal aid for the ensuing years; and

Whereas, the State of California will actually stand to lose \$20,000,000 in the next biennium, together with the possible cancellation of approximately \$10,000,000 in highway projects already authorized, which will cause an irreparable loss to labor who would ordinarily receive from these highway projects the highest prevailing rate of wages, while agriculture, in the shipment of farm products over farm-to-market roads, must again be hindered by lacking or costly transportation facilities, and the whole construction industry and its affiliated material groups, as well as the motorist who pays the bill, will all suffer immeasurably; and

Whereas, the recommended reduction of Federal Aid Funds would completely destroy any possibilities for advance planning of the Federal Highway Program and instead of stimulating employment which has again been lessened through the present industrial recession, and if curtailment of highway construction is now attempted a most detrimental and depressing situation will undoubtedly follow to affect labor and industry alike; and

Whereas, the terms of the Hayden-Cartwright Act have previously provided a most beneficial protection against gas tax diversion throughout the several states by reason of its mandatory provisions of reducing by one-third the Federal highway allotments of states participating in the diversion of gas tax funds and any reduction or discontinuance of the present Federal Aid highway appropriations would react most unfavorably against all future highway construction if the present proposal to advocate diversion by governmental sanction is now tolerated; now, therefore, be it

Resolved, That all members of Congress and the United States Senate from the State of California and all other western states be, and they hereby are, requested to exert every effort to insure the continuance of the Federal Aid Highway Program by permitting the Highway Act of June 16, 1936, to remain absolutely unchanged.

**Sales Tax for the Benefit of Aged.**

(Code No. 5.3)

Also, Resolution No. 3684, as follows:

Whereas, inasmuch as our aged citizens receiving State aid should not be forced into the position of paupers by being paid in the form of "aid" or "relief," but in consideration of their lives of labor and

service as citizens of the State, should be entitled to be considered as worthy pensioners of the State; and

Whereas, as a result of the liberalization of State aid to the aged of the State of California, the burden of taxation on the general property taxpayer of the counties of the State of California has been greatly increased; and

Whereas, some counties are now unable to raise their portion of the tax with the result that the aged living in those counties are not receiving aid which they need and in other counties the aged are seriously worried because of their feeling of uncertainty and insecurity as to how long their county will be able to stand its portion of the tax under the present method of taxation which imposes an unfair burden on property owners; and

Whereas, the benefits of old age aid are enjoyed by all classes and therefore taxes should be borne by a broad tax such as the sales tax; and

Whereas, the sales taxes of the several counties of California have increased from \$40,000,000 a year to \$60,000,000 for the second year, \$73,000,000 for the third year, estimated \$95,000,000 for the fourth year and for the last two months will total \$12,000,000 a month of approximately \$145,000,000 for the twelve-month period which is greatly in excess of the amount necessary for the purpose intended; and

Whereas, this amount will be greatly in excess of that necessary for the purpose to which this tax was originally intended to be applied and it is highly desirable that this load of taxation be not placed on the shoulders of the already heavily overburdened general property taxpayer; and

Whereas, attempts are being made to divert this tax or abolish it entirely; and

Whereas, no better way of handling this excess can be considered than to apply it to the benefit of those who pay it; and

Whereas, this would reduce the tax burden of the general property taxpayer and at the same time assure the permanent payment of aid to the aged; now, therefore, be it

Resolved, That His Excellency, the Governor of the State of California, be requested to use his good offices and best endeavors to have this excess applied to Old Age Relief, thereby removing the burden of taxation now borne by the general property taxpayer of the State of California; and be it

Further Resolved, That a copy of this resolution be sent to each Board of Supervisors of the several counties of the State.

I hereby certify that the foregoing resolution was adopted by the Public Utilities Commission at its meeting of November 29, 1937.

FORREST B. GIBBON,

Secretary.

**Minority Report of Supervisor McSheehy.**

San Francisco, California,  
December 20, 1937.

The following minority report re water rates by Supervisor James B. McSheehy was read to the Board:

Gentlemen: Assistant City Attorney Dion Holm, who is assigned to the handling of legal matters for the Water Department of the

Public Utilities Commission, stated at a meeting of the Public Utilities Committee held on Tuesday, December 14, 1937, that Section 130 of the charter *would not permit* the Board of Supervisors to amend water rates recommended by the Public Utilities Commission; but that by a two-thirds vote of the full membership of the Board, of Supervisors we could reject such schedule of water rates and send it back to the Public Utilities Commission, stating our reasons for its rejection.

As a member of the Public Utilities Committee, I ask that we return to the Public Utilities Commission its Resolution No. 2331, "Schedule of Water Rates," dated November 29, 1937, for the following reasons:

1. We are now paying more for water than any other large city in the United States of comparable size.

2. Seventy million gallons of water daily are permitted to flow into the ocean.

3. When the purchase of the Spring Valley Water Company was consummated we gave a solemn promise to the people to reduce water rates.

4. For sixty years previous to the year 1921 the flat rate was the base rate charged the consumer here in San Francisco, and this was figured on the number of square feet in the house and also the number of toilets, baths, basins, etc. A shortage of water existed in San Francisco in 1921, and in that year the State Railroad Commission allowed the Spring Valley Water Company to raise the rates 20 per cent, and to install meters throughout the city.

5. Senator Phelan and Governor Rolph, who were largely instrumental in the development of Hetch Hetchy and Spring Valley, were both enthusiastically in favor of low water rates for the beautification of the city by the planting of trees, shrubs and flowers, for the reason that San Francisco has less trees on its streets than any city of comparable size in the United States.

6. Arrangements are soon to be made to sell water to San Jose for 6½ cents per 100 cubic feet, and it will cost the City of San Jose to distribute this water to *all* consumers about 6½ cents additional, making a total of 13 cents per 100 cubic feet, delivered. *While 80 per cent of the consumers here in San Francisco are paying 30 cents per 100 cubic feet, which is over twice the charge to the ultimate consumer in San Jose.*

7. Eighteen telegrams were sent to 18 of the largest cities in the United States and the answers to these telegrams show that the average cost of water per 100 cubic feet for these cities is 10 cents, and that the average daily consumption of water per person in these cities is 140 gallons; while the average daily consumption of water per person in San Francisco is 80 gallons.

8. Hetch Hetchy water was brought into San Francisco on October 28, 1934, and today the Spring Valley Lakes and the Calaveras Reservoir contain more water than at any other time in their history.

9. We use about 52,000,000 gallons of water daily, and we have in storage in our lakes today a three years' supply. Hetch Hetchy reservoir contains a five years' supply, which gives us sufficient for eight years. On top of this enormous supply, we are allowing 70,000,000 gallons of water daily to waste itself by flowing into the Pacific Ocean.

10. We can increase our receipts by making attractive rates to a great many consumers of water here in San Francisco who are now pumping water from wells, to the amount of 9,000,000 gallons daily.

11. Our sister cities to the south (San Mateo, Palo Alto, San Jose), have made no investment in either Spring Valley or Hetch Hetchy. Why, therefore, enter into twenty-year contracts to furnish them with water at less than half the cost to residents of San Francisco who are bonded to the extent of over \$130,000,000.

12. The San Francisco Examiner of December 15, 1937, carried the story that a contract is about to be entered into for the sale of Hetch

Hetchy water to Atherton, Menlo Park, Stanford University, and Moffett Field, for a period of twenty years.

13. The only reason given by the Public Utilities Commission for not reducing the water rates in San Francisco is that the water department will be confronted with a loss of revenue which, they claim, will have to be reflected in the tax rate. Nothing could be further from the truth. An analysis will show that the large taxpayer is the sole recipient of the benefits accruing from the profits of the water department reflected in the tax rates. The Russ Building, for example, pays annually for water \$3,186; a saving of 20 per cent therefore would amount to \$637.20. Whereas the small home owner, of which there are some 77,000, pays annually \$36 a year for water; a saving of 20 per cent therefore would amount to \$7.20.

The Russ Building pays annually for taxes \$122,212; the small home owner pays annually \$120 for taxes. Thus it can be seen at a glance that the large property holder receives far more savings in the reduction of his taxes than the small home owner. *It might be said at this point that this plain statement of facts is the crux of my whole argument.*

14. The following profits have been reflected in the tax rate for the past six years, showing an increase in consumption in water here in San Francisco:

Year	Amount	Average
1930-31 .....		
1931-32 .....\$	273,000	
1932-33 .....	808,000	
1933-34 .....	901,410	
1934-35 .....	1,459,239	
1935-36 .....	1,255,477	
1936-37 .....	1,407,984	\$1,017,519

15. The history of large cities throughout the United States shows that whenever a cut is made in water rates the increased use of water more than offsets any loss anticipated by such reduction.

#### *Conclusion.*

Is San Francisco going to grow? Is she going to induce people to live here or is she going to drive them away from San Francisco? She will do so if she is going to continue to charge more for water than any other city in the United States and carry out a policy of creating profits for the purpose of reducing tax rates rather than reducing water rates to the home owners and giving them a chance to use the surplus water now going to waste.

As I have stated there are less trees in San Francisco than any other city of comparable size in the United States, and you will find that there are less gardens where shrubs and flowers grow in this city than in any other city in the United States. This is entirely due to the high cost of water. We have had several water famines here in San Francisco which necessitated the bonding of our city to the extent of \$130,000,000 to bring Hetch Hetchy water into San Francisco, so as to assure us of an adequate water supply.

If we pass the schedule of water rates recommended by the Public Utilities Commission we simply tell the people of San Mateo and Santa Clara Counties that they have the first call on our Hetch Hetchy water supply; and we tell the people of San Francisco that we are setting up a schedule of water rates that is twice what the people have to pay in San Mateo and Santa Clara Counties, for the purpose of creating a huge profit in the water department that will reflect itself in a reduction of taxes to the *large* holders of real estate and improvements thereon in the downtown section who, themselves, use very little water as they have their own wells. Or in other words, gentlemen of the Board, if we pass this schedule of water rates it simply means a reduction in the tax bill of the large property owner and the continuing of over 100,000 water rate payers paying the highest rate for

water here in San Francisco of any city in the United States and giving the entire benefit of the Hetch Hetchy Water Supply to the residents of San Mateo and Santa Clara Counties.

The charter is very clear in reference to water rates. The Public Utilities Commission has the sole supervision of the water department, and the rates as called for in this schedule will remain in force until such time as the Public Utilities Commission desires to change them. This might be one year, five years, or ten years hence. The only power that this Board has, is to reject this schedule of water rates, which I am by this means requesting that you do, and request the Public Utilities Commission to eliminate all monthly meter charges except the 8-inch monthly charge of \$43.20, and flat rate bill for each rate payer, including the meter charge compiled on the average that the rate payer has paid for the last 12 months, less 20 per cent of said average. I am not asking that you concur with this statement in toto, but I do ask that you reject the rates as proposed, and issue a statement to the Public Utilities Commission as to your reasons therefor.

Enclosed you will find a map showing the Spring Valley System, and you will notice that the Hetch Hetchy Aqueduct runs into the Spring Valley System, and the water that does not run into the Spring Valley Water System from the Hetch Hetchy Reservoir, except the amount used by the Modesto and Turlock Irrigation Districts, as called for in the Raker Act, runs into the Tuolumne River, and then into the San Joaquin River, and finally into the Pacific Ocean.

By eliminating the meters this water can be used by the people of San Francisco and we will also have millions of gallons to sell to the people of San Mateo and Santa Clara Counties.

Think it over and do not vote for Resolution No. 2331, "Schedule of Water Rates." Send it back to the Public Utilities Commission.

Remember that if we agree to these rates they will remain in effect indefinitely, and that millions of gallons of water will run into the Pacific Ocean that could be used by the people of San Francisco.

Respectfully submitted,

JAMES B. McSHEEHY,

Supervisor.

## Explanation of Votes.

Gentlemen: The following are my reasons for voting no on Resolution No. 2331, Schedule Water Rates, dated November 29, 1937.

Assistant City Attorney Dion Holm, who is assigned to the handling of legal matters for the Water Department of the Public Utilities Commission, stated at a meeting of the Public Utilities Committee held on Tuesday, December 14, 1937, that Section 130 of the charter *would not permit* the Board of Supervisors to amend water rates recommended by the Public Utilities Commission; but that by a two-thirds vote of the full membership of the Board of Supervisors we could reject such schedule of water rates and send it back to the Public Utilities Commission, stating our reasons for its rejection.

As a member of the Public Utilities Committee, I ask that we return to the Public Utilities Commission its Resolution No. 2331, "Schedule of Water Rates," dated November 29, 1937, for the following reasons:

1. We are now paying more for water than any other large city in the United States of comparable size.

2. 70,000,000 gallons of water daily are permitted to flow into the ocean.

3. When the purchase of the Spring Valley Water Company was consummated we gave a solemn promise to the people to reduce water rates.

4. For sixty years previous to the year 1921 the flat rate was the base rate charged the consumer here in San Francisco, and this was figured on the number of square feet in the house and also the number of toilets, baths, basins, etc. A shortage of water existed in San Francisco in 1921, and in that year the State Railroad Commission allowed the Spring Valley Water Company to raise the rates 20 per cent, and to install meters throughout the City.

5. Senator Phelan and Governor Rolph, who were largely instrumental in the development of Hetch Hetchy and Spring Valley, were both enthusiastically in favor of low water rates for the beautification of the City by the planting of trees, shrubs and flowers, for the reason that San Francisco has less trees on its streets than any city of comparable size in the United States.

6. Arrangements are soon to be made to sell water to San Jose for 6½ cents per 100 cubic feet, and it will cost the city of San Jose to distribute this water to *all* consumers about 6½ cents additional, making a total of 13 cents per 100 cubic feet, delivered. *While 80 per cent of the consumers here in San Francisco are paying 30 cents per 100 cubic feet, which is over twice the charge to the ultimate consumer in San Jose.*

7. Eighteen telegrams were sent to 18 of the largest cities in the United States and the answers to these telegrams show that the average cost of water per 100 cubic feet for these cities is 10 cents, and that the average daily consumption of water per person in these cities is 140 gallons; while the average daily consumption of water per person in San Francisco is 80 gallons.

8. Hetch Hetchy water was brought into San Francisco on October 28, 1934, and today the Spring Valley Lakes and the Calaveras Reservoir contain more water than at any other time in their history.

9. We use about 52,000,000 gallons of water daily, and we have in storage in our lakes today a three years' supply. Hetch Hetchy reservoir contains a five years' supply, which gives us sufficient for eight years. On top of this enormous supply, we are allowing 70,000,000 gallons of water daily to waste itself by flowing into the Pacific Ocean.

10. We can increase our receipts by making attractive rates to a great many consumers of water here in San Francisco who are now pumping water from wells, to the amount of 9,000,000 gallons daily.

11. Our sister cities to the south (San Mateo, Palo Alto, San Jose), have made no investment in either Spring Valley or Hetch Hetchy. Why, therefore, enter into twenty-year contracts to furnish them with water at less than half the cost to residents of San Francisco who are bonded to the extent of over \$130,000,000.

12. The San Francisco Examiner of December 15, 1937, carried the story that a contract is about to be entered into for the sale of Hetch Hetchy water to Atherton, Menlo Park, Stanford University, and Moffett Field, for a period of twenty years.

13. The only reason given by the Public Utilities Commission for not reducing the water rates in San Francisco is that the water department will be confronted with a loss of revenue which, they claim, will have to be reflected in the tax rate. Nothing could be further from the truth. An analysis will show that the large taxpayer is the sole recipient of the benefits accruing from the profits of the water department reflected in the tax rate. The Russ Building, for example, pays annually for water \$3,186; a saving of 20 per cent therefore would amount to \$637.20. Whereas the small home owner, of which there are some 77,000, pays annually \$36 a year for water; a saving of 20 per cent therefore would amount to \$7.20.

The Russ Building pays annually for taxes \$122,212; the small home owner pays annually \$120 for taxes. Thus it can be seen at a glance that the large property holder receives far more savings in the reduction of his taxes than the small home owner. *It might be said at this point that this plain statement of facts is the crux of my whole argument.*

14. The following profits have been reflected in the tax rate for the past six years, showing an increase in consumption in water here in San Francisco:

Year	Amount	Average
1930-31	....	
1931-32	\$ 273,000	
1932-33	808,000	
1933-34	901,410	
1934-35	1,459,239	
1935-36	1,255,477	
1936-37	1,407,984	Average \$1,017,519

15. The history of large cities throughout the United States shows that whenever a cut is made in water rates the increased use of water more than offsets any loss anticipated by such reduction.

#### *Conclusion:*

Is San Francisco going to grow? Is she going to induce people to live here or is she going to drive them away from San Francisco? She will do so if she is going to continue to charge more for water than any other city in the United States and carry out a policy of creating profits for the purpose of reducing tax rates rather than reducing water rates to the home owners and giving them a chance to use the surplus water now going to waste.

As I have stated there are less trees in San Francisco than any other city of comparable size in the United States, and you will find that there are less gardens where shrubs and flowers grow in this city than in any other city in the United States. This is entirely due to the high cost of water. We have had several water famines here in

San Francisco which necessitated the bonding our city to the extent of \$130,000,000 to bring Hetch Hetchy water into San Francisco, so as to assure us of an adequate water supply.

If we pass the schedule of water rates recommended by the Public Utilities Commission we simply tell the people of San Mateo and Santa Clara Counties that they have the first call on our Hetch Hetchy water supply; and we tell the people of San Francisco that we are setting up a schedule of water rates that is twice what the people have to pay in San Mateo and Santa Clara counties, for the purpose of creating a huge profit in the water department that will reflect itself in a reduction of taxes to the *large* holders of real estate and improvements thereon in the down town section who, themselves, use very little water as they have their own wells. Or in other words, gentlemen of the Board, if we pass this schedule of water rates it simply means a reduction in the tax bill of the large property owner and the continuing of over 100,000 water ratepayers paying the highest rate for water here in San Francisco of any city in the United States and giving the entire benefit of the Hetch Hetchy Water Supply to the residents of San Mateo and Santa Clara counties.

The charter is very clear in reference to water rates. The Public Utilities Commission has the sole supervision of the water department, and the rates as called for in this schedule will remain in force until such time as the Public Utilities Commission desires to change them. This might be one year, five years, or ten years hence. The only power that this Board has, is to reject this schedule of water rates, which I am by this means requesting that you do, and request the Public Utilities Commission to eliminate all monthly meter charges except the 8-inch monthly charge of \$43.20, and flat rate bill for each ratepayer, including the meter charge compiled on the average that the ratepayer has paid for the last 12 months, less 20 per cent of said average. I am not asking that you concur with this statement in toto, but I do ask that you reject the rates as proposed, and issue a statement to the Public Utilities Commission as to your reasons therefor.

Enclosed you will find a map showing the Spring Valley System, and you will notice that the Hetch Hetchy Aqueduct runs into the Spring Valley System, and the water that does not run into the Spring Valley Water System from the Hetch Hetchy Reservoir, except the amount used by the Modesto and Turlock Irrigation Districts, as called for in the Raker Act, runs into the Tuolumne River, and then into the San Joaquin River, and finally into the Pacific Ocean.

By eliminating the meters this water can be used by the people of San Francisco and we will also have millions of gallons to sell to the people of San Mateo and Santa Clara counties.

Think it over and do not vote for Resolution No. 2331, "Schedule of Water Rates,"—send it back to the Public Utilities Commission.

Remember that if we agree to these rates they will remain in effect indefinitely, and that millions of gallons of water will run into the Pacific Ocean that could be used by the people of San Francisco.

JAMES B. MCSHEEHY,

Supervisor, Member Public Utilities Committee.

Supervisor Schmidt explained his vote in part as follows: I feel that Mr. Cahill has given us a promise that in the near future consideration will be given to the smaller users of water in our city and in our industries. I believe in subsidizing industries. If we do we will have more of them. I feel that if the income of the water department increases that the smaller user in our community will be given consideration at the earliest possible date. One half a loaf is better than no loaf at all. The questions of the low rate to San Jose—that should be made clear to the people that it is no discrimination against them. They should be given the information that we are

building up a surplus income that we would not be able to get if that rate was not given to San Jose.

Supervisor Uhl explained his vote in effect as follows: I am in a peculiar position. Revenues come in from outside counties. Now to vote against that, you are on the spot and against saving the taxpayers 15 cents on the rate. I regret that there is no consideration to the small user on the question of service or meter charge, which I think is wrong. I am going to vote *aye*, but I am doing so under protest. The Public Utilities Commission has not given consideration to the interests of the small user of water together with the larger users of water.

Terms such as those used by the United States Department of Agriculture to establish grades of meat, such as "Prime", "A-1", or "Choice", shall not be used in advertising meat for sale at retail unless such meat is in fact of such grade. (4) All animals of this species which have passed the "Yearling mutton" stage must be designated and sold as "mutton", and shall not be sold or offered for sale as "lamb". Ewes, which are hereby defined as mature females of the ovine species, must be designated and sold as "Ewe mutton".

(C) "Pork" is from animals of the porcine species. Boars or sows over eighteen months of age shall not be advertised or sold as "Young Pork" or "Pig Pork".

(D) In all cases of doubt arising under these definitions, the standards prescribed by the United States Department of Agriculture shall prevail.

Section 3. The following terms, used in describing the various retail cuts of meat shall be used only as defined herein, as follows:

(A) In naming the ribs of the carcass, the first or Number One rib shall be that which is closest to the neck, the other ribs being counted from that point.

(B-1) "Prime rib roast" shall consist of from the eighth to thirteenth ribs inclusive, of a beef carcass. "Short cut" shall be used only when the rib bone is not more than five inches in length from the junction of the eye and the rib. (2) "Beef round" shall consist of the buttocks cut to include the section from the socket bone to the gambrel or hock.

(3) "Round steak" shall be cut from the round, including top and bottom with or without bone. In advertising any cut or round steak, the particular kind of round as defined herein must be stated.

(A) "Top round steak" shall be cut from the upper or inside portion of the round with or without bone.

(B) "Bottom round steak" shall be cut from the under or outside portion of the round without bone.

(C) "Heel of round" shall be the lower portion of the round, triangular in shape.

(C-1) "Forequarter of lamb" shall consist of not less than thirteen ribs, shoulder, breast, shank and neck.

(2) "Shoulder of lamb" shall consist of the shoulder in one piece including not less than three ribs, and may include the neck and shank. "Shoulder of lamb, Boston style" shall not be used with the term "leg" or "leg of lamb". Its use shall be confined to shoulders of lamb as herein defined.

(3) Any part of the shoulder of lamb cut to contain less than three ribs shall be described as "Yoke of lamb". Any yoke of lamb cut with the major part of the breast attached must be advertised and sold as "Yoke of lamb with breast".

Section 4. Whenever a conflict arises in the definitions as set out herein, the standards of the United States Department of Agriculture shall prevail and conform in the operation of this ordinance.

Section 5. Any person violating any provision of this ordinance shall be guilty of a misdemeanor, and each day's continuance of such violation shall constitute a separate offense.

Section 6. The Board of Supervisors hereby declares that it would

have passed this ordinance and each section, sub-section, sub-division, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, sub-sections, sub-divisions, sentences, clauses or phrases is declared unconstitutional or invalid for any reason.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Board of Supervisors to Inquire of Public Utilities Commission if the Water Now Unconsumed and Wasted Might Not Be Used by San Franciscans at a Rate Not to Exceed the Average Paid During the Past Calendar Year.

(Code No. 15.022)

Supervisor Schmidt presented:

Resolution No. 3719, as follows:

Whereas, there will be held at San Francisco in 1939 the Golden Gate International Exposition to which will come from 10,000,000 to 15,000,000 visitors from all over the world and from all parts of our own country and of whom hundreds of thousands will be attracted to our beautiful city with thoughts of residing here permanently and perhaps also going into business or starting industries; and

Whereas, the beauty and attractiveness of our City is enhanced by the colorful flowers and shrubs and verdant trees and lawns that adorn its hills and dales, which, together with our wonderful climate, makes San Francisco one of the most desirable cities of all the world to live in; and

Whereas, our home owners and property owners would be greatly encouraged to plant more trees, shrubs, lawns and flowers if at little or no extra cost they could use all the water they wanted to between now and 1939, thereby rendering our City more beautiful and more alluring to the 10,000,000 to 15,000,000 visitors who will come to the Golden Gate International Exposition; and

Whereas, there is at the present time in storage in the municipally-owned reservoirs 118,200 millions of gallons of water, of which 110,000,000 gallons flow daily into the City's local distributing system although only 55,000,000 gallons daily are consumed and paid for so that 55,000,000 daily flow goes into the ocean as a wilful and wanton waste or is otherwise not made use of; and

Whereas, the Municipal Water Department is making a big net profit of millions of dollars yearly, of which \$1,407,984 in cash was recently transferred to the City's general fund; and since it is evident home owners and property owners are using as much water as they feel they can pay for; and

Whereas, if the unused 55,000,000 gallons daily inflow of water were made available to home owners and property owners without extra cost they would be encouraged to and would plant many more trees, shrubs, flowers and lawns, and many more thousands in 1939 would be allured into remaining to become residents and build homes to the enduring benefit of labor, business and industry; now, therefore, be it

Resolved, That the Board of Supervisors inquire of the Public Utilities Commission if the said commission cannot arrange a system whereby home owners and residential property owners can use the now unconsumed and wasted 55,000,000 gallons daily supply of water without any additional cost from July 1, 1937, to and including 1939, upon payment of the average of their water bills as same were paid during the past year so that our City will become more beautiful and alluring as a City of permanent residence for the millions of visitors who will come to the Exposition.

**In Memoriam—John I. Bradley.**

Supervisor Shannon presented the following:

The Board of Supervisors learns with deep sorrow and regret of the unfortunate and untimely death of John I. Bradley, for more than twenty-five years a loyal, efficient and faithful public servant.

In his service as a Probation Officer for five years, followed by twenty-one years in the Auditor's and Controller's office, Mr. Bradley was always faithful to his trust, efficient in his service, kindly in his demeanor, and made countless friends who mourn his passing. It is unfortunate that he met death shortly before he would have retired on a well-earned and deserved pension.

The Board extends to his widow its sincerest and deepest condolence, and adjourns out of respect to the memory of John I. Bradley.

*Adopted unanimously by rising vote.*

### Telegram to Federal Authority—Urging Appropriation for Coast Guard Air Base at San Francisco.

Congressman Havenner requested that Board send telegram to the President and to the Director of the Budget, urging federal appropriation of \$650,000 for proposed Coast Guard Air Base at San Francisco Airport, whereupon Supervisor Colman, seconded by Supervisor Reilly, moved that the Board go on record as suggested by Congressman Havenner and send telegram requesting that this appropriation be made. At the suggestion of Supervisor McSheehy, and accepted by Supervisors Colman and Reilly, the President of the Board appointed Supervisors McSheehy, Colman and Reilly as committee of three who drafted the following telegram, to-wit:

4:20 p. m.

San Francisco, December 27, 1937.

The President,  
The White House,  
The Director of the Budget,  
Treasury Department,  
Washington, D. C.

The voters of San Francisco last month approved a bond issue in the amount of \$2,850,000 for improvements to our Municipal Airport. A large part of this amount has been specifically set aside for the purpose of preparing and donating to the Federal Government a suitable site for the construction of a Coast Guard Air Station as authorized by H. R. 4893, passed by Congress and approved by the President on June 15, 1937. Additional money is also provided by this bond issue to pay San Francisco's half of the cost of dredging and constructing a sea plane channel and harbor at the airport, which was authorized by the Rivers and Harbors Act of 1937. This work will be undertaken in the immediate future, and the seaplane harbor when completed will become the Pacific Coast terminal of the Trans-Pacific Airpassenger and mail service for the Pan-American Airways, which is now being operated under a temporary permit at the Alameda Airport recently taken over by the Federal Government as the site for a Naval Airbase.

Coast Guard officials agree with us in the opinion that important economies can be effected if the construction of the Coast Guard Air Station can be carried on concurrently with the dredging of the Sea Plane Channel and Harbor and a preparation of the sites to be donated to the Coast Guard.

San Francisco's officials feel that our people, who in good faith have voted the full amount of money required to fulfill all the obligations imposed upon them by H. R. 4893 and by the Rivers and Harbors Act of 1937, are entitled to definite assurance that the Coast Guard Air Station will actually be established upon the site to be prepared and donated for that purpose. Such definite assurance can only be given by the appropriation of the money required to construct the station. The Board of Army Engineers has stipulated that Federal participation in the dredging of the Sea Plane Channel and Harbor shall be conditioned upon the donation by San Francisco of the site for the Coast Guard Station.

May we respectfully urge that budgetary approval be given at this time to an appropriation by Congress of the amount of money required to construct the Coast Guard Station at the San Francisco Airport.

The estimated cost of this construction, as prepared by the Commandant of the United States Coast Guard and presented to the Director of the Budget and Appropriations Committee of the House of Representatives by Congressman Tolan, is \$650,000. The amount of money to be expended by San Francisco in preparing and donating a site to the Coast Guard is estimated at more than \$650,000. This money is now available, and San Francisco is ready to go ahead with the work.
